## Adams County History *(Friendship, County Seat)*

Originally home to American Indian tribes, Adams County was first settled in the 1830s as lumbercamps were established throughout the area. It was named in honor of President John Adams and Quincy was selected as the county seat until it was moved by voters to Friendship in 1858. Early residents raised crops, farmed livestock and harvested timber, and the area grew slowly until the development of the railroad. By 1900 its population had reached 9,141 and the area continued to grow. Today Adams County is home to approximately 20,088 residents.

# Adams County Communities

## **ADAMS**

Adams was organized in 1857 and was once part of Grand Marsh and Lincoln. The fertile soil provided the means necessary for raising grain and harvesting cranberries and many settlers arrived to farm the land. Land speculators offered the railroad company a lower price than nearby Friendship and rail lines were built through Adams, allowing for dramatic growth and development. Today Adams is home to approximately 1,741 residents.

## **DELL PRAIRIE**

Settlers were attracted to the fertile soil, ample timber and access to water of the Dell Prairie area. Its name was a combination of the Dalles found nearby and the lush prairie essential for grazing stock. By 1876 a church and school were established to meet the growing needs of the community and early businesses included blacksmith shops, a wagon shop, general store, trout pond, dance hall and specialty shops. Today Dell Prairie is home to approximately 1,526 residents.

## **EASTON**

Easton was originally part of New Chester until 1857 when the towns were divided. The nearby stream provided the power necessary for a flour mill as the soil was ideal for raising wheat, oats, grains and also cranberries. By 1880 a dam was constructed to harvest and breed trout, and the community housed a millinery shop, blacksmith shop, lumber mill and general store. Today Easton is home to approximately 1,167 residents.

## **FRIENDSHIP (COUNTY SEAT)**

Friendship was platted by Luther Stowell and William Burbank and named after their hometown in New York. Residents successfully petitioned the relocation of the county seat from Quincy to Friendship in 1858 and the area began to grow. By 1880 Friendship housed a variety of businesses including mills, general stores, grocery stores, hardware stores, feed and farming implements, blacksmith shops, law offices, a printing office and courthouse. Construction of the railroad through nearby Adams affected the area's growth and the community's population was subsequently affected. Today Friendship is home to approximately 731 residents.

# Shop • Dine • Play • Stay

locally and help support businesses throughout Adams & Juneau Counties.

# Adams County Communities

## JACKSON

Jackson, one of the oldest towns in Adams County, was settled as pioneers were drawn to the beautiful scenery, ample timber, lush prairie and abundant water supply. Early farmers raised wheat and a variety of fruits and cattle. By 1876 Jackson housed two saloons, a blacksmith shop, broom manufacturer and a general store. Today Jackson is home to approximately 940 residents.

## NEW CHESTER

New Chester was originally part of Easton until 1857 when the towns were divided. The first church was established in 1858 and early residents harvested timber, farmed crops, raised livestock and quarried limestone. As rail lines were constructed the area began to grow and schools were established to meet the needs of the community. Today New Chester is home to approximately 2,182 residents.

## PRESTON

Preston was organized as settlers were attracted to the fertile farmland, proximity to water and pristine landscape. Mills were established to harvest the water power and the area was known for its excellent cranberry production. It is home to the only state park in Adams County and the Roche-A-Cri Mound, a sandstone formation which attracts many visitors. Today Preston is home to approximately 1,312 residents.

## QUINCY

Quincy, one of the oldest towns in Adams County, was originally selected as the county seat. Settlers were attracted to the ample water supply of nearby Castle Rock Lake. Mills and a dam were established to harvest its power. The county seat was moved to Friendship in 1858 and the community continued to thrive. Early industry was dominated by agriculture as residents raised livestock and farmed crops. Today Quincy is home to approximately 1,120 residents.

## ROME

Rome was settled by pioneers who were drawn to the easy access to water, fertile soil and ample timber. Early residents farmed cranberries and harvested grain and many flour and timber mills were established. By 1880 a hotel, general store, grocery store, lumberyard, school and specialty shops were thriving. It is now widely known for its excellent recreational opportunities that attract many visitors each year. Today Rome is home to approximately 2,912 residents.

# Adams County Communities

## SPRINGVILLE

Once home to an Indian camping ground known as Indian Spring, Springville was settled in the mid 1800s. Its name was derived from the abundant spring water streams found throughout the area which powered several flour mills and early industry was dominated by agriculture. By 1880 Springville housed a school and grocery store and the area continued to grow. Today Springville is home to approximately 1,140 residents.

## STRONGS PRAIRIE

Strongs Prairie, once the most populous community in Adams County, was settled in the 1850s as pioneers were attracted to the ample water supply and fertile farmland. The area grew dramatically as flour mills were established. By 1876 the area housed several grocery stores, general stores, a wagon shop, blacksmith shop, shoe shop and a church. Today Strongs Prairie is home to approximately 1,075 residents.

## *Juneau County History* (Mauston, County Seat)

Originally home to American Indian tribes, Juneau County was first settled in the 1830s as trading posts were established throughout the area. It was organized from Adams County in 1857 and Mauston was selected as the county seat. Early residents raised wheat, tobacco, corn and cranberries, and ample timber supplied the sawmills that were established along the local rivers. Development of the railroad allowed for growth and by 1900 its population had reached 20,629. Today Juneau County is home to approximately 26,451 residents.

*\*Populations are approximate.*

# *Juneau County Communities*

### **CAMP DOUGLAS**

Camp Douglas was established as the Milwaukee Road was established through Juneau County in the 1850s. The area was first known as Douglas Camp Junction in honor of James Douglas who founded a fueling camp for the local railroad. In 1889 a rifle range was constructed for the Wisconsin National Guard which is now Volk Field Air National Guard Base that currently employs many of its residents. Today Camp Douglas is home to approximately 557 residents.

### **ELROY**

Elroy was settled in the 1850s and the first post office was established in 1857. Streets were platted the following year and mills and a dam were constructed to harvest the local water power. Railroad development allowed for dramatic growth and in 1879 Elroy was incorporated. The area is now known for the 32 mile Elroy-Sparta Trail which attracts many recreational enthusiasts each year. Today Elroy is home to approximately 1,463 residents.

### **HUSTLER**

Hustler was settled in the 1870s as rail lines were constructed through the area. Streets were platted in 1894 and by 1914 the community housed an opera house, lumberyard, meat market, bank and an array of specialty shops. The area grew slowly but remains a tight-knit community, celebrating its Hustler Fest each year. Today Hustler is home to approximately 115 residents.

### **LYNDON STATION**

The community was organized in 1857 as it grew from a logging camp in 1838 and its name was suggested by James Cope after his hometown of Lyndon, Vermont. The first school was established in 1877 and John Dixon served as the area's first postmaster. Railroad construction allowed for growth and early industry was dominated by lumbering and agriculture. Today Lyndon Station is home to approximately 449 residents.

### **MAUSTON (COUNTY SEAT)**

Mauston, first known as Maughs Mills, was settled in the 1850s and its name was derived from Milton Maughs who platted streets in 1854. The area grew quickly as settlers were attracted to the fertile soil, ample water supply and heavy timber. Mauston was incorporated in 1860 and by 1869 businesses included harness shops, general stores, a barber shop, shoe shop, pharmacy, bank, lumberyard and specialty shops. Mauston was selected as the county seat and the area continued to develop. In 1876 the Boorman House was constructed which now houses the Juneau County Historical Society Museum. Today Mauston is home to approximately 4,331 residents.

# Juneau County Communities

## NECEDAH

Necedah, an American Indian word for yellow waters, was organized in 1853. The first post office was established in 1854 with Judge E.S. Miner serving as the area's first postmaster. As the community was once the most densely forested area in Juneau County, lumber mills were constructed and the area grew dramatically. Necedah developed as a commercial and manufacturing center and by 1890 businesses included a livery stable, hotel, hardware store and early residents farmed cherries, apples and pears. Today Necedah is home to approximately 2,274 residents.

## NEW LISBON

New Lisbon was first settled in 1845 and its name was derived from Lisbon, Ohio, from where many pioneers originated. The community was organized in 1853 and developed quickly upon construction of the railroad. By 1900 New Lisbon housed a brewery, hotel, shoe shop, general store, flour mill and specialty shops. The Gee's Slough Group of Indian Mounds found in the area attracts many visitors each year and is now on the National Register of Historic Places. Today New Lisbon is home to approximately 2,353 residents.

## WONEWOC

Originally part of Sauk County, Wonewoc was settled in 1842 as pioneers were attracted to the fertile soil and ample water supply. By 1857 a hotel and post office were established and the area grew dramatically as rail lines were constructed. By 1800 Wonewoc housed a physician's office, law office, church, school and the area continued to thrive. It is now known for its vast recreational opportunities that draw many visitors annually. Today Wonewoc is home to approximately 758 residents.

## WISCONSIN DELLS

Wisconsin Dells, originally a famous reference point for traders and explorers, was founded in 1857 upon the arrival of the railroad. The community was first known as Kilbourn and is one of the oldest resort areas in all of Wisconsin. The natural beauty of the area attracted tourists from across the country, many of whom became permanent residents. By 1900 businesses were thriving and the community continued to grow. Today Wisconsin Dells is home to approximately 2,468 residents.

## Tips on Recycling & Living Greener

-  **Recycle as much as you can.** Even simple everyday things, such as plastic bottles and aluminum cans, can make a huge difference.
-  **Switch your incandescent light bulbs to compact fluorescent ones.** Save money and energy.
-  **Bring your own reusable shopping bags with you to the supermarket or the mall.**
-  **Donate your unwanted clothing to a local charity.** Eyeglasses, household items, electronics and even vehicles can be accepted.
-  **Recycle your used ink and toner cartridges.** Most office supply stores accept used cartridges.
-  **Recycle your used batteries.** This prevents poisonous mercury from seeping into our water supplies and soil. Switch to rechargeable ones.
-  **Switch to unbleached toilet paper, paper towels and coffee filters.** Avoiding bleached products can help preserve our water supply and soil.
-  **Unplug any unused appliances.** Your cellphone charger uses electricity, even when your phone isn't charging - especially if you are not going to be home.
-  **Bring your own lunch.** You'll avoid using non-recyclable styrofoam to-go containers and unnecessary throw-away packaging.
-  **Start a compost bin in your yard.** There are even ones that you can store under your kitchen sink.
-  **Be crafty.** Let old items be an inspiration for a craft project and re-purpose old items. Punch holes in tin cans to make candle luminaries or use empty yogurt containers to organize nuts and bolts.
-  **Have a green-cleaning product party.** Invite your friends over to make enough vinegar-based homemade cleaners to share.
-  **Run your washer/dryer/dishwasher after 5pm.** This is when less electricity is being used, especially in larger cities. In air-conditioned summer months this can help prevent blackouts.

## Parks & Recreation

---

### ADAMS COUNTY CASTLE ROCK PARK

2397 Hwy. Z, Rt. 2 | Friendship | (608) 339-7713

Located on 141 acres southwest of Friendship, Adams County Castle Rock County Park features a boat launch, fishing opportunities, swimming beach, playground equipment, recreational trails and picnic areas and is open year-round.

### BUCKHORN STATE PARK

Buckhorn Park Ave. | Necedah | (608) 847-9389

Located on 4,500 acres near Castle Rock Lake, Buckhorn State Park features a primitive campground, handicap accessible cabin, boat launch, fishing opportunities, swimming beach, waterfowl hunting blinds, picnic areas and recreational trails.

### JUNEAU COUNTY CASTLE ROCK PARK

650 Prairie St. | Mauston | (608) 847-7089

Located on 160 acres in the heart of Mauston, Juneau County Castle Rock Park features a modern campground, boat launch, fishing opportunities, swimming beach, playground equipment, picnic areas, concessions and is open year-round.

### KENNEDY COUNTY PARK

Co. Rd. M | New Lisbon | (608) 847-9389

Located on 200 acres near the Lemonweir River, Kennedy County Park features a primitive campground, boat launch, fishing opportunities, playground equipment, picnic areas and recreational trails.

### PETENWELL COUNTY PARK

2004 Bighorn Dr. | Arkdale | (608) 564-7513

Located on 431 acres northwest of Friendship, Petenwell County Park features a modern campground, boat launch, fishing opportunities, swimming beach, playground equipment, game room, recreational trails, picnic areas and is open year-round.

### WILDERNESS COUNTY PARK

N14054 N 21st Ave. | Necedah | (608) 565-7285

Located on 80 acres near the Petenwell Dam, Wilderness County Park features a modern campground, boat launch, fishing opportunities, swimming beach, playground equipment, recreational trails, picnic areas, concessions and is open year-round.

***\*For more information on parks throughout Adams County, call (608) 339-4230 or for more information on parks throughout Juneau County, call (608) 847-9389.***

***\*\*Seasonal boat slip reservations are accepted on a first-come basis after January 1st. Monthly, weekly and daily boat slip rentals are only accepted at the time of use.***

***\*\*\*Camping reservations can be made by calling (888) 947-2757 or online at [www.wiparks.net](http://www.wiparks.net).***

# Hunting Safety

**All hunters should consider taking an advanced hunter education class to learn the latest hunting techniques along with tips on coming home alive.**

**Here are five suggestions for a safe and successful hunting experience:**

1. Get a detailed map of the area you are hunting, review it before you leave, and carry it with you in the field.
2. Carry a compass and know how to use it. Decide ahead of time the direction to head for if you get lost or disoriented.
3. Weather can change quickly, so hunters should carry a simple survival kit and be prepared for an unexpected overnight stay in the field. The survival kit should contain a rope, a knife, water, waterproof matches, an emergency shelter, and first aid supplies.
4. If you are on the water, make sure to wear a personal flotation device (life preserver).
5. Know your hunting partners' physical and emotional limitations, as well as your own, and don't push your partners or yourself beyond those limits.

# Boating Safety

## Operating Watercraft

**Follow these guidelines to help prevent and prepare for capsizing, swamping, or someone falling overboard.**

Make sure that you and your passengers are wearing life jackets while the boat is moving.

Attach the ignition safety lanyard to your wrist, clothes, or life jacket.

Don't allow anyone to sit on the gunwale, bow, seat backs, motor cover, or areas not designed for seating. Also, don't let anyone sit on pedestal seats when craft is not in idle.

Don't overload your boat. Balance the load of passengers and gear stored on-board.

Keep your center of gravity low by not allowing people to stand up or move around while craft is in motion.

In small boats, don't allow anyone to lean beyond the gunwale.

Turn boat at slow rates of speed.

Secure the anchor line to the bow, never to the stern.

Don't risk operating water craft in rough conditions or bad weather.

# Boating Safety

## Know Your Craft

## Who May Operate a Motorboat (Other Than a Personal Watercraft)

### For engines 25 horsepower or less:

Those under age 12 may operate without restrictions.

### For engines over 25 horsepower through 75 horsepower:

Those under age 12 must have someone 21 years of age or older on board within reach of the controls.

### For engines over 75 horsepower:

No children under age 12 may operate, even with an adult on board.

### Other restrictions apply to boat operators 12 to 17 years old:

Operators from 12 to 17 years of age may operate engines of 25 horsepower or lower with no restrictions.

### For engines over 25 horsepower:

Operators 12 to 17 years of age must have:

A watercraft operator's permit, or someone age 21 years or older on board within reach of the controls.

# Boating Safety

## Flotation Devices

### Offshore Life Jackets - Type 1:

For rough or remote waters where rescue may take awhile. Provide the most buoyancy, excellent for flotation, turns most unconscious persons face up in the water.

### Near-Shore Vests - Type 2:

Good for calm waters when quick assistance or rescue is likely. Turns some unconscious wearers face up in the water, but not as efficiently as offshore life jackets.

### Flotation Aids - Type 3:

Vests or full-sleeved jackets good for calm waters when quick assistance is likely. Not for rough waters. They will not turn most unconscious persons face up. Used for sports, such as water-skiing. Some inflate in water.

### Unwearable / Throwable Devices - Type 4:

Cushions and ring buoys designed to be thrown to someone in trouble. Type 4 is not designed to be worn. Not for rough waters - not for anyone unable to hold on to it.

### Special Use - Type 5:

Vests, hybrids/others designed for specific activities, for example windsurfing, kayaking, water-skiing. Some Type 5 devices inflate when entering the water. To be acceptable, Type 5 must be used in compliance with their label instructions.

**All watercraft must have at least one** Coast Guard Approved Type 1, 2, 3 or 5 flotation device that is the proper size for each person on board or being towed.

**All devices must** be in good condition and easily accessible.

**Children under age 10 must wear a device** when on board a boat that is underway unless: in an enclosed cabin or below deck or on an anchored boat that is being used for swimming or diving or passenger craft with a licensed captain.

**Along with the above** at least one approved Type 4 must be on board boats 16 ft. or longer (except canoes and kayaks) and immediately available.

**A Coast Guard approved Type 5 device may be substituted** for any other Coast Guard approved device if it meets the same requirements and is noted on the label.

**Anyone riding a jet ski or other Personal Water Craft** must wear an approved -non inflating flotation device, as well as anyone being towed by a water craft.

# ATV Safety

- Read the owner's manual and know your vehicle thoroughly.
- Check your vehicle before you ride.
- Wear protective equipment and clothing.
- Don't lend your vehicle to unskilled riders.
- Supervise young or inexperienced riders.
- Never carry a passenger on vehicles meant for one rider.
- Do not operate under the influence of drugs or alcohol.
- Drive at speeds that are appropriate to trail conditions.
- Stay to the right on trails.
- Stay away from thin ice, open water and wetlands
- Know the weather forecast.
- Make sure headlights and taillights work properly.
- Maintain safe distances between other riders.
- Reduce your speed when riding at night.
- Yield to other motor vehicles and trail users.
- Young or beginning riders are encouraged to take a safety training course.

# Bicycle Safety

- Always wear a properly fitting bike helmet as most serious injuries are to the head.
- Be sure your handlebars, seat and wheels fit snugly.
- Keep your bike in good shape by checking and oiling your chain, making sure your brakes work properly and maintaining your tire pressure.
- Always ride with both hands on the handlebars except when doing turn signals.
- When leaving a driveway, curb or alleyway always stop and check for traffic in both directions.
- Cross only at intersections.
- Use the crosswalk to walk your bike across busy intersections and follow the traffic signals.
- Never ride against traffic. Travel in the same direction as the cars.
- Whenever you can, use bike routes and avoid busy streets.
- Don't ride near parked cars as doors can open and cause accidents.
- Obey all traffic signs and traffic lights.
- When biking with friends, ride in a single file.
- Always pass other bikers or pedestrians on the left and say "On your left!" to make your presence known.
- Always use bicycle hand signals to alert traffic of your changing direction.

# Adams County ATV & Bicycle Trails

# Juneau County Bicycle Trails

# Snowmobile Safety

- Do not consume alcohol or take drugs prior to or during your snowmobile trip. Doing so increases your chances of injury or death.
- Slow down and don't cut to the inside of the trail corners. It's dangerous and illegal.
- If you snowmobile at night, don't override your lights.
- Always use the buddy system. Never ride off alone.
- Drowning is one of the causes of many snowmobile fatalities. Whenever possible, avoid the ice.
- Wear sensible, protective clothing designed for operating a snowmobile.
- Use a full size helmet, goggles, or visor to prevent injuries from twigs, stones, ice chips and other debris.
- Avoid wearing long scarves. They may get caught in moving parts of the snowmobile.
- Know the terrain you are going to ride. If unfamiliar to you, ask someone who has traveled over it before.
- Know the weather forecast, especially the ice and snow conditions.
- Be sure your snowmobile is in top-notch mechanical condition throughout the months of use.
- Familiarize yourself with the snowmobile you are driving. Thoroughly read the manual that accompanies the snowmobile.
- Do not pursue domestic or wild animals. That is not the conduct of a sportsman. Report such violations to the nearest law enforcement officer.

## Common Trail Signs

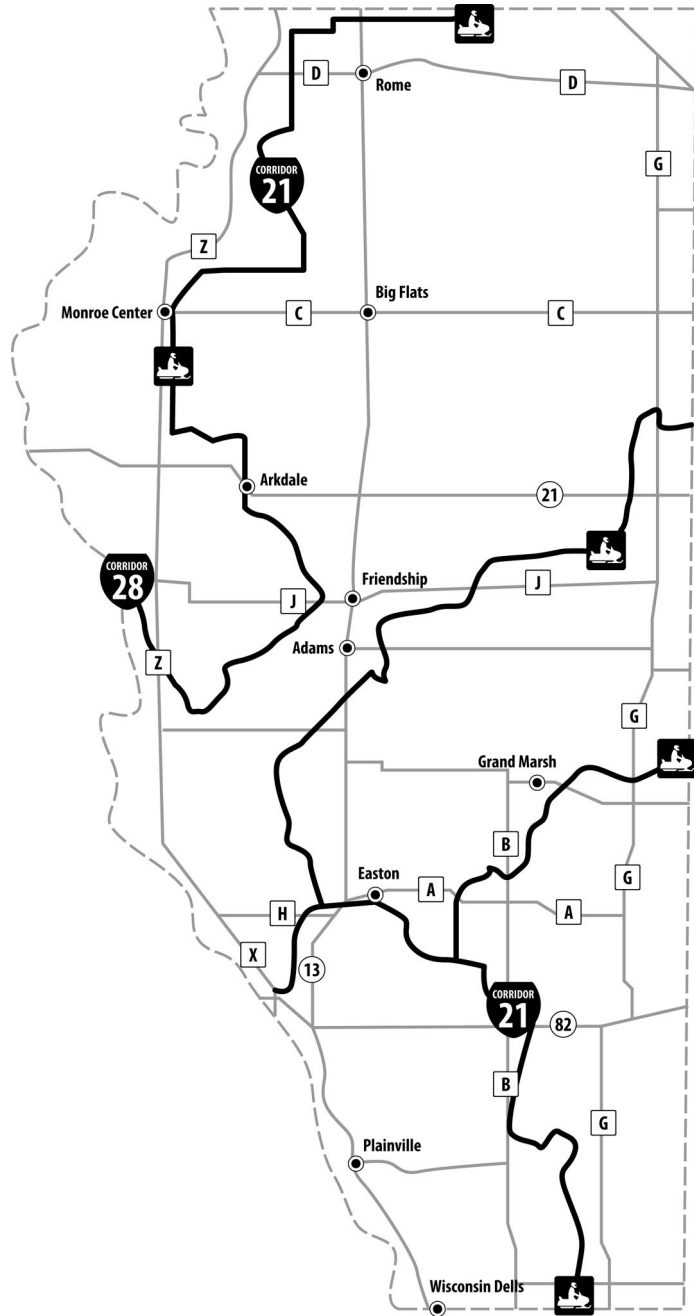

# Snowmobile Safety

Communication is an essential part of safe riding. Hand signals are a practical way to communicate between other riders and traffic.

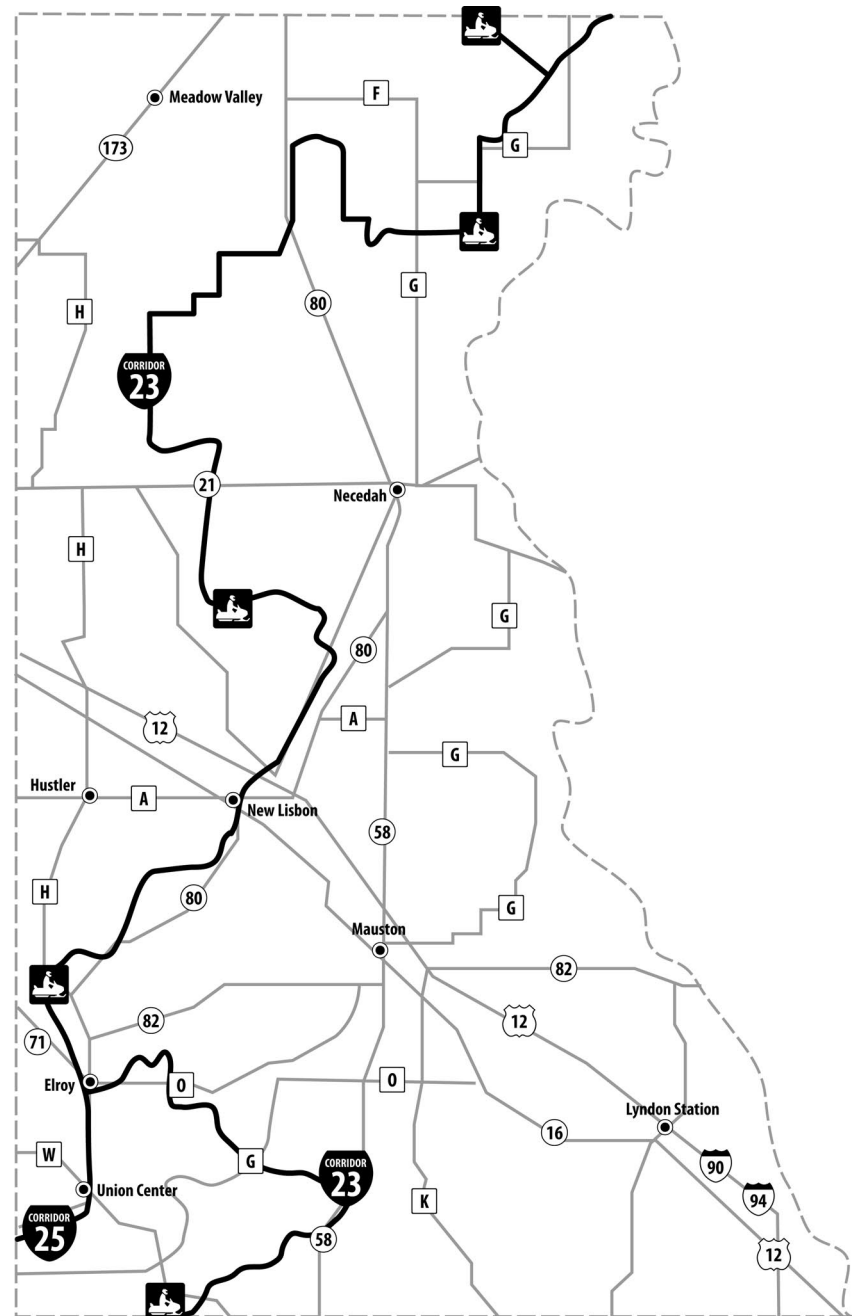

Be sure to give easy to see and clear hand signals when snowmobiling. Hand signals should never be subtle, but always deliberate.

## Emergency Planning

### ESCAPE ROUTES

Everyone in your family should know the best ways to exit the house in case of a disaster. Teach your young children how to open sliding doors, windows and other exits. Designate a meeting place where the family can gather after escaping from the house.

### FLASHLIGHTS

The whole family needs to know where to find flashlights. Periodically check the batteries.

### FULLY CHARGED CELL PHONES

All family members should keep their cell phones charged. Make a habit of charging them, while everyone is asleep. Cell phones can be lifesavers in emergencies.

### LIST OF VALUABLES

Keep this document listing your possessions (and if possible, a video of your home interior) in a fireproof safe, or in a safe deposit box at a bank.

### COMMUNITY EMERGENCY PLANS

Familiarize yourself with community evacuation plans and neighborhood escape routes. Post a copy of them in a highly visible place in your home.

### THUNDERSTORM/TORNADO

- Remove dead branches from trees beforehand to avoid injury or damage.
- After seeing lightning, if you hear thunder in less than 30 seconds, it is recommended that you stay inside for 30 minutes after the thunder has ceased.
- The inside of a car is safer than the outside, as a lightning strike will simply pass through the car as long as you aren't in contact with any metal.
- Unplug all major appliances, as a power surge can cause serious damage.
- Avoid all tall structures and elevated areas as well as large amounts of metal.

### FIRES

- Make sure that every level of your house has a smoke detector, and be sure to test them once a month. Have the family plan an emergency exit route.
- Always keep track of any stoves or high-temperature/high-voltage appliances that are running. Be sure to never leave any cooking unattended.
- Keep lighters and matches away from children.
- If a burn occurs, soak the skin in cool water. If the skin blisters, seek medical assistance.

## ⊕ *Emergency First-Aid Tips* ⊕

### FIRST AID FOR CPR & HEART ATTACK

#### **CPR**

CPR is to be administered when a person is not breathing or has no pulse. Be quick to act by remembering the A,B,C's: Airway, Breathing & Circulation.

#### **Airway:**

Place the person on a firm surface, on their back. Kneel next to the person's neck and shoulders. Open the person's airway by tilting back the head and lifting the chin.

#### **Breathing:**

With the head tilted and chin lifted, pinch the nostrils shut and cover the person's mouth with yours. Give two slow breaths.

#### **Circulation:**

Find the hand position on the center of the breastbone. Place the heel of your hand on that position, with your other hand on top of the first hand. Use your upper body weight to push down. Give two compressions per second. Compress the chest at a rate equal to 100/minute. Perform 30 compressions at this rate. Repeat until an ambulance arrives.

#### **HEART ATTACK**

Symptoms of a heart attack may include any of the following:

- Uncomfortable pressure, fullness or squeezing pain in the center of the chest.
- Expanded pain in the upper abdomen.
- Shortness of breath.
- Pain or numbness in either arms, shoulders, neck, jaw or teeth.
- Dizziness or fainting.
- Nausea and sweating.

**If you or someone else may be having a heart attack - follow these steps immediately:**

- **DIAL 911**
- **Chew and swallow Aspirin (unless you are allergic/not allowed to)**
- **Take Nitroglycerin (only if prescribed)**
- **Begin CPR if the person is unconscious**

**IN AN EMERGENCY, DIAL 911**

# ⊕ *Emergency First-Aid Tips* ⊕

## *FIRST AID FOR BURNS & CHOKING*

### **BURNS**

**For minor 1st and 2nd degree burns smaller than 3" in diameter:** Cool the Burn. Run cool water over the burned area for 5 minutes, or until the pain diminishes. Never put ice on a burn!

#### **Bandage the burn with sterile gauze:**

It is important to use loosely wrapped gauze. This will avoid pressure and the bandage protects blisters. NEVER put lotions, vaseline, ointments or butter on burn. Do not break any blisters, which can cause infection.

#### **Take Aspirin, Ibuprofen, Naproxen or Acetaminophen to relieve pain:**

Minor burns usually heal with these basic treatments. Be aware for signs of infection which may include: increased pain, redness, fever, swelling or oozing. If symptoms develop, seek medical help. Avoid tanning the burned area for at least a year. Protect the area with sunscreen outdoors. Avoid giving aspirin to children.

***For 3rd degree burns/all major burns - DIAL 911***

***DO NOT run cold water over large severe burns - this can cause shock.***

***DO NOT remove burnt clothing.***

***Check for signs of breathing/coughing/movement.***

***If there are no signs of breathing begin CPR.***

***Elevate burned areas above heart level, if possible.***

***Cover the burn(s) with cool, sterile, moist bandages, towels or cloth.***

### **CHOKING**

Most people clutch at their throats when choking, an obvious symbol for help. However, if a person isn't giving that signal, be alert for these indications. Inability to talk, difficulty breathing or noisy breathing, inability to cough forcefully, skin/lips/nails turning blue, loss of consciousness.

The Red Cross recommends a "five-and-five" method for first aid: First give five blows between the person's shoulders with the heel of your hand. Second, perform the Heimlich maneuver (abdominal thrusts) five times. Alternate between five back blows and five abdominal thrusts until the blockage is dislodged.

## *FIRST AID FOR INSECT BITES/ANAPHYLAXIS & POISON SAFETY*

### **INSECT BITES/ANAPHYLAXIS**

**Anaphylaxis is a severe allergic reaction from insect bites (latex, food and drug allergies can also cause Anaphylaxis). Typical symptoms include hives, the swelling of lips or eyes, swollen throat, drop in blood pressure, light headedness, confusion, nausea or diarrhea. If someone is having an allergic reaction from an insect bite with these symptoms:**

#### **CALL 911.**

**Administer emergency prescription medication.** See if the person is carrying special emergency allergy medicine and give it to them according to the directions.

#### **Loosen tight clothing.**

**Lay the person down.** The person should lay down on their back with feet elevated. Turn them on their side if they are vomiting or bleeding from their mouth to prevent them from choking.

**If they are not breathing - administer CPR.** Most insect bite reactions are mild and cause no allergic reaction. If stung by a bee, use a straight edged object, like a credit card, to scrape away the stinger. Don't use tweezers - they can pinch more venom out of the stinger. Apply an ice pack to the area and take an over the counter pain reliever.

### **POISON PREVENTION**

**Teach your children about poison and how it can look like a food or drink. They should always ask an adult before eating or drinking anything. Have them learn the poison control phone number: 1-800-222-1222 and keep it programmed or posted near all your phones. Here are some prevention tips.**

**Lock up your poisons and medications.** Keep them out of the reach of children, lock them up if possible. Make sure your children understand that medicine is not candy.

**Follow directions carefully.** Read your labels. Be sure to use and store all poisons and medications properly according to recommendations.

**Keep your pets safe from household chemicals, too.** Don't allow pets near areas that have just been cleaned with chemicals, such as freshly mopped floors or bleached bathtubs and sinks. Clean up any antifreeze/coolant spills. Pets like the flavor but they can die if they ingest it. Store poisonous foods or plants in areas that your pets cannot access. Call your local emergency veterinary hospital if you believe your pet has been poisoned.

# Safety Tips for Parents & For Kids

## PARENTS:

- Teach your kids that an emergency is when you need help from a doctor, a police officer or a firefighter.
- Designate a safe place by your house that a child can go to if they need help right away.
- Have your kids memorize your address and phone numbers. They should also know your full name and where you work.

## KIDS:

### FIRE SAFETY

- If you or someone else is on fire - remember to STOP, DROP and ROLL. Wrap a blanket on the person to help put out the fire.
- If there is a fire, leave the house as fast as you can! Crawl on the floor to avoid smoke and if the door is hot, don't open it - find another way out.
- Learn all the fire exits in your house. Assign a safe place outside for everyone to meet in case of a fire emergency.

### HOME ALONE

- Never tell anyone that you are home alone.
- If someone calls and ask for your mom and dad, tell them "They cannot come to the phone right now, can you please call back later?"
- Do not answer the door, unless it is someone that you know your parents have okay'd them to come over.
