## *Burnett County History* (Siren, County Seat)

Once home to Indians, Burnett County was first settled by fur traders and missionaries. It was part of Washburn County until Burnett County was officially established in 1856. The original county seat was located in Grantsburg as it was the trade and business center at the time. The Soo Line Railroad was constructed in 1884 and businesses and farms began to flourish. Early industry included lumbering, agriculture and tourism and the area began to develop. The county seat was moved to Siren in 1982 and Burnett County has continued to thrive. Today Burnett County is home to approximately 15,674 residents.

### **GRANTSBURG**

First settled in 1851 by Canute Anderson, Grantsburg was named after General Ulysses S. Grant. Anderson established its first post office and later a sawmill. Upon platting the village, Grantsburg continued to grow and the community was home to a variety of businesses including a hotel, blacksmith shops, churches, saloons and a school. The railroad arrived in 1884 and Grantsburg was incorporated in 1885. Grantsburg was selected as the county seat until 1982 when it was moved to Siren. Today Grantsburg is home to approximately 1,369 residents.

### **SIREN (COUNTY SEAT)**

In 1870 settlers arrived to the Siren area and a post office was established in 1895 by Charles F. Segerstrom. Segerstrom named the post office Syren, a Swedish word for lilacs, and the community was called Siren. By 1900 a creamery and a general store were constructed. As the Soo Line Railroad arrived, the area began to thrive and it has been the county seat since 1982. Today Siren is home to approximately 856 residents.

### **WEBSTER**

Webster was called Clam Lake as its first post office was established in 1896. J. D. Rice renamed the community Webster after the American lexicographer Noah Webster. In 1901 the first creamery was built and telephone service was established in 1906. Upon construction of the railroad in 1912 Webster continued to grow and develop. Today Webster is home to approximately 656 residents.

## *Douglas County History* (Superior, County Seat)

Once part of LaPointe County, Douglas County was originally home to Indians. Fur traders and missionaries utilized Indian trails and settlement began in the 1850's. Douglas County was named after Illinois Senator Stephen A. Douglas and Superior was chosen as the county seat. The first county courthouse was built in 1871 and the area began to thrive. With the arrival of the railroad, Douglas County began to boom and lumbering, mining and shipping led early industry. Communities formed near rail centers and waterways. By 1900 the population of Douglas County reached 36,335. Today Douglas County is home to approximately 44,159 residents.

*\*Populations are approximate.*

# *Douglas County Communities*

## **LAKE NEBAGAMON**

Lumber camps were established by Frederick Weyerhauser in the Lake Nebagamon area and his son John platted streets and constructed businesses. The community was named after nearby Lake Nebagamon, an Indian word meaning, "place to hunt deer by fire on the water." By 1900 the area housed churches, schools, a bank, creamery, dance hall and a variety of specialty shops. Today Lake Nebagamon is home to approximately 1,015 residents.

## **OLIVER**

Settlers were drawn to the ample timber and water power of the area and streets were platted in 1911. The community was named in honor of Henry W. Oliver, an iron miner who established one of the largest iron manufacturing centers in the country at the time. Construction of a bridge and the establishment of rail lines provided the means to expand and the community has continued to thrive. Today Oliver is home to approximately 358 residents.

## **POPLAR**

Access to water and fertile soil attracted settlers to the Poplar area and a post office and general store were established. In 1917 the community officially became a village and railroad development prompted growth. Poplar is the home of Richard I. Bong, a distinguished WWII fighter pilot recognized as the "Ace of Aces," who received the Congressional Medal of Honor for having been the highest scoring air ace in U.S. history. Today Poplar is home to approximately 604 residents.

## **SOLON SPRINGS**

First known as White Birch, Solon Springs was first surveyed by George Stuntz and later settled by Charles Lord. By 1855 the area housed a real estate office, saloon and boarding house. As rail lines were constructed in 1883, the community began to develop and businesses began to flourish. In 1902 inventor Tom Solon established the Solon Springs Bottling Company and White Birch was renamed Solon Springs in his honor of his contributions to the community in 1896. Today Solon Springs is home to approximately 600 residents.

## **SUPERIOR (COUNTY SEAT)**

Once home to Indians and fur traders, Superior was founded in 1854 and named after Lake Superior, the largest freshwater lake in the world. In 1889 Superior was incorporated and selected as the county seat. The community developed dramatically due to its proximity to water and access to rail lines which allowed Superior to become an important trade center. As resorts were established, tourism began to lead industry. Today Superior is home to approximately 27,244 residents.

Badger; Woodchuck; Jackrabbit; Moose; Flying Squirrel

*\*Please contact your local DNR office for specific hunting and trapping zone regulations. For general information on firearm safety training call: 1 (888) 936-7463.*

# Hunting Safety

**All hunters should consider taking an advanced hunter education class to learn the latest hunting techniques along with tips on coming home alive.**

**Here are five suggestions for a safe and successful hunting experience:**

1. Get a detailed map of the area you are hunting, review it before you leave, and carry it with you in the field.
2. Carry a compass and know how to use it. Decide ahead of time the direction to head for if you get lost or disoriented.
3. Weather can change quickly, so hunters should carry a simple survival kit and be prepared for an unexpected overnight stay in the field. The survival kit should contain a rope, a knife, water, waterproof matches, an emergency shelter, and first aid supplies.
4. If you are on the water, make sure to wear a personal flotation device (life preserver).
5. Know your hunting partners' physical and emotional limitations, as well as your own, and don't push your partners or yourself beyond those limits.

# Boating Safety

---

## Operating Watercraft

**Follow these guidelines to help prevent and prepare for capsizing, swamping, or someone falling overboard.**

Make sure that you and your passengers are wearing life jackets while the boat is moving.

Attach the ignition safety lanyard to your wrist, clothes, or life jacket.

Don't allow anyone to sit on the gunwale, bow, seat backs, motor cover, or areas not designed for seating. Also, don't let anyone sit on pedestal seats when craft is not in idle.

Don't overload your boat. Balance the load of passengers and gear stored on-board.

Keep your center of gravity low by not allowing people to stand up or move around while craft is in motion.

In small boats, don't allow anyone to lean beyond the gunwale.

Turn boat at slow rates of speed.

Secure the anchor line to the bow, never to the stern.

Don't risk operating water craft in rough conditions or bad weather.

# Boating Safety

## Know Your Craft

## Who May Operate a Motorboat (Other Than a Personal Watercraft)

### For engines 25 horsepower or less:

Those under age 12 may operate without restrictions.

### For engines over 25 horsepower through 75 horsepower:

Those under age 12 must have someone 21 years of age or older on board within reach of the controls.

### For engines over 75 horsepower:

No children under age 12 may operate, even with an adult on board.

### Other restrictions apply to boat operators 12 to 17 years old:

Operators from 12 to 17 years of age may operate engines of 25 horsepower or lower with no restrictions.

### For engines over 25 horsepower:

Operators 12 to 17 years of age must have:

A watercraft operator's permit, or someone age 21 years or older on board within reach of the controls.

# Bicycle Safety

Always wear a properly fitting bike helmet as most serious injuries are to the head.

Be sure your handlebars, seat and wheels fit snugly.

Keep your bike in good shape by checking and oiling your chain, making sure your brakes work properly and maintaining your tire pressure.

Always ride with both hands on the handlebars except when doing turn signals.

When leaving a driveway, curb or alleyway always stop and check for traffic in both directions.

Cross only at intersections.

Use the crosswalk to walk your bike across busy intersections and follow the traffic signals.

Never ride against traffic. Travel in the same direction as the cars.

Whenever you can, use bike routes and avoid busy streets.

Don't ride near parked cars as doors can open and cause accidents.

Obeys all traffic signs and traffic lights.

When biking with friends, ride in a single file.

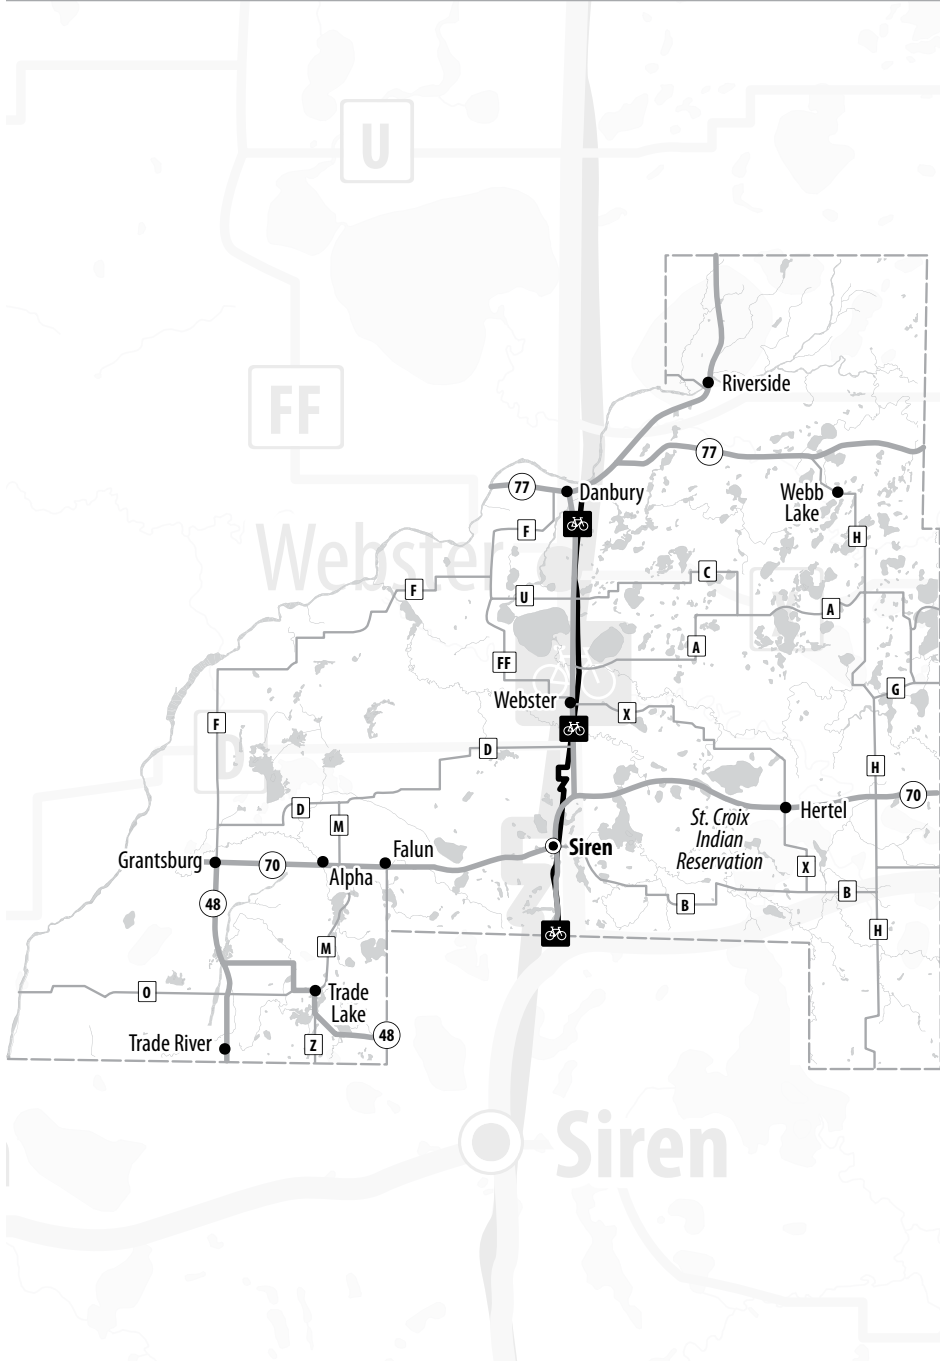

Always pass other bikers or pedestrians on the left and say "On your left!" to make your presence known.

Always use bicycle hand signals to alert traffic of your changing direction.

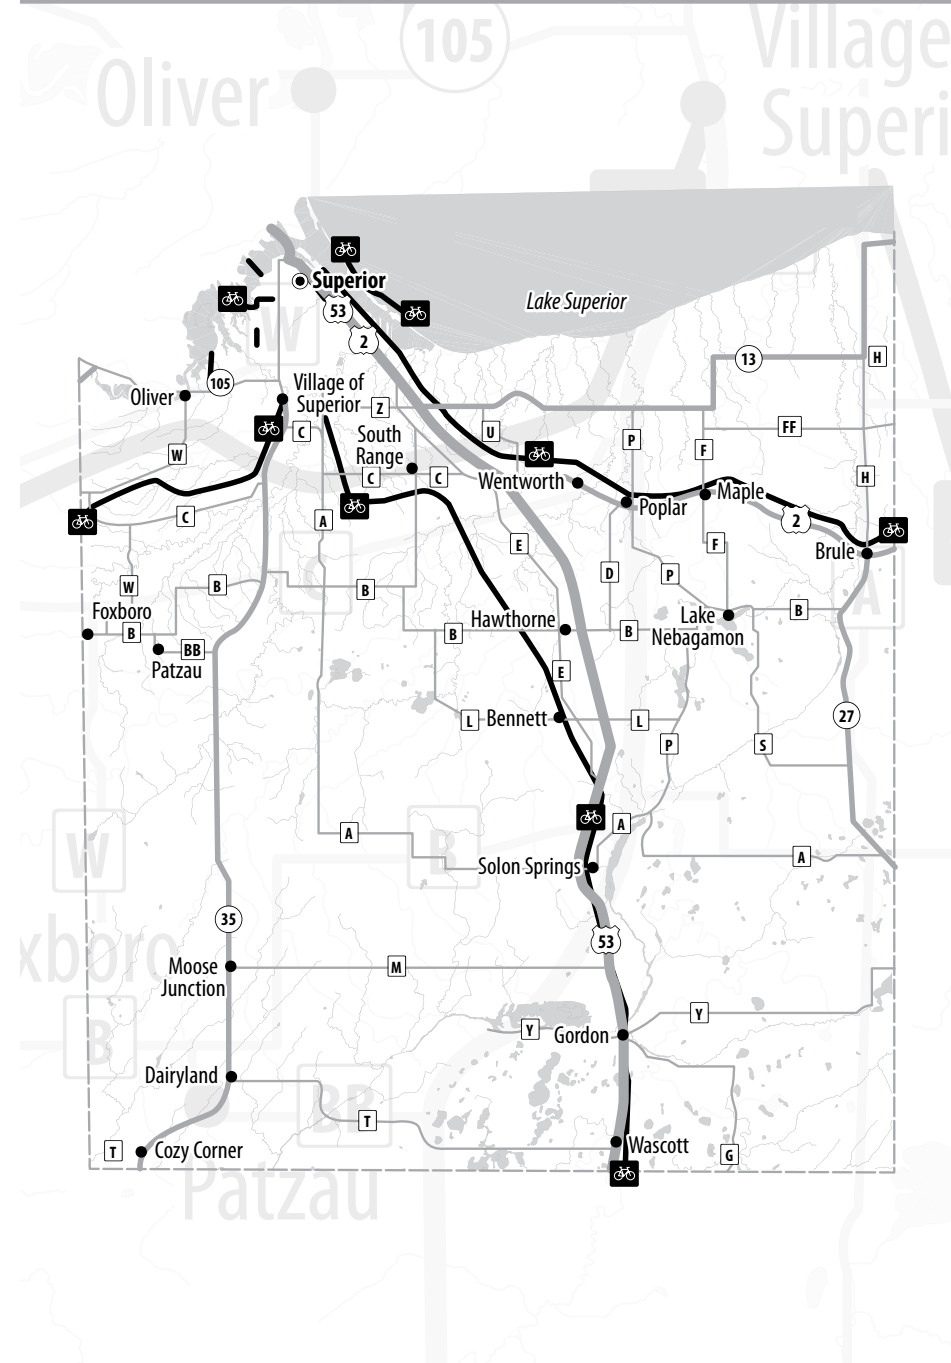

Never operate a bicycle under the influence of drugs or alcohol.

# Burnett County Bicycle Trails

# Douglas County Bicycle Trails

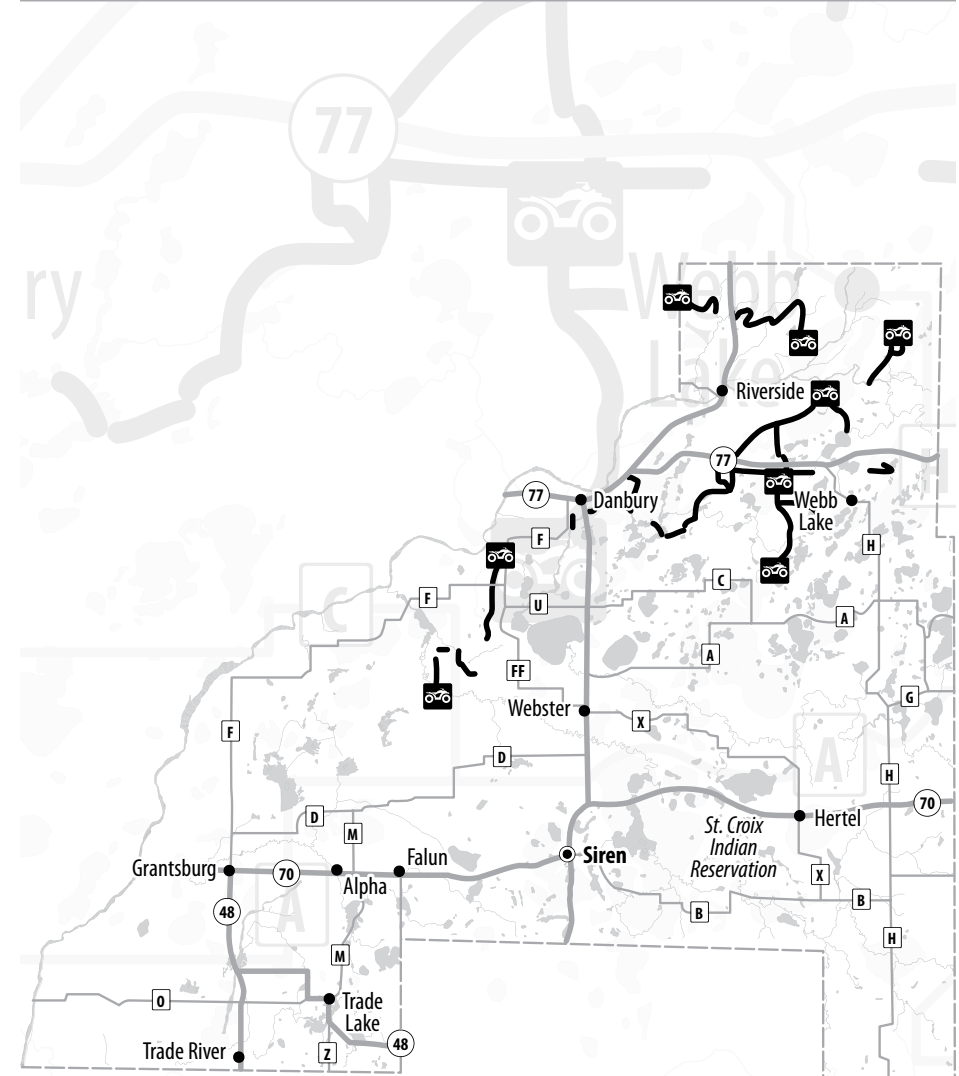

# ATV Safety

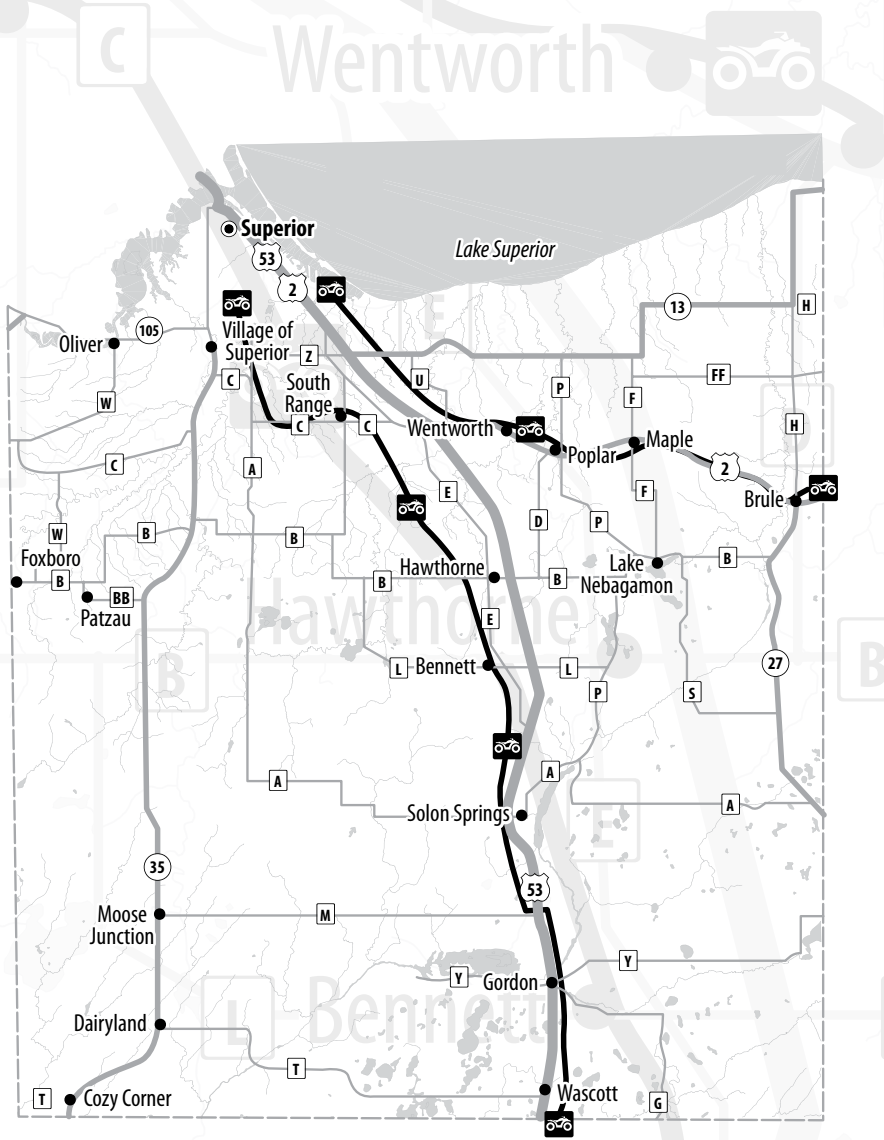

- Read the owner's manual and know your vehicle thoroughly.
- Check your vehicle before you ride.
- Wear protective equipment and clothing.
- Don't lend your vehicle to unskilled riders.
- Supervise young or inexperienced riders.
- Never carry a passenger on vehicles meant for one rider.
- Do not operate under the influence of drugs or alcohol.
- Drive at speeds that are appropriate to trail conditions.
- Stay to the right on trails.
- Stay away from thin ice, open water and wetlands
- Know the weather forecast.
- Make sure headlights and taillights work properly.
- Maintain safe distances between other riders.
- Reduce your speed when riding at night.
- Yield to other motor vehicles and trail users.
- Young or beginning riders are encouraged to take a safety training course.

# Burnett County ATV Trails

# Douglas County ATV Trails

# Snowmobile Safety

Do not consume alcohol or take drugs prior to or during your snowmobile trip. Doing so increases your chances of injury or death.

Slow down and don't cut to the inside of the trail corners. It's dangerous and illegal.

If you snowmobile at night, don't override your lights.

Always use the buddy system. Never ride off alone.

Drowning is one of the causes of many snowmobile fatalities. Whenever possible, avoid the ice.

Wear sensible, protective clothing designed for operating a snowmobile.

Use a full size helmet, goggles, or visor to prevent injuries from twigs, stones, ice chips and other debris.

Avoid wearing long scarves. They may get caught in moving parts of the snowmobile.

Know the terrain you are going to ride. If unfamiliar to you, ask someone who has traveled over it before.

Know the weather forecast, especially the ice and snow conditions.

Be sure your snowmobile is in top-notch mechanical condition throughout the months of use.

Familiarize yourself with the snowmobile you are driving. Thoroughly read the manual that accompanies the snowmobile.

Do not pursue domestic or wild animals. That is not the conduct of a sportsman. Report such violations to the nearest law enforcement officer.

## Common Trail Signs

# Burnett County Snowmobile Trails

St. Croix  
Indian  
Reservation

Siren

# Douglas County Snowmobile Trails

B

# Emergency Planning

## ESCAPE ROUTES

Everyone in your family should know the best ways to exit the house in case of a disaster. Teach your young children how to open sliding doors, windows and other exits. Designate a meeting place where the family can gather after escaping from the house.

## FLASHLIGHTS

The whole family needs to know where to find flashlights. Periodically check the batteries.

## FULLY CHARGED CELL PHONES

All family members should keep their cell phones charged. Make a habit of charging them, while everyone is asleep. Cell phones can be lifesavers in emergencies.

## LIST OF VALUABLES

Keep this document listing your possessions (and if possible, a video of your home interior) in a fireproof safe, or in a safe deposit box at a bank.

## COMMUNITY EMERGENCY PLANS

Familiarize yourself with community evacuation plans and neighborhood escape routes. Post a copy of them in a highly visible place in your home.

## THUNDERSTORM/TORNADO

- Remove dead branches from trees beforehand to avoid injury or damage.
- After seeing lightning, if you hear thunder in less than 30 seconds, it is recommended that you stay inside for 30 minutes after the thunder has ceased.
- The inside of a car is safer than the outside, as a lightning strike will simply pass through the car as long as you aren't in contact with any metal.
- Unplug all major appliances, as a power surge can cause serious damage.
- Avoid all tall structures and elevated areas as well as large amounts of metal.

## FIRES

- Make sure that every level of your house has a smoke detector, and be sure to test them once a month. Have the family plan an emergency exit route.
- Always keep track of any stoves or high-temperature/high-voltage appliances that are running. Be sure to never leave any cooking unattended.
- Keep lighters and matches away from children.
- If a burn occurs, soak the skin in cool water. If the skin blisters, seek medical assistance.

# ⊕ Emergency First-Aid Tips ⊕

## FIRST AID FOR CPR & HEART ATTACK

### CPR

CPR is to be administered when a person is not breathing or has no pulse. Be quick to act by remembering the A,B,C's: Airway, Breathing & Circulation.

#### Airway:

Place the person on a firm surface, on their back. Kneel next to the person's neck and shoulders. Open the person's airway by tilting back the head and lifting the chin.

#### Breathing:

With the head tilted and chin lifted, pinch the nostrils shut and cover the person's mouth with yours. Give two slow breaths.

#### Circulation:

Find the hand position on the center of the breastbone. Place the heel of your hand on that position, with your other hand on top of the first hand. Use your upper body weight to push down. Give two compressions per second. Compress the chest at a rate equal to 100/minute. Perform 30 compressions at this rate. Repeat until an ambulance arrives.

### HEART ATTACK

Symptoms of a heart attack may include any of the following:

- Uncomfortable pressure, fullness or squeezing pain in the center of the chest.
- Expanded pain in the upper abdomen.
- Shortness of breath.
- Pain or numbness in either arms, shoulders, neck, jaw or teeth.
- Dizziness or fainting.
- Nausea and sweating.

**If you or someone else may be having a heart attack - follow these steps immediately:**

- **DIAL 911**
- **Chew and swallow Aspirin (unless you are allergic/not allowed to)**
- **Take Nitroglycerin (only if prescribed)**
- **Begin CPR if the person is unconscious**

**IN AN EMERGENCY, DIAL 911**

# ⊕ *Emergency First-Aid Tips* ⊕

## *FIRST AID FOR BURNS & CHOKING*

### **BURNS**

**For minor 1st and 2nd degree burns smaller than 3" in diameter:** Cool the Burn. Run cool water over the burned area for 5 minutes, or until the pain diminishes. Never put ice on a burn!

#### **Bandage the burn with sterile gauze:**

It is important to use loosely wrapped gauze. This will avoid pressure and the bandage protects blisters. NEVER put lotions, vaseline, ointments or butter on burn. Do not break any blisters, which can cause infection.

#### **Take Aspirin, Ibuprofen, Naproxen or Acetaminophen to relieve pain:**

Minor burns usually heal with these basic treatments. Be aware for signs of infection which may include: increased pain, redness, fever, swelling or oozing. If symptoms develop, seek medical help. Avoid tanning the burned area for at least a year. Protect the area with sunscreen outdoors. Avoid giving aspirin to children.

***For 3rd degree burns/all major burns - DIAL 911***

***DO NOT run cold water over large severe burns - this can cause shock.***

***DO NOT remove burnt clothing.***

***Check for signs of breathing/coughing/movement.***

***If there are no signs of breathing begin CPR.***

***Elevate burned areas above heart level, if possible.***

***Cover the burn(s) with cool, sterile, moist bandages, towels or cloth.***

### **CHOKING**

Most people clutch at their throats when choking, an obvious symbol for help. However, if a person isn't giving that signal, be alert for these indications. Inability to talk, difficulty breathing or noisy breathing, inability to cough forcefully, skin/lips/nails turning blue, loss of consciousness.

The Red Cross recommends a "five-and-five" method for first aid: First give five blows between the person's shoulders with the heel of your hand. Second, perform the Heimlich maneuver (abdominal thrusts) five times. Alternate between five back blows and five abdominal thrusts until the blockage is dislodged.

***IN AN EMERGENCY, DIAL 911***

# ⊕ *Emergency First-Aid Tips* ⊕

## *FIRST AID FOR INSECT BITES/ANAPHYLAXIS & POISON SAFETY*

### **INSECT BITES/ANAPHYLAXIS**

**Anaphylaxis is a severe allergic reaction from insect bites (latex, food and drug allergies can also cause Anaphylaxis). Typical symptoms include hives, the swelling of lips or eyes, swollen throat, drop in blood pressure, light headedness, confusion, nausea or diarrhea. If someone is having an allergic reaction from an insect bite with these symptoms:**

#### **CALL 911.**

**Administer emergency prescription medication.** See if the person is carrying special emergency allergy medicine and give it to them according to the directions.

#### **Loosen tight clothing.**

**Lay the person down.** The person should lay down on their back with feet elevated. Turn them on their side if they are vomiting or bleeding from their mouth to prevent them from choking.

**If they are not breathing - administer CPR.** Most insect bite reactions are mild and cause no allergic reaction. If stung by a bee, use a straight edged object, like a credit card, to scrape away the stinger. Don't use tweezers - they can pinch more venom out of the stinger. Apply an ice pack to the area and take an over the counter pain reliever.

### **POISON PREVENTION**

**Teach your children about poison and how it can look like a food or drink. They should always ask an adult before eating or drinking anything. Have them learn the poison control phone number: 1-800-222-1222 and keep it programmed or posted near all your phones. Here are some prevention tips.**

**Lock up your poisons and medications.** Keep them out of the reach of children, lock them up if possible. Make sure your children understand that medicine is not candy.

**Follow directions carefully.** Read your labels. Be sure to use and store all poisons and medications properly according to recommendations.

**Keep your pets safe from household chemicals, too.** Don't allow pets near areas that have just been cleaned with chemicals, such as freshly mopped floors or bleached bathtubs and sinks. Clean up any antifreeze/coolant spills. Pets like the flavor but they can die if they ingest it. Store poisonous foods or plants in areas that your pets cannot access. Call your local emergency veterinary hospital if you believe your pet has been poisoned.

***IN AN EMERGENCY, DIAL 911***
