FRESH START MEAT MARKET

(Formerly Shamp's)

Come for the lakes. Stay for the steaks! Steaks • Snack Sticks • Variety Sausages Full Line Catering • Custom Butchering Wild Game Processing

218-587-2228 1 mile South of Pine River on Hwy 371 Monday-Wednesday: 8am-6pm • Thursday-Friday: 8am-8pm Sat: 8am-5pm • Sun: 10am-2pm Memorial Day - Labor Day FreshStartMarket@hotmail.com

Welcome to Fresh Start Meat Market!

We started our family business in the Crosby Ironton area in 2010. We started with growing vegetables and selling them at farmer's markets and to select restaurants. We did custom butchering for family and friends who wanted sides of beef or their hogs processed. During the fall we processed deer and prided ourselves in the fact that the hunter always received their own meat back. With our customer base growing each year, we converted half of our garage into a shop with a built in cooler out back.

After 2014, we were at a pivotal point in our business, we either wanted to grow into a larger company and be able to offer more goods and services, or scale back and do more fishing and camping! In January of 2015, we were approached by a hog farmer who wanted to find a processor who could process his animals so he could further sell them at grocery stores, etc. This in turn would mean that to legally further sell product either at farmers markets, grocery stores or even at a meat market, these animals would need to be USDA inspected. As we looked into building a facility on our property or other buildings for sale, I recalled that Shamp's in Pine River had closed in the fall. We drove up and looked at the facility and decided that this was where we wanted to be to grow our business.

We have started the process to become one of a few USDA inspected plants in Minnesota. We plan on putting a small addition onto the building to be able to have farmers bring in their animals to be processed start to finish with an inspector onsite 1-2 days per week.

The products we offer are fresh cuts of meat, fresh hamburger ground daily, brats, sausages, jerky and more! The Shamp family was gracious enough to provide the recipes for their delicious brats and sausages so don't fret, the same taste you have come to know and love are still offered here!

The services we offer are custom butchering, catering, provision planning and more. Tired of having to go to 5 different stores, pack up all the groceries, pack up the kids and the dog and head up to the cabin? Call or email us, let us know what you are looking for from fresh meats, dry goods, etc and we will have it ready for you to just stop by and pickup. We will even deliver if needed! That's what provision planning is all about!

Stop in and meet the new owners, check out our growing selection and have a Fresh Start to your day!

Thank you for your business! Michael and Mary Styx • Tony and Lois Styx

ASS COUNTY HISTORY

Cass County was established in 1851 and named in honor of Lewis Cass, a territorial governor, senator, secretary of state and secretary of war. Originally home to Indians, Cass County was settled by fur traders, explorers and missionaries. As a trail from Fort Ripley to Leech Lake was constructed, an influx of settlers arrived to take part in the lumber industry. Lumber camps were established and communities were platted. In 1895 the Northern Minnesota Logging Company built the railroad and tourism was introduced. Walker was voted as the county seat and the area continued to grow. Today Cass County is home to approximately 28,732 residents.

BACKUS – pop. 297 BENA – pop. 100 BOY RIVER – pop. 35 CASS LAKE – pop. 828 CHICKAMAW BEACH – pop. 145 EAST GULL LAKE – pop. 1,027 FEDERAL DAM – pop. 93 HACKENSACK – pop. 283 LAKE SHORE – pop. 1,068 LONGVILLE – pop. 178 MOTLEY – pop. 639 PILLAGER – pop. 492 PINE RIVER – pop. 877 REMER – pop. 357 WALKER (COUNTY SEAT) – pop. 1,289 *Populations are approximate.

COUNTY COMMUNITIES

BACKUS

Backus was named after lumberman Edward Wellington Backus. Backus established sawmills and lumber camps, creating a need for a settlement in 1890. The community was incorporated in 1902 and the area continued to grow. Today Backus is home to approximately 297 residents.

BENA

Bena's name was derived from the Ojibway word for partridge and grew as a railway village in the 1880s. Located on the Leech Lake Reservation, a post office was established in 1898 with Ernest Fleming serving as first postmaster. Today Bena is home to approximately 100 residents.

BOY RIVER

Boy River grew as a community in the 1880s. By 1910 a post office, railway station, general stores and hotels were established. In 1922 Boy River was incorporated as a village and the community continued to grow. Today Boy River is home to approximately 35 residents.

CASS LAKE

Cass Lake was named in honor of General Lewis Cass and was established in 1898. Populations increased with the arrival of railroads to the area. Once known as Tuller, the community was a popular tourist destination with over ten hotels by 1920. The lumber industry helped make the community become very prosperous and it was one of the largest lumber producers in the county. Cass Lake is the headquarters of the Consolidated Chippewa Indian Agency which governs seven reservations. Today Cass Lake is home to approximately 828 residents.

FEDERAL DAM

Located in Gould Township, Federal Dam grew as the United States constructed a reservoir dam on Leech Lake River. A post office was established in 1910 and the community was incorporated as a village in 1911. Today Federal Dam is home to approximately 93 residents.

HACKENSACK

Named after a city in New Jersey, Hackensack was established in 1888. It was incorporated as a village in 1903 and continued to grow as the railroad arrived. It is the site of legendary Paul Bunyan's girlfriend, Lucette Diana Kensack. Today Hackensack is home to approximately 283 residents.

COUNTY COMMUNITIES

LAKE SHORE

Lake Shore grew as the railroad arrived in 1904. Incorporated in 1947, it has since become a popular tourist destination. Today Lake Shore is home to approximately 1,068 residents.

LONGVILLE

Located in Kego Township, Longville grew as the railroad arrived. A post office was established in 1904 and the community was incorporated as a village in 1941. Today Longville is home to approximately 178 residents.

MOTLEY

Motley was named after the railroad station established by the Northern Pacific Railroad Company in 1874. The community was platted in 1870 and a post office was built in 1873. Officially organized in 1885, Motley was incorporated as a village in 1905 and the community continued to grow. Today Motley is home to approximately 639 residents.

PILLAGER

Located in Sylvan Township, Pillager was first settled as a railway stop in 1886. A post office, hotel, general store and a blacksmith shop were established by 1900 and Pillager was incorporated as a village. Its name is derived from the Ojibwa of the Leech Lake Reservation. Today Pillager is home to approximately 492 residents.

PINE RIVER

Pine River began as a trading center for agricultural and lumber products. A post office was built in 1877 with George A. Barclay serving as the area's first postmaster. Pine River was incorporated in 1901 and housed a grain elevator, creamery and a pickle factory. Today Pine River is home to approximately 877 residents.

REMER

Remer was named in honor of the brothers E.N. and William P. Remer, as William established a post office in 1904. The community began as a railway village and a sawmill and general stores were built. Incorporated in 1912, Remer is located in the Chippewa National Forest which houses the most bald eagles in the continental United States. Today Remer is home to approximately 357 residents.

WALKER (COUNTY SEAT)

Walker is named after Thomas Barlow Walker, a prominent lumberman who arrived to the area in 1868. Walker established a settlement and the community was incorporated in 1896. As the railroad arrived in 1899, Walker continued to grow as a resort community. It was selected as the county seat and is located in the legendary Paul Bunyan Playground. Today Walker is home to approximately 1,289 residents.

ORNADO SAFETY

- NOW WHERE YOU CAN TAKE SHELTER IN SECONDS. Have a place, everyone knows, to go to after THE STORM HAS PASSED.
- Flying Debris is the biggest danger during a tornado. Your shelter space should have MATTRESSES OR THICK BLANKETS AROUND, TO PROTECT YOURSELVES.
- DO NOT OPEN YOUR WINDOWS TO TRY & equalize the pressure." This only makes it easier for debris to injure you. Also, STAY AWAY FROM WINDOWS!

CONSTANT ROTATION OF THE CLOUDS BASE. FLYING/ROTATING DEBRIS UNDER THE CLOUD. Tornados Don't Always have a visible funnel. HEAVY RAIN OR HAIL FOLLOWED BY EITHER BY AN EERIE CALM IN THE STORM OR RAPID WIND CHANGES SHIFTS.

STEN FOR LOUD, CONTINUOUS RUMBLING WITH O BREAKS IN IT LIKE THUNDER.

htning Distance Tracker

You can figure out how far away the LIGHTNING IS FROM YOU LIKE THIS ... COUNT THE SECONDS INBETWEEN THE FLASH OF LIGHTNING & THE CRACK OF THUNDER. Divide the number of seconds by 5 & YOU HAVE YOUR DISTANCE IN MILES.

O SECONDS O MILES

5 SECONDS 20 SECONDS 60 SECONDS 1.08 MILES 4.35 MILES

Recycle as much as you can. Even simple everyday things, such as plastic bottles and aluminum cans, can make a huge difference.

Switch your incandescent light RRR bulbs to compact fluorescent ones. Save money and energy.

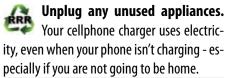

RRR Bring your own reusable shopping bags with you to the supermarket or the mall.

RRR Donate your unwanted clothing to a local charity. Eyeglasses, household items, electronics and even vehicles can be accepted.

Recycle your used ink and toner RRR **cartridges.** Most office supply stores accept used cartridges.

Recycle your used batteries. This RRR prevents poisonous mercury from seeping into our water supplies and soil. Switch to rechargeable ones.

Switch to unbleached toilet RRR paper, paper towels and coffee filters. Avoiding bleached products can help preserve our water supply and soil.

Bring your own lunch. You'll avoid RRR wing non-recyclable styrofoam togo containers and unnecessary throw-away packaging.

Start a compost bin in your yard. RRR There are even ones that you can store under your kitchen sink.

Be crafty. Let old items be an inspiration for a craft project and repurpose old items. Punch holes in tin cans to make candle luminaries or use empty yogurt containers to organize nuts an bolts.

Have a green-cleaning product RRR party. Invite your friends over to make enough vinegar-based homemade cleaners to share.

Run your washer/dryer/dish-RRR washer after 5pm. This is when less electricity is being used, especially in larger cities. In air-conditioned summer months this can help prevent blackouts.

🚳 Reduce - Reuse - Recycle

ICE SAFETY GUIDELINES:

ICE THAT IS 2" **OR LESS** ICE THAT IS 6" ICE THAT IS 15" IS UNSAFE TO WALK ON. ICE THAT IS 4" **OR MORE OR MORE** STAY AWAY **IS OKAY TO DRIVE** ICE THAT IS 12" OR MORE IS OKAY TO DRIVE FROM THIN ICE! OR MORE IS OKAY TO WALK ON SNOWMOBILES MEDIUM SIZED IS OKAY TO DRIVE OR ATV'S ON TRUCKS ON **SMALL CARS ON**

THERE IS NO SUCH THING AS 100% SAFE ICE!!!

Did you know?

• Ice always forms unevenly. It can be 2 feet thick in one spot, and just a few inches thick a couple feet away.

• The most dangerous ice is formed over flowing water. It's especially dangerous near streams, culverts and bridges. Also, the faster the water is running, usually means the weaker the ice will be.

Snow insulates the ice and slows the freezing process. The added weight
of the snow reduces the strength of the ice. Also, ice that is closer to shore
is usually weaker than ice farther out.

 Cracking and rumbling ice isn't always bad. The ice expands and contracts as the temperature rises and falls.

 Fish and birds/wildlife can also effect the ice. Schools of fish can bring warm water from the bottom of lakes, and open holes in seemingly thick ice.

ALWAYS BE CAUTIOUS WHEN YOU ARE ON ICE!

ISHING SEASONS

04/18/15 - 09/14/15 Stream Trout in streams SE - 2015 season

04/18/15 - 09/30/15 Stream Trout in streams, except SE - 2015 season

THIN

BOATING SAFETY

Operating Watercraft

FOLLOW THESE GUIDELINES TO HELP PREVENT AND PREPARE FOR CAPSIZING, SWAMPING, OR SOMEONE FALLING OVERBOARD.

• Make sure that you and your passengers are wearing life-Jackets while the boat is moving. • Attach the ignition safety Lanyard to your wrist, clothes, or life Jacket. • Don't allow anyone to sit on the gun wale, bow, seat backs, motor cover, or areas not designed for seating. Also, don't let anyone sit on pedestal seats when craft is not in idle. • Don't overload your boat. Balance the load of passengers and gear stored on-board. • Keep your center of gravity low by not allowing people to stand up or move around while craft is in motion. • In small boats, don't allow anyone to lean beyond the gunwale. • Turn boat at slow rates of speed. • Secure the anchor line to the bow, never to the stern. • Don't risk operating water craft in rough conditions or bad weather.

Who May Operate a Motorboat

(OTHER THAN A PERSONAL WATERCRAFT)

• For engines 25 horsepower or less: - Those under age 12 may operate without restrictions.

• For engines over 25 horsepower through 75 horsepower:

- Those under age 12 must have someone 21 years of age or older on board within reach of the controls.

• For engines over 75 horsepower:

- No children under age 12 may operate, even with an adult on board.

- OTHER RESTRICTIONS APPLY TO BOAT OPERATORS 12 TO 17 YEARS OLD:

- OPERATORS FROM 12 TO 17 YEARS OF AGE MAY OPERATE ENGINES OF 25 HORSEPOWER OR LOWER WITH NO RESTRICTIONS.

• For engines over 25 horsepower:

- OPERATORS 12 TO 17 YEARS OF AGE MUST HAVE: A WATERCRAFT OPERATOR'S PERMIT, OR SOMEONE AGE 21 YEARS OR OLDER OLD ON BOARD WITHIN REACH OF THE CONTROLS.

• AT LEAST ONE COAST GUARD APPROVED TYPE I, 2, 3 OR 5 FLOTATION DE-VICE THAT IS THE PROPER SIZE FOR EACH PERSON ON BOARD OR BEING TOWED.

• All devices must be in good condition and easily accessible.

• Children under age IO must wear a device when on board a boat that is underway unless:

IN AN ENCLOSED CABIN OR BELOW DECK OR ON AN ANCHORED BOAT THAT IS BEING USED FOR SWIMMING OR DIVING OR PASSENGER CRAFT WITH A LICENSED CAPTAIN.

• Along with the above at least one approved Type 4 must be on board boats 16 ft. or longer (except canoes and kayaks) and immediately available.

• A COAST GUARD APPROVED TYPE 5 DEVICE MAY BE SUBSTITUTED FOR ANY OTHER COAST GUARD APPROVED DEVICE IF IT MEETS THE SAME REQUIRE-MENTS AND IS NOTED ON THE LABEL.

• Anyone riding a jet ski or other Personal Water Craft must wear an approved -non inflating flotation device, as well as anyone being towed by a water craft. Recreational Safety

Bicycle Hand Signals

5

ONE

WAY

Snowmobile Hand Signals Slowing

Communication is an essential part of safe riding. Hand signals are a practical way to communicate between other riders and traffic.

Be sure to give easy to see and clear hand signals when snowmobiling. Hand signals should never be subtle, but always deliberate.

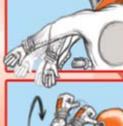

Left Turn

Ap

Sleds Following

SPEED LIMIT 25

STEEP

YIELD

and know your vehicle thoroughly. Check your vehicle before you ride. • Wear protective equipment and clothing. • Don't lend your vehicle to unskilled riders. • Supervise young or inexperienced riders. • Never carry a passenger on vehicles meant for one rider. • Do not operate under the influence of drugs or alcohol. • Drive at speeds that are appropriate to trail conditions. • Stay to the right on trails. • Stay away from thin ice, open water and wetlands • Know the weather forecast. • Make sure headlights and taillights work properly. • Maintain safe distances between other riders. • Reduce your speed when riding at night. • Yield to other motor vehicles and trail users. • Young or beginning riders are encouraged to take a safety training course.

CBT-BIT

BICYCLE SAFETY

NOWMOBILE SAFETY

Please respect private property and no trespassing signs. Stay on trails. Exercise extreme caution on all lakes and streams. Obey

all state and local laws and ordinances. Do not operate snowmobiles/ATV's on county roads or state highways.

Drink lots of Water!

 Always wear a properly fitting bike helmet as most serious injuries are to the head. • Be sure your handlebars, seat and wheels fit snugly. • Keep your bike in good shape by checking and oiling your chain, making sure your brakes work properly and maintaining your tire pressure. • Always ride with both hands on the handlebars except when doing turn signals. • When leaving a driveway, curb or alleyway always stop and check for traffic in both directions. • Cross only at intersections. • Use the crosswalk to walk your bike across busy intersections and follow the traffic signals. • Never ride against traffic. Travel in the same direction as the cars. • Whenever you can, use bike routes and avoid busy streets. • Don't ride near parked cars as doors can open and cause accidents. • Obey all traffic signs and traffic lights. • When biking with friends, ride in a single file. • Always pass other bikers or pedestrians on the left and say "On your left!" to make your presence known. • Always use bicycle hand signals to alert traffic of your changing direction.

Cautious of Other

• Do not consume alcohol or take drugs prior to or during your snowmobile trip. Doing so increases your chances of injury or death.. Slow down and don't cut to the inside of the trail corners. It's dangerous and illegal. • If you snowmobile at night, don't override your lights. • Always use the buddy system. Never ride off alone. • Drowning is one of the causes of many snowmobile fatalities. Whenever possible, avoid the ice. • Wear sensible, protective clothing designed for operating a snowmobile. • Use a full size helmet, goggles, or visor to prevent injuries from twigs, stones, ice chips and other debris. • Avoid wearing long scarves. They may get caught in moving parts of the snowmobile. • Know the terrain you are going to ride. If unfamiliar to you, ask someone who has traveled over it before. • Know the weather forecast, especially the ice and snow conditions. • Be sure your snowmobile is in top-notch mechanical condition throughout the months of use. • Familiarize yourself with the snowmobile you are driving. Thoroughly read the manual that accompanies the snowmobile. • Do not pursue domestic or wild animals. That is not the conduct of a sportsman. Report such violations to the nearest law enforcement officer.

Snowmobiling is fun. Going to the hospital isn't.

...and support the community **you live in!**

you live in!

PARENTS:

• Teach your kids that an emergency is when you need help from a doctor, a police officer or a firefighter.

- Designate a safe place by your house that a child can go to if they need help right away.
- Have your kids memorize your address and phone numbers. They should also know your full name and where you work.

KIDS: FIRE SAFETY

• If you or someone else is on fire - remember to STOP, DROP and ROLL. Wrap a blanket on the person to help put out the fire.

• If there is a fire, leave the house as fast as you can! Crawl on the floor to avoid smoke and if the door is hot, don't open it - find another way out.

• Learn all the fire exits in your house. Assign a safe place outside for everyone to meet in case of a fire emergency.

HOME ALONE

• Never tell anyone that you are home alone.

• If someone calls and asks for your mom and dad, tell them "They cannot come to the phone right now, can you please call back later?"

 Do not answer the door, unless it is someone that you know your parents have okay'd them to come over.

FIRST AID FOR INSECT BITES/ANAPHYLAXIS & POISON SAFETY INSECT BITES/ANAPHYLAXIS

Anaphylaxis is a severe allergic reaction from insect bites (latex, food and drug allergies can also cause Anaphylaxis). Typical symptoms include hives, the swelling of lips or eyes, swollen throat, drop in blood pressure, light headedness, confusion, nausea or diarrhea. If someone is having an allergic reaction from an insect bite with these symptoms:

POISON PREVENTION

Teach your children about pois<mark>on and how it ca</mark>n look like a food or drink. They should always ask an adult bef<mark>ore eating or drinking</mark> anything. Have them learn

the poison control phone number: 1-800-222-1222 and keep it programmed or posted near all your phones. Here are some prevention tips.

Lock up your poisons and medications. Keep them out of the reach of children, lock them up if possible. Make sure your children understand that medicine is not candy.

Follow directions carefully. Read your labels. Be sure to use and store all poisons and medications properly according to recommendations.

Keep

your pets safe from household chemicals, too.

Don't allow pets near areas that have just been cleaned with chemicals, such as freshly mopped floors or bleached bathtubs and sinks. Clean up any antifreeze/coolant spills. Pets like the flavor but they can die if they ingest it. Store poisonous foods or plants in areas that your pets cannot access. Call your local emergency veterinary hospital if you believe your pet has been poisoned.

FETY TIPS

FIRST AID FOR BURNS & CHOKING

BURNS

For minor 1st and 2nd degree burns smaller than 3" in diameter: Cool the Burn. Run cool water over the burned area for 5 minutes, or until the pain diminishes. Never put ice on a burn!

Bandage the burn with sterile gauze:

It is important to use loosely wrapped gauze. This will avoid pressure and the bandage protects blisters. NEVER put lotions, vaseline, ointments or butter on burn. Do not break any blisters, which can cause infection.

Take Aspirin, Ibuprofen, Naproxen or Acetaminophen to relieve pain:

Minor burns usually heal with these basic treatments. Be aware for signs of infection which may include: increased pain, redness, fever, swelling or oozing. If symptoms develop, seek medical help. Avoid tanning the burned area for at least a year. Protect the area with sunscreen outdoors. Avoid giving aspirin to children.

For 3rd degree burns/all major burns - DIAL 911 DO NOT run cold water over large severe burns - this can cause shock. DO NOT remove burnt clothing. *Check for signs of breathing/coughing/movement.* If there are no signs of breathing begin CPR. Elevate burned areas above heart level, if possible. Cover the burn(s) with cool, sterile, moist bandages, towels or cloth.

CHOKING

Most people clutch at their throats when choking, an obvious symbol for help. However, if a person isn't giving that signal, be alert for these indications. Inability to talk, difficulty breathing or noisy breathing, inability to cough forcefully, skin/lips/nails turning blue, loss of consciousness.

The Red Cross recommends a "five-and-five" method for first aid: First give five blows between the person's shoulders with the heel of your hand. Second, perform the Heimlich maneuver

> (abdominal thrusts) five times. Alternate between five back blows and five abdominal thrusts until the blockage is dislodged.

> > IN AN EMERGENCY, DIAL 911
