CROW WING COUNTY HISTORY

he area was first inhabited by Ojibwe Indians as fur trading posts were established along riverbanks. Ample timber and natural resources attracted lumbermen and miners and settlements were founded. Crow Wing County was established in 1857 and named after the Crow River. Businesses were formed to meet the growing needs of residents and settlements became towns. As the railroad was constructed and iron ore deposits were discovered, Crow Wing County began to grow dramatically from a population of 14,250 in 1900, to 24,627 in 1920. Brainerd was selected as the county seat and the area continues to thrive, attracting a variety of tourists. Today Crow Wing County is home to approximately 62,172 residents.

BAXTER

Baxter was named in honor of Luther Loren Baxter, an attorney for the Northern Pacific Company, colonel, senator and judge. As the railroad was built, Baxter grew dramatically and the community was incorporated in 1939. Early industry included agriculture, but is now based on tourism. Today Baxter is home to approximately 7,610 residents.

Crow Wing County Communities

BRAINERD (COUNTY SEAT)

Brainerd was established in 1870 by the Northern Pacific Railroad Company. The community was first known as "The Crossing," until 1873 when it was renamed in honor of Anna Eliza Brainerd Smith, wife of the railway president. As the area began to grow, Brainerd became a transportation hub and center for timber products. It was selected as the county seat and the area has grown as a major tourist destination. Today Brainerd is home to approximately 13,691 residents.

BREEZY POINT

Located in Pelican Township, Breezy Point was first known as Pelican Lake. In the 1920s, Breezy Point Resort was founded and due to a misplaced furniture order and postal confusion, the resort owners petitioned to change the town name to Breezy Point. In 1970 the name was officially changed to Breezy Point and the area has become a haven for recreational enthusiasts. Today Breezy Point is home to approximately 2,346 residents.

CROSBY

Located on the Cuyuna Iron Range, Crosby was established as a mining town in the late 1800s and named after iron mine manager George H. Crosby. As mines were closed, industry became based on tourism, with a variety of attractions including the Cuyuna Country State Recreation Area. Today Crosby is home to approximately 2,243 residents.

CROSSLAKE

Located in Watertown Township, Crosslake was settled in the mid 1800s as pioneers were attracted to the ample natural resources. A post office was established in 1894 and the community has grown steadily, incorporating in 1959. Today Crosslake is home to approximately 2,108 residents.

CUYUNA

Settled as a mining town, Cuyuna was platted in 1908. The community was named in honor of Cuyler Adams, a local miner, developer and prospector, and his dog, Una. By 1910 the population had reached 1,000. As mines began to close, its population began to decline. Today Cuyuna is home to approximately 273 residents.

DEERWOOD

First recognized as Withington, Deerwood was settled in the late 1800s and is the oldest community on the Cuyuna Iron Range. Due to postal confusion with Worthington, MN, the community was renamed Deerwood after the plentiful white tail deer found throughout the area. As the railroad was constructed, the community became a transportation hub and continued to grow. Today Deerwood is home to approximately 573 residents.

EMILY

Settled in the late 1800s by loggers and lumbermen, Emily bares the same name as its nearby lake. A multitude of lakes and ample timber attracted residents and the community has become a popular recreational area. Today Emily is home to approximately 991 residents.

FIFTY LAKES

Located in Allen Township, Fifty Lakes was platted in 1863 and was named in honor of the many lakes located in the area. A post office was established in 1926 and the community was incorporated in 1949. As almost two thirds of Fifty Lakes is county and state land, making this area a haven for recreational enthusiasts. Today Fifty Lakes is home to approximately 421 residents.

FORT RIPLEY

Located near the Mississippi River, Fort Ripley was named in honor of General Eleazar W. Ripley, a congressman and general who served during the War of 1812. Established as a railway village, Fort Ripley is located near Camp Ripley, a training facility for the Minnesota National Guard and the Minnesota State Patrol. Today Fort Ripley is home to approximately 73 residents.

GARRISON

Garrison was settled in the late 1800s and named after local surveyor, explorer and civil engineer Oscar E. Garrison in 1882. Located near Mille Lacs Lake, the community has become a popular year-round fishing area. Today Garrison is home to approximately 213 residents.

IRONTON

Located near the Cuyuna Iron Range, Ironton was established as a mining and railway town. Platted by John H. Hill and E. A. Lamb in 1910, businesses were founded to meet the needs of local miners and Ironton began to grow with construction of the railroad. As mines began to close, industry has shifted to tourism and forestry. Today Ironton is home to approximately 528 residents.

Crow Wing County Communities

JENKINS

Named in honor of George W. Jenkins, a local lumber baron, the community was settled in the late 1800s. As the railroad arrived in 1895, Jenkins continued to grow and a post office was established. By 1900 the community housed hotels, restaurants, general stores and specialty shops. Jenkins was incorporated in 1969 and continues to thrive. Today Jenkins is home to approximately 403 residents.

MANHATTAN BEACH

Manhattan Beach was settled in the late 1800s as pioneers were attracted to the ample natural resources of nearby lakes. A post office was established in 1939 and the community was incorporated in 1941. Today Manhattan Beach is home to approximately 52 residents.

NISSWA

Nisswa, an Ojibwe name for "in the middle," was settled in the late 1800s and first known as Hill's Crossing. The community was platted by Leon E. Lum, an attorney who also served as the area's first postmaster. Nisswa's proximity to thirteen lakes has made this area a popular recreational destination. Today Nisswa is home to approximately 2,110 residents.

PEOUOT LAKES

Settled in the late 1800s, the Pequot Lakes area was first known as Sibley and then Frogtown. A post office was established in 1896 and as the railroad was constructed, the area began to grow. The community was platted by Walter and Flora Brown in 1900 and renamed Pequot Lakes after an east coast Indian tribe. Located near the Paul Bunyan Trail, it is known as the home for Paul Bunyan's fishing bobber and chair. Today Pequot Lakes is home to approximately 1,925 residents.

RIVERTON

Riverton was established as a mining community in the late 1800s. A school was built in 1897 and the area grew dramatically as the Williams-Carlson Ore Company was founded. Businesses were established to meet the needs of the miners and by 1913 Riverton's population had reached 780. As mines began to close, development began to slow. Today Riverton is home to approximately 106 residents.

TROMMALD

Located in Wolford Township, Trommald was founded as a mining community and named in honor of A.G. Trommald, a county official. A post office was established in 1917 and Trommald was incorporated. As mines were closed, growth slowed and the area has become popular with recreational enthusiasts. Today Trommald is home to approximately 129 residents.

Zce Fishing Extravaganza

Since 1991 the Brainerd Jaycees has put together the biggest ice fishing event in the world. The Ice Fishing Extravaganza raises money for local charities and brings locals and visitors together. Since its 1991 start, the Extravaganza has grown exponentially, now bringing over a million dollars to local businesses and \$150,000 to charities, every year.

The tournament is located just north of Brainerd, in Nisswa, on Gull Lake. There are many types of fish to choose from during this event. Sun Fish, Crappies, Perch, Small/Large Mouth Bass, Walleye, Northern Pike & Muskie are just a few characters you will find swimming about the lake.

This is a real ice fishing experience too. No ice castles allowed! Leave your satellite equipped/heated fish houses home! No one is allowed to use a fish house or any type of man-made protection from the elements. Basically, you sit on a five gallon bucket, or chair of your choice, and tend your pre-drilled holes. Each participant is limited to 2 holes and 2 poles to try and catch their monsters.

This is a live release event as well. All fish, after being weighed and measured, are returned to the lake for next year's tournament and festivities. So, bring your kids, snow pants, beverage of choice and prepare for a great time at the Ice Fishing Extravaganza on Gull Lake...

ENERGY SAVING TIPS

Summer Energy Saving Techniques

Conduct an energy assessment to find out where you can save the most. This will allow you to see where the biggest problem areas are.

Windows

- Close curtains during the day to block sunlight and open them at night.
- Plant trees, shrubs, or vines to help shade your home.
- Apply solar window film to windows.

Adjust Your Thermostat

- When you're home and awake, set your thermostat at the highest comfortable temperature.
- When you're out of the house, turn your thermostat up . You can save 1-3 percent per degree, for each degree the thermostat is set above 72 degrees, depending on the outside temperature.
- You can set a programmable thermostat to keep the temperature where you want day and night.

Maintain Your Cooling Systems

- Schedule service for your cooling system.
- Do regular maintenance to keep your cooling system operating efficiently.

Fans and Vents

- Keep inside air vents clear from furniture and other objects.
- Run energy efficient ceiling and whole-house fans to circulate the air.
- Use the bathroom vent to remove the heat and humidity after showering.

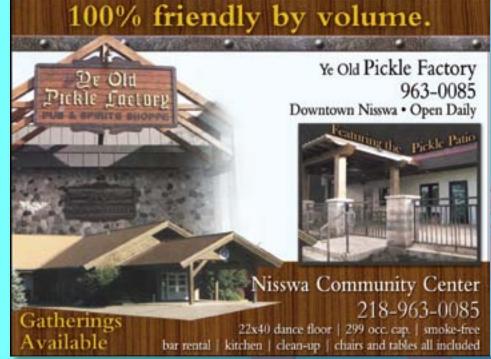

Appliances and Electronics

- Try not to use the oven on hot days. Cook on the stove top, microwave, or grill outside.
- Keep your fridge and freezer full. The refrigerator will run less often.
- Air dry dishes in the dish washer.
- Wash laundry with cold water and air dry.
- Unplug electronics when not in use.

Lighting

• Use light emitting diodes "LED's". They use less energy and have a longer life span, plus they produce less heat than incandescent and CFL bulbs.

COUNTY ISLAND PARK

Located near Rush Lake, County Island Park features a remote boat landing with fishing opportunities, nature trails, picnic areas and is home to bald eagles.

CROW WING STATE PARK

Located on 3,115 acres near the Mississippi River, the Crow Wing State Park features a campground, boat landing with fishing opportunities, recreational trails, picnic areas and many historic sites.

CUYUNA COUNTRY STATE PARK

Located on 1,824 acres of a former mining pit, Cuyuna Country State Park features a campground, canoe landing with fishing opportunities, swimming beach, recreational trails, picnic areas, the Croft Mine Historical Site and is a popular area for scuba divers.

LUM PARK

Located in Brainerd this 38 acre park located near the Franklin Arts Center is also a campground.

When visiting this park you can enjoy a cookout under one of the two Small Shelters, using one of the many Charcoal Grills throughout the park, or one of the two Large Pavilions that are available by reservation. There is a Playground complete with a slide for the kids to burn off some energy, a Public Beach for relaxing during the summer, a Boat Landing for when you are looking to go further into the water and a Fishing Pier for when you want to enjoy things that come

out of the water without actually going in. If you have a group that is willing you can play some volleyball on one of our two sand filled Volleyball Courts. Keep in mind there is a full 18-hole Frisbee Golf Course to polish you skills and of course Public restrooms. If you decide you don't want to leave...no worries, there is 18 available RV Campsites.

LARSON LAKE FOREST RECREATION AREA

Located near Deerwood, the Larson Lake Forest Recreation Area features large white and red pine trees, recreational trails and picnic areas.

MILFORD MINE MEMORIAL PARK

Located near Milford Lake, Milford Mine Memorial Park was established in honor of the Milford Mine Tragedy in 1924, when 41 miners were killed by flood. It features a canoe landing, picnic shelter, nature trails, interpretive displays, reflective walk and a memorial honoring those lost in the tragedy.

NORTHLAND ARBORETUM

Located near Brainerd, the Northland Arboretum features a Nature Conservancy, restored prairies, wetlands, and over 130 bird species.

SOUTH LONG LAKE COMMUNITY PARK

Donated by John and Barbara Burton, South Long Lake Community Park features a boat landing with fishing opportunities, nature trails and picnic areas.

HUNTING SEASONS

For general information on firearm safety training call: 1 (888) 646-6367 or (651) 296-6157. Contact the MN DNR for specific zone areas/dates:

Online: www.dnr.state.mn.us, Toll Free: 1 (888) 665-4236. You can purchase hunting and fishing licenses by phone: 1 (888) 665-4236.

STATE RECORD FISH

Follow these steps if you catch a fish that you think could be a record:

- Weigh the fish on a state-certified scale (found at most bait shops and butcher shops), witnessed by two observers.
- Take the fish to a DNR fisheries office for positive identification and a state record fish application.
- Complete the state record submission form and send it along with a clear, full-length photo of your fish to the address listed on the form.

| SPECIES | WEIGHT | LENGTH/GIRTH | WATERBODY | YEAR |
|---------------------|-----------|--------------|---------------------|------|
| | (lbs oz.) | (inches) | | |

Operating Watercraft

FOLLOW THESE GUIDELINES TO HELP PREVENT AND PREPARE FOR CAPSIZING, SWAMPING, OR SOMEONE FALLING OVERBOARD.

• Make sure that you and your passengers are wearing lifeJackets while the boat is moving. • Attach the ignition safety
Lanyard to your wrist, clothes, or life Jacket. • Don't allow
anyone to sit on the gun wale, bow, seat backs, motor cover,
or areas not designed for seating. Also, don't let anyone sit
on pedestal seats when craft is not in idle. • Don't overload
your boat. Balance the load of passengers and gear stored
on-board. • Keep your center of gravity low by not allowing
people to stand up or move around while craft is in motion.
• In small boats, don't allow anyone to lean beyond the gunwale. • Turn boat at slow rates of speed. • Secure the anchor
line to the bow, never to the stern. • Don't risk operating
water craft in rough conditions or bad weather.

Who May Operate a Motorboat

(OTHER THAN A PERSONAL WATERCRAFT)

- For engines 25 horsepower or less:
- Those under age 12 may operate without restrictions.
- FOR ENGINES OVER 25 HORSEPOWER THROUGH 75 HORSEPOWER:
- Those under age 12 must have someone 21 years of age or older on board within reach of the controls.
- For engines over 75 horsepower:
- No children under age 12 may operate, even with an adult on board.
- Other restrictions apply to boat operators 12 to 17 years old:
- OPERATORS FROM 12 TO 17 YEARS OF AGE MAY OPERATE ENGINES OF 25 HORSEPOWER OR LOWER WITH NO RESTRICTIONS.
- For engines over 25 horsepower:
- OPERATORS 12 TO 17 YEARS OF AGE MUST HAVE: A WATERCRAFT OPERATOR'S PERMIT, OR SOMEONE AGE 21 YEARS OR OLDER OLD ON BOARD WITHIN REACH OF THE CONTROLS.

All Watercraft Must Have.

- AT LEAST ONE COAST GUARD APPROVED TYPE I, 2, 3 OR 5 FLOTATION DE-VICE THAT IS THE PROPER SIZE FOR EACH PERSON ON BOARD OR BEING TOWED.
- ALL DEVICES MUST BE IN GOOD CONDITION AND EASILY ACCESSIBLE.
- CHILDREN UNDER AGE IO MUST WEAR A DEVICE WHEN ON BOARD A BOAT THAT IS UNDERWAY UNLESS:

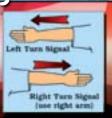

IN AN ENCLOSED CABIN OR BELOW DECK OR ON AN ANCHORED BOAT THAT IS BEING USED FOR SWIMMING OR DIVING OR PASSENGER CRAFT WITH A LICENSED CAPTAIN.

- ALONG WITH THE ABOVE AT LEAST ONE APPROVED TYPE 4 MUST BE ON BOARD BOATS IG FT. OR LONGER (EXCEPT CANOES AND KAYAKS) AND IMMEDI-ATELY AVAILABLE.
- A COAST GUARD APPROVED TYPE 5 DEVICE MAY BE SUBSTITUTED FOR ANY OTHER COAST GUARD APPROVED DEVICE IF IT MEETS THE SAME REQUIREMENTS AND IS NOTED ON THE LABEL.
- Anyone riding a jet ski or other Personal Water Craft must wear an approved -non inflating flotation device, as well as anyone being towed by a water craft.

Bicycle Hand Signals

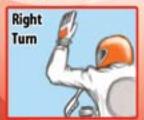

Snowmobile Hand Signals

Communication is an essential part of safe riding. Hand signals are a practical way to communicate between other riders and truffic.

Be sare to give easy to see and clear hand signals when snowmobiling. Hand signals should never be subtle, but always deliberate.

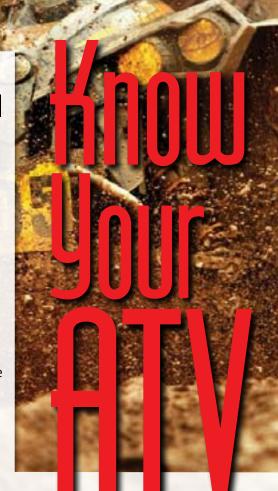

Read the owner's manual

and know your vehicle thoroughly.

- Check your vehicle before you ride.
- Wear protective equipment and clothing. Don't lend your vehicle to unskilled riders. Supervise young or inexperienced riders. Never carry a passenger on vehicles meant for one rider. Do not operate under the influence of drugs or alcohol. Drive at speeds that are appropriate to trail conditions. Stay to the right on trails.
- Stay away from thin ice, open water and wetlands • Know the weather forecast. • Make sure headlights and taillights work properly. • Maintain safe distances between other riders. • Reduce your speed when riding at night.
- Yield to other motor vehicles and trail users.
 Young or beginning riders are encouraged to take a safety training course.

PRIVATE PROPERTY
NO TRESPASSING

Please respect private property and no trespassing signs.
Stay on trails.

Exercise extreme caution on all lakes and streams. Obey

all state and local laws and ordinances. Do not operate snowmobiles/ATV's on county roads or state highways.

Drink lots of Water!

 Always wear a properly fitting bike helmet as most serious injuries are to the head. • Be sure your handlebars, seat and wheels fit snugly. • Keep your bike in good shape by checking and oiling your chain, making sure your brakes work properly and maintaining your tire pressure. • Always ride with both hands on the handlebars except when doing turn signals. • When leaving a driveway, curb or alleyway always stop and check for traffic in both directions. • Cross only at intersections. • Use the crosswalk to walk your bike across busy intersections and follow the traffic signals. • Never ride against traffic. Travel in the same direction as the cars. • Whenever you can, use bike routes and avoid busy streets. • Don't ride near parked cars as doors can open and cause accidents. • Obey all traffic signs and traffic lights. • When biking with friends, ride in a single file. • Always pass other bikers or pedestrians on the left and say "On your left!" to make your presence known. • Always use bicycle hand signals to alert traf-

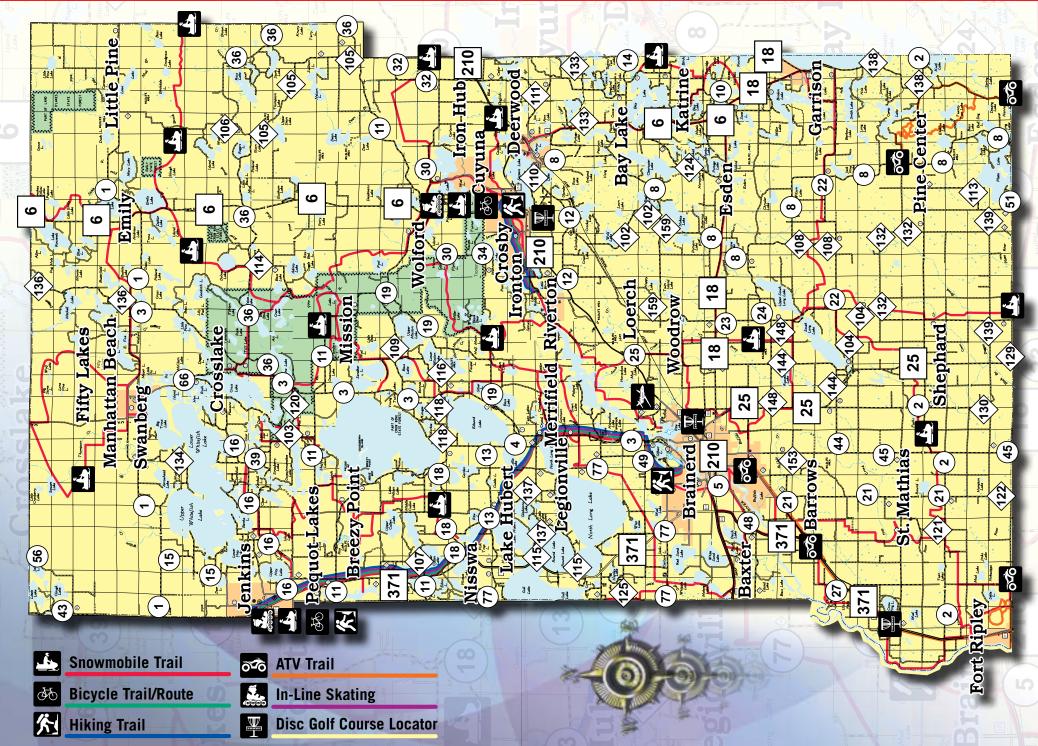

Cautious of Other

• Do not consume alcohol or take drugs prior to or during your snowmobile trip. Doing so increases your chances of injury or death. Slow down and don't cut to the inside of the trail corners. It's dangerous and illegal. • If you snowmobile at night, don't override your lights. • Always use the buddy system. Never ride off alone. • Drowning is one of the causes of many snowmobile fatalities. Whenever possible, avoid the ice. • Wear sensible, protective clothing designed for operating a snowmobile. • Use a full size helmet, goggles, or visor to prevent injuries from twigs, stones, ice chips and other debris. • Avoid wearing long scarves. They may get caught in moving parts of the snowmobile. • Know the terrain you are going to ride. If unfamiliar to you, ask someone who has traveled over it before. • Know the weather forecast, especially the ice and snow conditions. • Be sure your snowmobile is in top-notch mechanical condition throughout the months of use. • Familiarize yourself with the snowmobile you are driving. Thoroughly read the manual that accompanies the snowmobile. • Do not pursue domestic or wild animals. That is not the conduct of a sportsman. Report such violations to the nearest law enforcement officer.

Showmobiling is fun. Going to the hospital isn't.

fic of your changing direction.

CROW WING COUNTY TRAILS

10 Tips for GARDENING

Don't like all the dirt in your fingernails while you work in the garden? Before you go out, run your fingernails across a bar of soap and you'll effectively seal the undersides of your nails so dirt cannot accumulate. Then, after you are all done gardening, use a toothpick or nailbrush to remove the soap and your nails will be sparkling clean.

Spray vegetable oil on your string trimmer to help prevent jamming or breaking (Treat before installing string in trimmer).

Save money. Live better.

SUPERCENTER BAXTER

7295 Glory Rd. • Baxter, MN 56425 218-829-2220

www.walmart.com

Make a convenient measuring tool out of a long handled garden tool by laying it on the ground next to a tape measure. Use a permanent marker to copy the inches and feet. Next time you are spacing plants you already have a dual-purpose measuring tool in your hand!

Write the names of your plants (with a permanent marker) on the flat parts of stones of any size and lay them in front of your plants for natural looking markers.

養

The next time you boil or steam vegetables, use the leftover water to water potted patio plants, and you'll be surprised at how the plants grow with "vege-soup."

You can use leftover tea and coffee grounds to help acidify the soil of acid-loving plants like azaleas, rhododendrons, camellias, gardenias and blueberries. A light sprinkle of about 1/4 of an inch applied once a month will help keep the pH of the soil on the acidic side.

You can use chamomile tea to control damping-off fungus, which often attacks young seedlings quite suddenly. Just add some tea to the soil around the soil of seedlings once a week for healthy plant.

Here is a really quick way to dry out your herbs: Just lay a sheet of newspaper on the seat of your car, arrange the herbs in a single layer, then roll up the windows and shut the car doors. Your herbs will be dry in no time!

Use your blender to grind up egg shells. Just like a mother bird chews up worms for the baby birds making the food easier to digest, grinding eggshells makes it easy for your garden to absorb the calcium egg shells retain.

Animals (cats especially) seem to think all of the hard work you've put into your garden looks like a huge litter box. To keep them from pooping on your basil and other plants, strategically place a few plastic forks around your plants to deter them from destroying your fresh herbs, fruits, and vegetables.

SAFETY TIPS

PARENTS:

- Teach your kids that an emergency is when you need help from a doctor, a police officer or a firefighter.
- Designate a safe place by your house that a child can go to if they need help right away.
- Have your kids memorize your address and phone numbers. They should also know your full name and where you work.

KIDS:

FIRE SAFETY

- If you or someone else is on fire remember to STOP, DROP and ROLL. Wrap a blanket on the person to help put out the fire.
- If there is a fire, leave the house as fast as you can! Crawl on the floor to avoid smoke and if the door is hot, don't open it - find another way out.
- Learn all the fire exits in your house. Assign a safe place outside for everyone to meet in case of a fire emergency.

HOME ALONE

- Never tell anyone that you are home alone.
- If someone calls and asks for your mom and dad, tell them "They cannot come to the phone right now, can you please call back later?"
- Do not answer the door, unless it is someone that
 you know your parents have okay'd
 them to come over.

FIRST AID FOR INSECT BITES/ANAPHYLAXIS & POISON SAFETY

INSECT BITES/ANAPHYLAXIS

Anaphylaxis is a severe allergic reaction from insect bites (latex, food and drug allergies can also cause Anaphylaxis). Typical symptoms include hives, the swelling of lips or eyes, swollen throat, drop in blood pressure, light headedness, confusion, nausea or diarrhea. If someone is having an allergic reaction from an insect bite with these symptoms, seek medical attention.

POISON PREVENTION

Teach your children about pois<mark>on and how it can l</mark>ook like a food or drink. They should always ask an adult before eating or drinking anything. Have them learn

the poison control phone number: 1-800-222-1222 and keep it programmed or posted near all your phones. Here are some prevention tips.

Lock up your poisons and medications. Keep them out of the reach of children, lock them up if possible. Make sure your children understand that medicine is not candy.

Follow directions carefully. Read your labels. Be sure to use and store all poisons and medications properly according to recommendations.

Keep your pets safe from household chemicals.

Don't allow pets near areas that have just been cleaned with chemicals, such as freshly mopped floors or bleached bathtubs and sinks. Clean up any antifreeze/coolant spills. Pets like the flavor but they can die if they ingest it. Store poisonous foods or plants in areas that your pets cannot access. Call your local emergency veterinary hospital if you believe your pet has been poisoned.

FIRST AID FOR BURNS & CHOKING

BURNS

For minor 1st and 2nd degree burns smaller than 3" in diameter: Cool the Burn. Run cool water over the burned area for 5 minutes, or until the pain diminishes. Never put ice on a burn!

Bandage the burn with sterile gauze:

It is important to use loosely wrapped gauze. This will avoid pressure and the bandage protects blisters. NEVER put lotions, vaseline, ointments or butter on burn. Do not break any blisters, which can cause infection.

Take Aspirin, Ibuprofen, Naproxe<mark>n or Acetaminop</mark>hen to relieve pain:

Minor burns usually heal with these basic treatments. Be aware for signs of infection which may include: increased pain, redness, fever, swelling or oozing. If symptoms develop, seek medical help. Avoid tanning the burned area for at least a year. Protect the area with sunscreen outdoors. Avoid giving aspirin to children.

For 3rd degree burns/all major burns - DIAL 911
DO NOT run cold water over large severe burns - this can cause shock.
DO NOT remove burnt clothing.
Check for signs of breathing/coughing/movement.
If there are no signs of breathing begin CPR.
Elevate burned areas above heart level, if possible.

Cover the burn(s) with cool, sterile, moist bandages, towels or cloth.

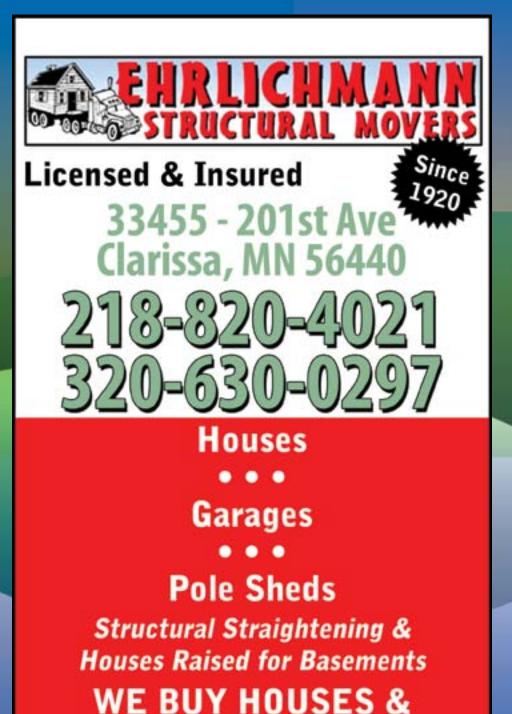

CHOKING

Most people clutch at their throats when choking, an obvious symbol for help. However, if a person isn't giving that signal, be alert for these indications. Inability to talk, difficulty breathing or noisy breathing, inability to cough forcefully, skin/lips/nails turning blue, loss of consciousness.

The Red Cross recommends a "five-and-five" method for first aid: First give five blows between the person's shoulders with the heel of your hand. Second, perform the Heimlich maneuver (abdominal thrusts) five times. Alternate between five back blows and

five abdominal thrusts until the blockage is dislodged.

IN AN EMERGENCY, DIAL 911
