Ince home to Sioux and Chippewa Indians, Washburn County was settled in the 1860s. Loggers began to arrive to harvest white and Norway pines, and waterway ports, utilized to transport lumber, became communities. Shell Lake was selected as the County Seat and as the industry diversified, the area continued to grow and develop. Between 1900 and 1910, the population of Washburn County grew from 5,521 to 8,196. The many lakes located within Washburn County made the area a popular tourist destination and now is recognized as the Walleye Capital of Wisconsin and home to the largest Muskie hatchery. Today Washburn County is home to approximately 16,712 residents.

Washburn County Communities

BIRCHWOOD

Attracted to the ample timber and pristine lakes, Birchwood was first settled in the 1880s. Early industry included logging and farming. As the railroad arrived, Birchwood continued to grow and a variety of businesses were thriving by 1900. Birchwood became a popular tourist destination due to its proximity to a variety of lakes, and is now recognized as the Bluegill Capital of Wisconsin. Today Birchwood is home to approximately 548 residents.

SARONA

Once part of Bashaw, Sarona was established in 1904 and named in honor of the biblical place Sharon, and Sauer after an early settler. As the railroad arrived, Sarona began to thrive. The area has now become a popular area for outdoor enthusiasts and is home to the Hunt Hill Nature Center and Audubon Sanctuary. Today Sarona is home to approximately 412 residents.

SHELL LAKE (COUNTY SEAT)

Shell Lake began as a logging community in the 1880s. As the railroad arrived, Shell Lake began to develop and businesses began to thrive. Selected as the County Seat, Shell Lake continued to grow and the industry began to diversify. It is home to the largest landlocked seepage lake in Wisconsin and draws thousands of visitors annually. Today Shell Lake is home to approximately 1,347 residents.

SPOONER

Spooner began as a railway community named Chandler in 1879. Chandler was renamed in honor of John Coit Spooner, a local railroad advocate, legislator, attorney and politician in 1883. Settlers began to arrive by train and steamboat and Spooner continued to grow. Businesses were established and the area came to be recognized as a tourist destination. Today Spooner is home to approximately 2,655 residents.

TREGO

Trego began as a lumbering community and was once known as the Superior Junction. Trego was founded in 1904 as the town of Mills and in 1906 the name was changed to Trego. The community has since become a haven for recreational activities due to its proximity to lakes and forest. Today Trego is home to approximately 914 residents.

Oarron County was once home to Sioux and Chippewa Indians. First established in 1859 as Dallas County, in 1869 it was renamed Barron County. The area quickly grew as a logging and lumbering center. Communities were established near railways, waterways and lumber camps, and the city of Barron was selected as the County Seat. Settlers arrived to take part in the lumber industry and others established farms on land cleared by loggers. By 1920 the population of Barron had reached 34,281 and as industry began to diversify, the area continued to grow. Today Barron County is home to approximately 45,590 residents.

Barron County Communities

BARRON (COUNTY SEAT)

The City of Barron was established in 1860 and incorporated in 1887. It was originally named Quaderer's Camp after local lumber foreman John Quaderer. The name was changed to Barron in honor of Henry D. Barron after the location became the county seat of Barron County. The first school was built in 1877 and burnt down in 1881 due to a lightning strike. Today Barron is home to approximately 3,423 residents.

CAMERON

Established in the 1880s, Cameron began as a logging and trading center. It was named in honor of Senator Angus Cameron of Wisconsin, an active member of civic affairs. As the railroad arrived, Cameron continued to develop and businesses, general stores and mills were thriving. Today Cameron is home to approximately 1,707 residents.

CHETEK

Once a trading post, Chetek was first settled in 1866. A school was established in 1871 and the community was platted in 1875. As the railroad arrived in 1882, Chetek began to develop and was then incorporated as a city in 1891. Businesses and mills were thriving, and by 1903 telephone service was established. Today Chetek is home to approximately 2,140 residents.

CUMBERLAND

Cumberland was founded in 1880 as a lumber and logging center. Large mills were built and the area boasted more saw mills than any other area in the country. By 1890 its population reached 1,486 and the area continued to grow. Today Cumberland is home to approximately 2,240 residents.

RICE LAKE

In 1874 Knapp, Stout & Co. platted the community known as Rice Lake. It was named after the abundant rice beds that filled the local lowlands and quickly became lumbering camp. Settlers arrived to take part in the logging business, and by 1885 the population of Rice Lake tripled. In 1890 Rice Lake was home to a variety of mills, a newspaper, brewery, post office, furniture store and specialty shops. As the railroad arrived, Rice Lake continued to develop and the community became a retail trading center. Today Rice Lake is home to approximately 8,257 residents.

TURTLE LAKE

First settled in 1875, Turtle Lake was originally known as Skowhagen. The area began to grow as logging and lumbering camps were established. The community was renamed Turtle Lake after government surveyors noticed an array of turtle eggs along the local shorelines. In 1879 a post office was built with Stephen Richardson serving as its first postmaster. The community was platted in 1898 and Turtle Lake was officially incorporated. Today Turtle Lake is home to approximately 1,029 residents.

BARRON COUNTY FACTS

• County Seat: The county seat of Barron County is Barron, a city located in the northwestern part of the county. • Name Origin: Barron County was named after Henry D. Barron, who was a lawyer, judge, and politician in WI. • Geography: The county is situated in northwestern Wisconsin and is known for its mix of forested areas, lakes, rivers, and agricultural land. • Rice Lake: Rice Lake, a city within Barron County, is named after the nearby Rice Lake, which is the largest lake entirely within the county's borders. The lake is popular for fishing, boating, and water sports.

 OutdoorRecreation:BarronCountyoffersawiderangeofoutdoorrecreationalactivities,including hunting, fishing, camping, hiking, and ATV trails. • Red Cedar State Trail: This scenic trail runs through Barron County and connects the cities of Menomonie and Rice Lake. It's popular for biking, walking, and snowmobiling. • Cranberry Production: Barron County is a significant cranberryproducing area in Wisconsin. The county's sandy soils and climate are conducive to cranberry cultivation. • Chetek Chain of Lakes: The Chetek Chain of Lakes consists of six interconnected lakes and is a popular destination for fishing, boating, and water recreation. • Beaver Dam Lake: Beaver Dam Lake, located near the city of Cumberland, is known for its natural beauty and outdoor activities. • Blue Hills: The Blue Hills, a scenic range of hills and forests, is located in the southeastern part of Barron County. It offers hiking, bird-watching, and other outdoor experiences. Farm Technology Days: Barron County has hosted Wisconsin Farm Technology Days, an annual agricultural event that showcases the latest advancements in farming technology and practices. • Pioneer Village Museum: The Pioneer Village Museum, located in Cameron, features historic buildings and artifacts that provide a glimpse into the area's past. • Native American History: The region that is now Barron County was originally inhabited by various Native American tribes, including the Ojibwe. The area has historical and cultural significance for these communities. Logging & Lumber Industry: Like many areas in Wisconsin, Barron County was historically involved in the logging and lumber industry, which played a role in its early development. Festivals & Events: Barron County hosts various festivals and events throughout the year,

WASHBURN COUNTY FACTS

celebrating its heritage, agriculture, and community spirit.

• County Seat: The county seat of Washburn County is Shell Lake, a small city located in the heart of the county. • Name Origin: Washburn County was named after Cadwallader C. Washburn, a prominent Wisconsin politician and businessman who served as a governor and member of Congress. • Lakes & Waterways: Washburn County is known for its abundance of lakes and waterways. It's often referred to as the "Lakes Region" of Wisconsin, with over 900 lakes in the county, providing ample opportunities for fishing, boating, and watersports. • Outdoor Recreation: The county offers a range of outdoor activities, including camping, hiking, biking, and wildlife viewing. The area's natural beauty attracts outdoor enthusiasts throughout the year.

• Namekagon River: The Namekagon River, a tributary of the St. Croix River, flows through Washburn County. It is a designated National Wild and Scenic River, known for its scenic beauty and recreational opportunities. • Trego Lake: Trego Lake, located in the county, is known for its clear waters and is a popular spot for fishing, swimming, and boating. • Hunting Destination: Washburn County is a destination for hunting, with opportunities for deer, bear, turkey, and small game hunting. The area's forests and woodlands provide habitats for various game species.

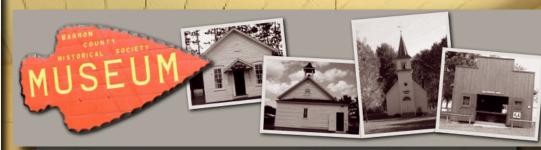

• Winter Activities: During the winter months, Washburn County offers activities such as snowmobiling, cross-country skiing, and ice fishing. • Heartwood Conference Center & Retreat: This center is located in Trego and offers conference facilities, lodging, and outdoor recreational opportunities in a peaceful setting. • Stone Lake Cranberry Festival: The nearby Stone Lake Cranberry Festival, thoughnotin Washburn County itself, is a popular annual event. It celebrates the cranberry harvest with crafts, food, and entertainment. • Railroad History: Washburn County has a history tied to the railroad industry, which played a role in its development and growth.

 Art & Culture: The county has a vibrant arts and culture scene, with local galleries, artisan shops, and cultural events that showcase the talents of local artists and craftspeople.

• Namekagon Barrens Wildlife Area: This area is known for its unique ecosystems, including pine barrens and oak savannas, providing habitat for various plant and animal species.

• Historical Sites: Washburn County has historical sites and museums that offer insights into the area's past, including its early settlement and development.

PIONEER VILLAGE MUSEUM

The Barron County Historical Society's Pioneer Museum has something for everyone. Located between Barron and Cameron on Hwy W, the museum has 35 buildings of historic artifacts and displays to explore.

Visitors can wind their way through "the Village," which includes historic log buildings and shops from days gone by. They will see the historic Ebenezer Lutheran Church, a post office, general store, doctor's office, dentist office, gas station, barbershop, meeting house, town hall, jail, newspaper office, and a blacksmith shop. They can see how early immigrant families in Barron County lived, sit at a desk in a one-room country school, and check out the railroad depot. There is even a complete farmstead.

Many large display buildings house collections of everything from pedal cars and cast iron toys, to outboard motors. Visitors can see restored tractors, antique cars, "rooms" that show a "Depression-era" kitchen, a bank teller's window, office equipment, washing machines, apothecary items, and wood carvings, just to name a few. A climate-controlled exhibition hall houses 40 glass front cases with ever-changing exhibits of life in Barron County. A box factory and creamery, and lots of farm equipment, are also on display. A native plant rain garden, and a vegetable garden with a historical theme provide additional educational opportunities.

During Heritage Days, always held the weekend following 4th-of-July weekend, visitors may be able to see some of the following in action: the blacksmith shop, box factory, wringer washer, butter churn, weavers making hand-loomed rugs, children's games, and many other demonstrations, including live music in the Pavilion.

The Museum is open Thursday, Friday, and Sunday from 1-5pm, and Saturdays 10am-5pm, June through August. There are many rest and picnic areas, modern rest room facilities, and a gift shop filled with museum souvenirs and locally hand crafted items. An old-fashioned Saloon sells sarsaparilla, fresh popcorn, and other treats. Other food is available during special events.

The Cultural Arts Building is climate controlled with inside and outside seating, and can be rented for meetings, reunions, or parties. The Church can also be rented for weddings or services. Check the website at www.barroncountymuseum.com for the 2023 special events calendar, fees, and forms.

In Barron County You'll Experience:

Low cost living & great career options with competitive wages.

So, You have decided to get a pet... NOW WHAT??

Commitment and Time: Owning a pet is a long-term commitment. Before bringing a pet home, consider your lifestyle and ensure you have enough time to spend with your pet. Dogs, cats, and many other animals require attention, exercise, and mental stimulation.

Choose the Right Pet for Your Lifestyle: Different pets have varying needs, temperaments, and activity levels. Research and select a pet that fits well with your lifestyle, living situation, and family dynamics. Whether you choose a dog, cat, bird, fish, or any other animal, make sure you can provide for its specific needs.

Proper Nutrition: Feed your pet a balanced and nutritious diet suitable for their species and age. Consult with a veterinarian to determine the best food options for your pet's health and well-being.

Regular Exercise: Most pets need regular physical activity to stay healthy and happy. Engage in playtime and exercise with your pet daily, as it helps prevent obesity and provides mental stimulation.

Routine Veterinary Care: Schedule regular check-ups with a veterinarian to monitor your pet's health, get necessary vaccinations, and address any concerns. Early detection of health issues can often lead to better outcomes.

Spaying/Neutering: Consider spaying or neutering your pet if you don't plan on breeding. This helps control the pet population and can have health benefits for your pet.

Training and Socialization: Properly train your pet to follow basic commands and have good manners. Socialize them with other animals and people from a young age to prevent behavioral issues later on.

Provide a Safe Environment: Ensure that your home and yard are safe for your pet. Remove hazards, keep toxic substances out of reach, and provide appropriate shelter from extreme weather conditions.

Grooming: Regular grooming is essential for most pets. Brush their fur, trim nails, and clean their ears as needed to keep them comfortable and healthy.

Identification and Microchipping: Keep identification tags with your current contact information on your pet's collar. Consider microchipping your pet as an extra measure to ensure they can be identified if lost.

Love and Attention: Pets thrive on love and attention from their owners. Spend quality time with your pet, provide affection, and build a strong bond.

Patience and Forgiveness: Pets, especially young ones, can be mischievous or have accidents. Be patient with them during the training process and forgive any mistakes they make along the way.

Emergency Preparedness: Have a plan in place for emergencies, including natural disasters. Know how to evacuate with your pet safely if needed.

If you have just rescued / adopted a new fur baby, please it is important to remember the 3-3-3 RULE:

3 Days:

In the first 3 days being in its new home, they will be feeling overwhelmed, scared & unsure of what is going on. They may also be uncomfortable being "themselves", and may not want to eat or drink. They may want to "shut down" or hide under a bed or in a crate, and they will test boundaries.

3 Weeks:

At this point, they may be a lot more comfortable & settling in. Learning a new routine can be overwhelming, so please be patient. By now they may have figured out the new environment & accepted that this may be their FURever home. Their personality traits will start to show, as well as any behavior issue that may be present.

3 Months:

For most fur babies, 3 months is enough time to finally be comfortable and begin to build trust and a true bond. A sense of security may be present & a set routine will help this process.

Please know that this is not the rule with every rescued or adopted pet, as some may need 6 months to a year to adjust & adapt, depending on MANY factors. Age of animal, what type of an environment did they come from?

INGREDIENTS

- 4 tilapia fillets
- 4 cloves garlic, minced
- 4 tablespoons butter, melted

and pepper, to taste

Fresh parsley, chopped

(optional)

- Preheat your oven to 375°F (190°C).
- Pat the tilapia fillets dry with paper towels and place them in a baking dish.
- In a small bowl, mix together the minced garlic and melted butter.
- Pour the garlic butter mixture over the tilapia fillets, making sure they are well coated.
- 5 Season the fillets with salt and pepper to taste.
- Bake the tilapia in the preheated oven for 12-15 minutes or until the fish is cooked through and flakes easily with a fork.
- Sprinkle chopped parsley over the top of the cooked tilapia, if desired.
- Serve the tilapia fillets hot, with your favorite side dishes.

PREP: 35 MIN • TOTAL: 50 MIN

Fall Lawn Care

In the fall grass grows fast. This is because the suns rays are less intense during the day and the cooler temperatures at night. This makes it a great time to get your lawn good and healthy for next summer.

Here are a few things you can do to prep your lawn for next year.

- Remove the leaves from your lawn to prevent matting and fungi growth. Or mulch them up into fine pieces, which also acts as a natural fertilizer.
- Don't stop mowing. If the grass is too long come winter time it will lay over on itself and be more vulnerable to fungi.
- Aerate the soil every other year to loosen it up so water, oxygen and nutrients can get to the roots easier.
- Reseed bald or thin areas of grass around the vard.
- Fertilizing in the fall is the best time. It gives the grass important nutrients to help it stay strong and healthy through the winter.
