## Washington County History (West Bend, County Seat)

Washington County is an area of rolling hills, meadows and lakes formed by glaciers. Located a short distance from Lake Michigan, Washington County was originally a heavily forested area of oak, maple, hickory, beech and other trees. The area has since been cleared for agriculture and attracted predominantly German and Irish immigrants. Once part of Brown County, Washington County was established in 1836. Land here was opened for settlement in 1838. Grafton was the county seat until 1847 when it was moved to West Bend. The arrival of the railroad lines allowed for a steady population growth and an easy transport of dairy products, agricultural goods and travelers. Today Washington County is home to approximately 129,477 residents.

# Washington County Communities

## GERMANTOWN

Germantown is one of Washington County's oldest communities. In the 1840s German immigrants arrived and new settlers were attracted to its proximity to Milwaukee. Businesses formed to accommodate travelers passing through, including a blacksmith shop, hotel, brewery and saloon. After the Milwaukee and St. Paul railroad line and the Chicago and North Western line arrived, the area began to boom. Today Germantown is home to approximately 19,594 residents.

## HARTFORD

The area was surveyed in 1843 by Nicholas Simon and a dam was built across the Rubicon River a year later. A sawmill soon followed and the railroad arrived in 1855, connecting Hartford to Chicago, Milwaukee, La Crosse and Minneapolis. Hartford was founded in 1866 by a Civil War Veteran, William Benjamin Place. Industry provided a steady population growth as the Kissel automobile plant was established here. Today Hartford is home to approximately 13,853 residents.

## JACKSON

Jackson is located in the heart of the Kettle Moraine area. Known for a time as Riceville, Jackson was named after President Andrew Jackson. The arrival of the railroad attracted more settlers. By 1881, Jackson was home to a grain elevator, two blacksmith shops, saloon, hardware store and a carpenter shop. It was incorporated as a Village in 1912 and is now one of Washington County's fastest growing communities. Today Jackson is home to approximately 6,755 residents.

## RICHFIELD

Richfield was home to the Menomonee and Potawatomi Indians until the land treaties were ratified in 1833. Land was then surveyed and a formal Township government was formed in 1846. Settlers were of German, Irish and English descent who were attracted to the fertile soil. Agriculture flourished and with the railroad lines, commercial industry began to prosper. Today Richfield is home to approximately 11,224 residents.

## WEST BEND (COUNTY SEAT)

West Bend was home to the Potawatomi and Menomonee Indians until the arrival of European settlers. A road was built in 1845, connecting Fond du Lac and Milwaukee, with West Bend as a rest stop for travelers. As more travelers arrived, West Bend became a popular area due to its prime location and proximity to the Milwaukee River. Sawmills and gristmills were built to harness the energy of the river and the railroad arrived in 1873, attracting more settlers. In 1885 West Bend was incorporated. Today West Bend is home to approximately 29,894 residents.

## Ozaukee County History (Port Washington, County Seat)

The earliest people to live on the soil that is now Ozaukee County were the Menomonee, Potawatomi, Sac and Fox Indian tribes of the Algonquin Nation. In 1670 the first Europeans arrived and French traders established trading and military posts in the area. When the first settlers arrived they immediately began developing a community with homes, churches and schools. They also recognized the fertile land of the region and began to harvest crops and other agriculture. Luxemburgers settled in Belgium, Germans in Cedarburg and the Irish in Fredonia and Mequon. Ozaukee County was part of Milwaukee County until 1830, then another split occurred in 1853 when the county lines were officially established. At this time Port Washington was named the county seat, but due to many problems the meetings were moved to Mequon, then West Bend and finally the current county seat of Port Washington. In 1844 the Green Bay Military Road was constructed. It stretched the entire lengths of the county and many of the early settlements established their towns on this road. Today Ozaukee County is home to approximately 82,317 residents.

### CITIES:

**NEWBURG** – pop. 84

**SAUKVILLE** – pop. 4,385

*\*Populations are approximate*

# Ozaukee County Communities

## CEDARBURG

The area that is now known as Cedarburg was first recognized in the 1840s. In 1948 the town was established and platted as a town in Washington County. Its name is most likely given because of the abundance of Cedar trees in the area. In 1853 it was officially part of Ozaukee County. In 1860 a school house was constructed. The only covered bridge located in Wisconsin was built by the town of Cedarburg in 1876. Today Cedarburg is home to approximately 11,435 residents.

## GRAFTON

Grafton was first explored by two Jesuit priests in 1670 and was occupied by the Potawatomi Indians until the 1820s. Trees were cleared for lumber, farmers grew wheat and the power of the river provided means for a mill. By 1840 Grafton became a trading center and in 1896 Grafton was incorporated. Today Grafton is home to approximately 11,450 residents.

## MEQUON

The first settlers arrived in Mequon in 1836 and were greeted by the Indians who lived in the area at the time. Their names were Isaac Bigelow and Daniel Strickland. They emigrated with their families to the area and settled there. Soon after that the settlement grew and expanded. In 1848 the first town meeting was held and that same year Mequon was established. Today Mequon is home to approximately 23,670 residents.

## PORT WASHINGTON (COUNTY SEAT)

Settled in a recess formed by nature, Port Washington, originally called Wisconsin City, was settled by Wooster Harrison in 1835. He, along with other surveyors, began to develop the area attracting new settlers from the east coast. In 1847 communities began a battle to host the county seat and in 1852 Port Washington was chosen for Ozaukee County. It is home to the most pre-Civil War buildings in Wisconsin and has continued to see a steady growth in population due to its prime location on Lake Michigan. Today Port Washington is home to approximately 11,185 residents.

## SAUKVILLE

The Village of Saukville was home to the Menomonee Indians until the 1830s. Indian trails became roads and settlers arrived in 1835. By 1870 Saukville was home to a hotel, church and the Milwaukee and Northern Railroad. Construction of a bridge in 1873 enabled smoother transportation for goods and residents. The area became incorporated in 1915 and hosted its first election. Today Saukville is home to approximately 4,385 residents.

# Parks & Recreation

## WASHINGTON COUNTY

### ACKERMAN'S GROVE COUNTY PARK

Located on 73 acres near Little Cedar Lake, amenities include playground equipment, hiking trail, swimming beach, picnic area, sand volleyball court, restrooms, three reservable shelters, launch access and fishing pier. *Located in Polk.*

### ALLENTON MARSH WILDLIFE AREA

This waterfowl habitat contains the only trout stream in Washington County and is popular with hunters. *Located in Allenton.*

### CEDAR LAKE WAYSIDE

Open seasonally, this three acre park features a wooded picnic area, restrooms and an off leash dog area. *Located in West Bend.*

### FAMILY PARK

Located near the Washington County Golf Course, this 15 acre park is the home to the Howard Buth Memorial Arboretum. Amenities include a picnic area, restrooms, fishing, sand volleyball court, hiking trail and a reservable shelter. *Located in Hartford.*

### GLACIER HILLS COUNTY PARK

Located on 140 acres, this park is home to the Kettle Moraine and several other glacial formations. Amenities include playground equipment, hiking trails, basketball court, sled hill, swimming, fishing, restrooms, three reservable shelters, snowmobile trail access, sand volleyball court and a cross country ski trail. *Located in Richfield.*

### GOEDEN COUNTY PARK

Open seasonally, this park is located near the Milwaukee River. Amenities include a picnic area, restroom, canoe launch, fishing, playground equipment, hiking trail and reservable shelter. *Located in Trenton.*

## HERITAGE TRAILS COUNTY PARK

Open seasonally, this park is located on 234 acres of hills and meadows. Amenities include a picnic area, playground equipment, restrooms, hiking trails, reservable shelter and a disc golf course. *Located in Polk.*

### HOMESTEAD HOLLOW COUNTY PARK

This 105 acre park is open year round and was an old farmstead. Amenities include a picnic area, fishing, play equipment, sled hill, sand volleyball courts, horseshoe area, basketball court, hiking trails, four reservable shelters, soccer fields, cross country skiing and restrooms. *Located in Germantown.*

### ICE AGE NATIONAL SCENIC TRAIL

Currently under construction, this trail features 40 miles of trails, 1,000 miles when completed. This trail was designed to educate hikers about the glaciers, kettles, lakes and eskers in the area.

### KETTLE MORAINES STATE FOREST

This forest is accessible year round and features trails for hiking, biking, skiing, horseback riding and snowmobiling. Activities include family camping, boating, swimming and fishing. Handicapped camping and picnic facilities are available. *Located in Kewaskum.*

### LAC LAWRANN CONSERVANCY

Located on 104 acres of land maintained for nature study and recreation activities, Lac Lawrann Conservancy is a wildlife refuge. *Located in West Bend.*

### LEONARD J. YAHR COUNTY PARK

This 34 acre park features a swimming beach, fishing pier, boat launch, playground equipment, restroom and reservable shelter. *Located in Farmington.*

### LIZARD MOUND COUNTY PARK

Established in 1950, this park is named for the 28 well preserved effigy mounds located here. Amenities include a picnic area, restroom and hiking trail. *Located in Farmington.*

# Parks & Recreation

## OZAUKEE COUNTY

### CEDAR CREEK SETTLEMENT

This location is home to over 30 shops and restaurants which are housed in an old 1864 stone mill. It is also home to the Cedar Creek Winery, famous in the area for their rich tastes. In the settlement you can find hand-made pottery, gourmet food, unique clothing, jewelry, fine art and much more. *Located in Cedarburg.*

### CEDARBURG BOG

This 2,000 acre wetland is one of the largest in Wisconsin and features a variety of trees and wildlife. *Located in Cedarburg.*

### COVERED BRIDGE PARK

This park is home to the last remaining covered bridge in Wisconsin. It houses picnic grounds, historical markers and miles of walkways for visitors to enjoy. *Located in Cedarburg.*

### EHLERS PARK

This park offers visitors many activities including canoeing, boat access, picnic areas and fishing spots. *Located in Saukville.*

### THE FAMILY FARM

This farm offers visitors a zoo, nursery, wagon rides, prairies and pumpkin patches. It has six historic restored farm buildings as well as some modern day amenities. Visitors will see antique tools and enjoy homemade food. *Located in Grafton.*

### HARRINGTON BEACH STATE PARK

Home to a mile of Lake Michigan shoreline, visitors enjoy the lake, go picnicking on the green grass and walk through the thick groves of trees which overlook the lake. The lake also offers scuba diving, surfing, fishing and hiking trails. *Located in Belgium.*

## HAWTHORNE HILLS COUNTY PARK

Amenities include boat accesses, camping, fishing, concessions, golfing, picnic areas, ice skating, tennis courts, cross country ski trails, hiking and restrooms. *Located in Fredonia.*

### LIME KILN PARK

This park features restored lime kiln chimneys and a dam and is along the Green Bay Ethnic Trail. *Located in Grafton.*

### MEQUON COUNTY PARK

Amenities include boat accesses, camping, fishing, concessions, golfing, picnic areas, ice skating, tennis courts, cross country ski trails, hiking and restrooms. *Located in Mequon.*

### OZAUKEE INTERURBAN TRAIL

This trail is based on the Interurban railways which connects Ozaukee County to the City of Milwaukee. It is a 30 mile paved bike and walking trail that spans the entire length of Ozaukee County.

### RIVEREDGE NATURE CENTER

This wildlife sanctuary is located on 350 acres near the Milwaukee River. Riveredge Nature Center features 12 miles of trails, nature study classes, family nature programs, hiking and skiing. Facilities include a barn and small cottage available to reserve for conferences, events and retreats. *Located in Newburg.*

### TENDICK PARK

Featuring 142 acres of woods, this park offers visitors archery, disc golf, canoe access, walking and hiking trails, ice skating and a winter coasting area. *Located in Saukville.*

# Hunting Safety

**All hunters should consider taking an advanced hunter education class to learn the latest hunting techniques along with tips on coming home alive.**

**Here are five suggestions for a safe and successful hunting experience:**

1. Get a detailed map of the area you are hunting, review it before you leave, and carry it with you in the field.
2. Carry a compass and know how to use it. Decide ahead of time the direction to head for if you get lost or disoriented.
3. Weather can change quickly in Minnesota, so hunters should carry a simple survival kit and be prepared for an unexpected overnight stay in the field. The survival kit should contain a rope, a knife, water, waterproof matches, an emergency shelter, and first aid supplies.
4. If you are on the water, make sure to wear a personal flotation device (life preserver).
5. Know your hunting partners' physical and emotional limitations, as well as your own, and don't push your partners or yourself beyond those limits.

# Boating Safety

## Operating Watercraft

**Follow these guidelines to help prevent and prepare for capsizing, swamping, or someone falling overboard.**

- Make sure that you and your passengers are wearing life jackets while the boat is moving.
- Attach the ignition safety lanyard to your wrist, clothes, or life jacket.
- Don't allow anyone to sit on the gunwale, bow, seat backs, motor cover, or areas not designed for seating. Also, don't let anyone sit on pedestal seats when craft is not in idle.
- Don't overload your boat. Balance the load of passengers and gear stored on-board.
- Keep your center of gravity low by not allowing people to stand up or move around while craft is in motion.
- In small boats, don't allow anyone to lean beyond the gunwale.
- Turn boat at slow rates of speed.
- Secure the anchor line to the bow, never to the stern.
- Don't risk operating water craft in rough conditions or bad weather.

# Boating Safety

## Know Your Craft

**BEAM: MAXIMUM WIDTH OF BOAT**

**FREEBOARD: DISTANCE FROM WATER SURFACE TO LOWEST POINT WHERE WATER COULD COME ABOARD BOAT.**

**DRAFT: DEPTH OF WATER NEEDED TO FLOAT VESSEL**

**KEEL: CENTERLINE OF BOAT OR EXTENSION OF HULL (INCREASES STABILITY)**

## Who May Operate a Motorboat (Other Than a Personal Watercraft)

### For engines 25 horsepower or less:

Those under age 12 may operate without restrictions.

### For engines over 25 horsepower through 75 horsepower:

Those under age 12 must have someone 21 years of age or older on board within reach of the controls.

### For engines over 75 horsepower:

No children under age 12 may operate, even with an adult on board.

### Other restrictions apply to boat operators 12 to 17 years old:

Operators from 12 to 17 years of age may operate engines of 25 horsepower or lower with no restrictions.

### For engines over 25 horsepower:

Operators 12 to 17 years of age must have:

A watercraft operator's permit, or someone age 21 years or older on board within reach of the controls.

# Boating Safety

## Flotation Devices

### **Offshore Life Jackets - Type 1:**

For rough or remote waters where rescue may take awhile. Provide the most buoyancy, excellent for flotation, turns most unconscious persons face up in the water.

### **Near-Shore Vests - Type 2:**

Good for calm waters when quick assistance or rescue is likely. Turns some unconscious wearers face up in the water, but not as efficiently as offshore life jackets.

### **Flotation Aids - Type 3:**

Vests or full-sleeved jackets good for calm waters when quick assistance is likely. Not for rough waters. They will not turn most unconscious persons face up. Used for sports, such as water-skiing. Some inflate in water.

### **Unwearable / Throwable Devices - Type 4:**

Cushions and ring buoys designed to be thrown to someone in trouble. Type 4 is not designed to be worn. Not for rough waters - not for anyone unable to hold on to it.

### **Special Use - Type 5:**

Vests, hybrids/others designed for specific activities, for example windsurfing, kayaking, water-skiing. Some Type 5 devices inflate when entering the water. To be acceptable, Type 5 must be used in compliance with their label instructions.

**All watercraft must have at least one** Coast Guard Approved Type 1, 2, 3 or 5 flotation device that is the proper size for each person on board or being towed.

**All devices must** be in good condition and easily accessible.

**Children under age 10 must wear a device** when on board a boat that is underway unless: in an enclosed cabin or below deck or on an anchored boat that is being used for swimming or diving or passenger craft with a licensed captain.

**Along with the above** at least one approved Type 4 must be on board boats 16 ft. or longer (except canoes and kayaks) and immediately available.

**A Coast Guard approved Type 5 device may be substituted** for any other Coast Guard approved device if it meets the same requirements and is noted on the label.

**Anyone riding a jet ski or other Personal Water Craft** must wear an approved -non inflating flotation device, as well as anyone being towed by a water craft.

# ATV Safety

- Read the owner's manual and know your vehicle thoroughly.
- Check your vehicle before you ride.
- Wear protective equipment and clothing.
- Don't lend your vehicle to unskilled riders.
- Supervise young or inexperienced riders.
- Never carry a passenger on vehicles meant for one rider.
- Do not operate under the influence of drugs or alcohol.
- Drive at speeds that are appropriate to trail conditions.
- Stay to the right on trails.
- Stay away from thin ice, open water and wetlands
- Know the weather forecast.
- Make sure headlights and taillights work properly.
- Maintain safe distances between other riders.
- Reduce your speed when riding at night.
- Yield to other motor vehicles and trail users.
- Young or beginning riders are encouraged to take a safety training course.

# Bicycle Safety

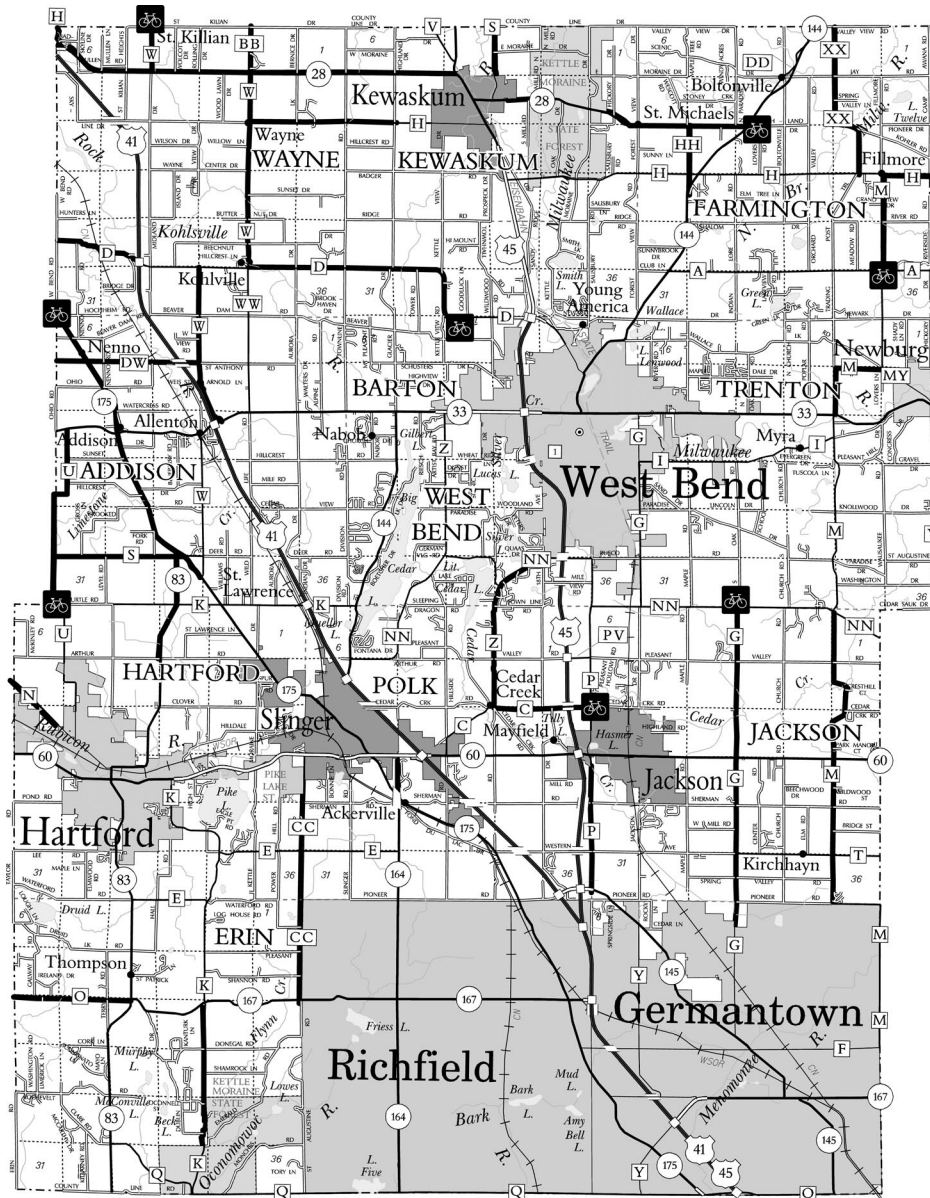

- Always wear a properly fitting bike helmet as most serious injuries are to the head.
- Be sure your handlebars, seat and wheels fit snugly.
- Keep your bike in good shape by checking and oiling your chain, making sure your brakes work properly and maintaining your tire pressure.
- Always ride with both hands on the handlebars except when doing turn signals.
- When leaving a driveway, curb or alleyway always stop and check for traffic in both directions.
- Cross only at intersections.
- Use the crosswalk to walk your bike across busy intersections and follow the traffic signals.
- Never ride against traffic. Travel in the same direction as the cars.
- Whenever you can, use bike routes and avoid busy streets.
- Don't ride near parked cars as doors can open and cause accidents.
- Obey all traffic signs and traffic lights.
- When biking with friends, ride in a single file.
- Always pass other bikers or pedestrians on the left and say "On your left!" to make your presence known.
- Always use bicycle hand signals to alert traffic of your changing direction.

# Bicycle Trails

## WASHINGTON COUNTY

# Bicycle Trails

## OZAUKEE COUNTY

# Snowmobile Safety

- Do not consume alcohol or take drugs prior to or during your snowmobile trip. Doing so increases your chances of injury or death.
- Slow down and don't cut to the inside of the trail corners. It's dangerous and illegal.
- If you snowmobile at night, don't override your lights.
- Always use the buddy system. Never ride off alone.
- Drowning is one of the causes of many snowmobile fatalities. Whenever possible, avoid the ice.
- Wear sensible, protective clothing designed for operating a snowmobile.
- Use a full size helmet, goggles, or visor to prevent injuries from twigs, stones, ice chips and other debris.
- Avoid wearing long scarves. They may get caught in moving parts of the snowmobile.
- Know the terrain you are going to ride. If unfamiliar to you, ask someone who has traveled over it before.
- Know the weather forecast, especially the ice and snow conditions.
- Be sure your snowmobile is in top-notch mechanical condition throughout the months of use.
- Familiarize yourself with the snowmobile you are driving. Thoroughly read the manual that accompanies the snowmobile.
- Do not pursue domestic or wild animals. That is not the conduct of a sportsman. Report such violations to the nearest law enforcement officer.

## Common Trail Signs

# Snowmobile Safety

Communication is an essential part of safe riding. Hand signals are a practical way to communicate between other riders and traffic.

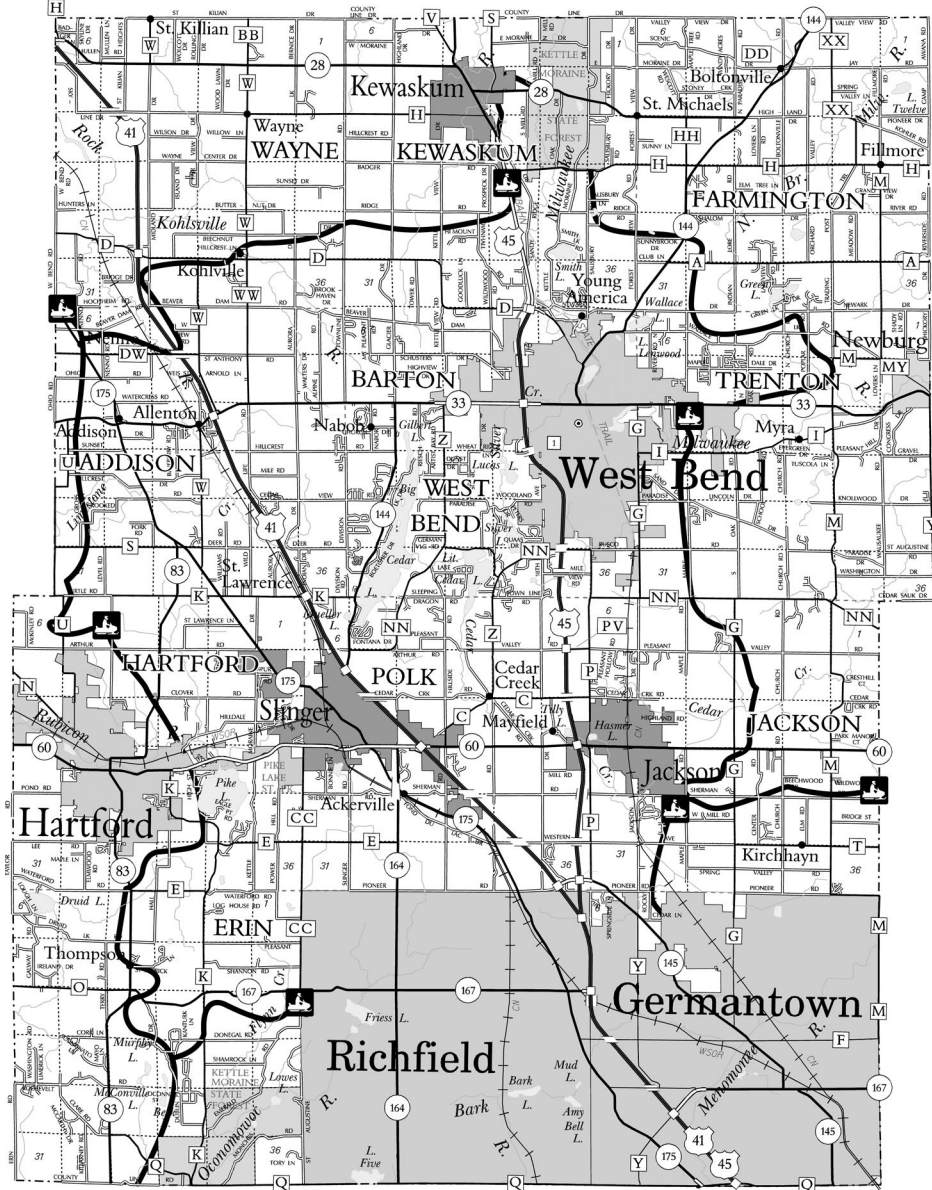

Be sure to give easy to see and clear hand signals when snowmobiling. Hand signals should never be subtle, but always deliberate.

# Home Safety

- Keep the outside of your home well-lit. Motion sensors and timers help deter burglars.
- Dead-bolts and peep-holes should be placed on all outside doors.
- Windows and sliding glass doors should have locks and be in good working order.
- Keep your garage door closed.
- Use an engraver to mark computers, cameras, stereos, TV's, tools, yard equipment, etc.
- Never leave valuables, expensive jewelry, or large amounts of cash at home. If you must, keep a list of your valuables with serial numbers to assist in insurance claims.
- Keep your car locked at all times and store all valuables out of sight.
- Guns should always be stored unloaded and with a gunlock.
- Become part of a neighborhood watch or program that is similar.
- Be suspicious of unusual people or vehicles in your neighborhood. Document the date, time, description and license plate number to give to law enforcement if needed.
- When on vacation, do not advertise your absence. Stop mail and newspaper delivery. Have a trusted friend or neighbor to give the impression you are home by stopping by to take out trash, shovel snow, mow the lawn, etc.

# Emergency Planning

## ESCAPE ROUTES

Everyone in your family should know the best ways to exit the house in case of a disaster. Teach your young children how to open sliding doors, windows and other exits. Designate a meeting place where the family can gather after escaping from the house.

## FLASHLIGHTS

The whole family needs to know where to find flashlights. Periodically check the batteries.

## FULLY CHARGED CELL PHONES

All family members should keep their cell phones charged. Make a habit of charging them, while everyone is asleep. Cell phones can be lifesavers in emergencies.

## LIST OF VALUABLES

Keep this document listing your possessions (and if possible, a video of your home interior) in a fireproof safe, or in a safe deposit box at a bank.

## COMMUNITY EMERGENCY PLANS

Familiarize yourself with community evacuation plans and neighborhood escape routes. Post a copy of them in a highly visible place in your home.

## THUNDERSTORM/TORNADO

- Remove dead branches from trees beforehand to avoid injury or damage.
- After seeing lightning, if you hear thunder in less than 30 seconds, it is recommended that you stay inside for 30 minutes after the thunder has ceased.
- The inside of a car is safer than the outside, as a lightning strike will simply pass through the car as long as you aren't in contact with any metal.
- Unplug all major appliances, as a power surge can cause serious damage.
- Avoid all tall structures and elevated areas as well as large amounts of metal.

## FIRES

- Make sure that every level of your house has a smoke detector, and be sure to test them once a month. Have the family plan an emergency exit route.
- Always keep track of any stoves or high-temperature/high-voltage appliances that are running. Be sure to never leave any cooking unattended.
- Keep lighters and matches away from children.
- If a burn occurs, soak the skin in cool water. If the skin blisters, seek medical assistance.

# ⊕ Emergency First-Aid Tips ⊕

## FIRST AID FOR CPR & HEART ATTACK

### CPR

CPR is to be administered when a person is not breathing or has no pulse. Be quick to act by remembering the A,B,C's: Airway, Breathing & Circulation.

#### Airway:

Place the person on a firm surface, on their back. Kneel next to the person's neck and shoulders. Open the person's airway by tilting back the head and lifting the chin.

#### Breathing:

With the head tilted and chin lifted, pinch the nostrils shut and cover the person's mouth with yours. Give two slow breaths.

#### Circulation:

Find the hand position on the center of the breastbone. Place the heel of your hand on that position, with your other hand on top of the first hand. Use your upper body weight to push down. Give two compressions per second. Compress the chest at a rate equal to 100/minute. Perform 30 compressions at this rate. Repeat until an ambulance arrives.

### HEART ATTACK

Symptoms of a heart attack may include any of the following:

- Uncomfortable pressure, fullness or squeezing pain in the center of the chest.
- Expanded pain in the upper abdomen.
- Shortness of breath.
- Pain or numbness in either arms, shoulders, neck, jaw or teeth.
- Dizziness or fainting.
- Nausea and sweating.

**If you or someone else may be having a heart attack - follow these steps immediately:**

- **DIAL 911**
- **Chew and swallow Aspirin (unless you are allergic/not allowed to)**
- **Take Nitroglycerin (only if prescribed)**
- **Begin CPR if the person is unconscious**

**IN AN EMERGENCY, DIAL 911**

# ⊕ *Emergency First-Aid Tips* ⊕

## *FIRST AID FOR BURNS & CHOKING*

### **BURNS**

**For minor 1st and 2nd degree burns smaller than 3" in diameter:** Cool the Burn. Run cool water over the burned area for 5 minutes, or until the pain diminishes. Never put ice on a burn!

#### **Bandage the burn with sterile gauze:**

It is important to use loosely wrapped gauze. This will avoid pressure and the bandage protects blisters. NEVER put lotions, vaseline, ointments or butter on burn. Do not break any blisters, which can cause infection.

#### **Take Aspirin, Ibuprofen, Naproxen or Acetaminophen to relieve pain:**

Minor burns usually heal with these basic treatments. Be aware for signs of infection which may include: increased pain, redness, fever, swelling or oozing. If symptoms develop, seek medical help. Avoid tanning the burned area for at least a year. Protect the area with sunscreen outdoors. Avoid giving aspirin to children.

***For 3rd degree burns/all major burns - DIAL 911***

***DO NOT run cold water over large severe burns - this can cause shock.***

***DO NOT remove burnt clothing.***

***Check for signs of breathing/coughing/movement.***

***If there are no signs of breathing begin CPR.***

***Elevate burned areas above heart level, if possible.***

***Cover the burn(s) with cool, sterile, moist bandages, towels or cloth.***

### **CHOKING**

Most people clutch at their throats when choking, an obvious symbol for help. However, if a person isn't giving that signal, be alert for these indications. Inability to talk, difficulty breathing or noisy breathing, inability to cough forcefully, skin/lips/nails turning blue, loss of consciousness.

The Red Cross recommends a "five-and-five" method for first aid: First give five blows between the person's shoulders with the heel of your hand. Second, perform the Heimlich maneuver (abdominal thrusts) five times. Alternate between five back blows and five abdominal thrusts until the blockage is dislodged.

***IN AN EMERGENCY, DIAL 911***

# ⊕ *Emergency First-Aid Tips* ⊕

## *FIRST AID FOR INSECT BITES/ANAPHYLAXIS & POISON SAFETY*

### **INSECT BITES/ANAPHYLAXIS**

**Anaphylaxis is a severe allergic reaction from insect bites (latex, food and drug allergies can also cause Anaphylaxis). Typical symptoms include hives, the swelling of lips or eyes, swollen throat, drop in blood pressure, light headedness, confusion, nausea or diarrhea. If someone is having an allergic reaction from an insect bite with these symptoms:**

#### **CALL 911.**

**Administer emergency prescription medication.** See if the person is carrying special emergency allergy medicine and give it to them according to the directions.

#### **Loosen tight clothing.**

**Lay the person down.** The person should lay down on their back with feet elevated. Turn them on their side if they are vomiting or bleeding from their mouth to prevent them from choking.

**If they are not breathing - administer CPR.** Most insect bite reactions are mild and cause no allergic reaction. If stung by a bee, use a straight edged object, like a credit card, to scrape away the stinger. Don't use tweezers - they can pinch more venom out of the stinger. Apply an ice pack to the area and take an over the counter pain reliever.

### **POISON PREVENTION**

**Teach your children about poison and how it can look like a food or drink. They should always ask an adult before eating or drinking anything. Have them learn the poison control phone number: 1-800-222-1222 and keep it programmed or posted near all your phones. Here are some prevention tips.**

**Lock up your poisons and medications.** Keep them out of the reach of children, lock them up if possible. Make sure your children understand that medicine is not candy.

**Follow directions carefully.** Read your labels. Be sure to use and store all poisons and medications properly according to recommendations.

**Keep your pets safe from household chemicals, too.** Don't allow pets near areas that have just been cleaned with chemicals, such as freshly mopped floors or bleached bathtubs and sinks. Clean up any antifreeze/coolant spills. Pets like the flavor but they can die if they ingest it. Store poisonous foods or plants in areas that your pets cannot access. Call your local emergency veterinary hospital if you believe your pet has been poisoned.

***IN AN EMERGENCY, DIAL 911***

# Safety Tips for Parents & For Kids

## PARENTS:

- Teach your kids that an emergency is when you need help from a doctor, a police officer or a firefighter.
- Designate a safe place by your house that a child can go to if they need help right away.
- Have your kids memorize your address and phone numbers. They should also know your full name and where you work.

## KIDS:

### FIRE SAFETY

- If you or someone else is on fire - remember to STOP, DROP and ROLL. Wrap a blanket on the person to help put out the fire.
- If there is a fire, leave the house as fast as you can! Crawl on the floor to avoid smoke and if the door is hot, don't open it - find another way out.
- Learn all the fire exits in your house. Assign a safe place outside for everyone to meet in case of a fire emergency.

### HOME ALONE

- Never tell anyone that you are home alone.
- If someone calls and ask for your mom and dad, tell them "They cannot come to the phone right now, can you please call back later?"
- Do not answer the door, unless it is someone that you know your parents have okay'd them to come over.
