Hiking Safety Tips
 Before heading out on a hike, make sure you are prepared. Determine the length of the hike you're going on and the type of terrain you are going to traverse. Make sure to wear suitable footwear depending on the weather and terrain. Pack an appropriate size backpack and proper gear for your hike. Let a friend or family member know when and where you are going and how long you plan on being gone.

Fishing
 Fishing is a good way to get out and relax. It can also be a time to bond with family or friends. Fishing is healthy as well, being outside and active is good for the body and eating fish can be beneficial. There's also the excitement of never knowing what kind of fish is going to take the bait or how big it is going to be. Plus fishing helps support wild life management.
