IRON COUNTY HISTORY

*I*ron County was created in 1893 from Ashland and Oneida Counties, and it was named for the iron deposits near the lake. It usually gets around 200 inches of snow annually. There are over 500 miles of snowmobile trails and 175,000 acres of forests. Hurley is the county seat. Iron County is located in northwest Wisconsin and has a population of nearly 6,000.

Saxon - pop. 350
Sherman - pop. 336
**Populations are approximate.*

IRON COUNTY COMMUNITIES

Hurley (county seat)

Hurley was founded to serve lumbermen and miners. Hurley and Gile were lumber towns, with many mining towns nearby. Hurley got its name from M. A. Hurley, an attorney of Wausau. In 1885, his first name was dropped and the community became known as simply Hurley instead of Glen Hurley. Henry Meade was Hurley's first mayor. John Ankers was Hurley's first town clerk, justice of the peace, and fire chief. In 1888 there were two large fires that destroyed most of the city, but the people recovered and it was rebuilt with brick and stone. He also opened Hurley's first saloon. Hurley was also the home of Delia Zarzyski, where she lived her entire life with her husband Leonard. They had three children, one of whom is Paul Zarzyski who performs across the country and has written poems and books. Today Hurley is home to approximately 1,547 residents.

Mercer

Mercer classifies itself as the "Loon Capital of the World". According to a wildlife study, Mercer had the highest concentration of loons in the world. Mercer celebrates this with a Loon Day festival and had a 16-foot, 2,000-pound statue created named "Claire de Loon". In Mercer's earlier days it was a lumber town and today it is more of a tourist or vacation destination. The population is around 1,732.

Montreal

The Montreal Mining Company had several copper and iron ore mines in the area, and is what Montreal was named after. Miners leased the land near the mine shaft, and the company began renting homes to the miners in 1918. The local mine closed in 1962 after operating for a century and shipping 45 million tons of iron ore. The National Register of Historic Places added many of these houses to their register in 1980. The ore deposits from the mines can still be seen off Highway 77. Today the population is around 807 people.

Disc golf or frisbee golf is played a lot like traditional ball golf but instead of hitting a ball with a club into a hole the player throws a frisbee into a basket. Disc golf can be played by just about anyone at any age. It's also a cheap sport to get into. Specialized frisbees for disc golf cost around \$10-\$15 and a lot of courses are free. Playing disc golf is a great way to get out for some exercise, enjoy nature and have some fun.

Disc Golf

Vilas County was set off from Oneida County in 1893 by William Freeman Vilas. He was one of many people coming from New England as part of a wave of “Yankee” migrants who helped to found the state, and he served as senator from 1891 to 1897. The earliest people in the county were members of the Chippewa band of Native Americans, though migrants had constructed wagon roads and trails, as well as a logging industry in the area in the 1850s. The population is over 21,000 and the county seat is Eagle River.

Washington - pop. 1,577

Winchester - pop. 383

**Populations are approximate.*

Arbor Vitae

Arbor Vitae is one of the oldest towns in Vilas County, having been founded in the 1890s. Today the community focuses mainly on tourism, and has many cabins and campgrounds people can stay at. There are an abundance of outdoor activities for people to do. Many of the trails used today come from abandoned rail systems and logging roads. Today Arbor Vitae is home to approximately 3,153 residents.

Boulder Junction

Railroad tracks were laid down in 1903, and this area would become Boulder Junction. While the railroads were used for the logging industry, many outdoorsmen were also attracted by them. Tourism grew and resorts were built to accommodate all the people. Today Boulder Junction is home to approximately 958 residents.

Eagle River (county seat)

Eagle River’s name comes from the high amount of eagles nesting along the river. In 1857 numerous families moved into the area, creating a settlement. In 1885, the town of Eagle River was created because so many of the families were very involved in the community and were continuing what the original settlers had started. Today the city is a popular vacation and retirement destination. Today Eagle River is home to approximately 1,398 residents.

St. Germain

The first settlers to arrive in the St. Germain area was in 1903. The people settling in the area were loggers, trappers, sawmill operators and resort owners. The Town of Farmington was established by the Vilas County Board on January 31, 1907. The name was not a good representation of the area. So on June 20, 1930 it was changed to St. Germain after Chief St. Germaine. Today the population is around 1,932.

In 1871, Prof. Raphael Pumpelly of Harvard University, possibly the first professionally trained mining engineer in the United States, discovered iron ore in what would later become Gogebic County. He came to this iron range by sailboat and then traveled 20 miles south by land to the site in Ironwood near the abandoned gas plant. After establishing camp in tents, Pumpelly noticed yellow stains on rocks. After this discovery, he and his financial backers purchased two miles, which in later years became the site of the Newport and Geneva iron mines. The population of Gogebic is over 16,000 and the county seat is Bessemer.

 Wakefield - pop. 305
 Watersmeet - pop. 1,417
**Populations are approximate.*

Bessemer (County Seat)

In 1884, when the community began, there was a nearby mine called Bessemer which the town was named after. The mine itself had been named after a British metallurgist, named Henry Bessemer. Today Bessemer is home to approximately 1,914 residents.

Ironwood

The town of Ironwood was settled in 1885. In the 1870s iron ore had been discovered but it wasn't until the railroad opened that people were able to extensively explore the deposits of ore. Several mines were discovered and with the addition of lumber works in the area, many immigrants were drawn to Ironwood. The town's name is generally considered to have come from a mining captain by the name of James Wood. Today Ironwood is home to approximately 5,387 residents.

Wakefield

Wakefield was platted in 1886 by George M. Wakefield. Much of the reason for founding Wakefield was because of the discovery of iron on the east end of Sunday Lake. This discovery brought in many mining companies, and many nearby cities such as Plymouth and Pike are also named after these mines. The Sunday Lake Mine closed in 1961, and with the mining jobs gone, many goods and service jobs opened, along with the forest industry and tourism becoming a much bigger part of the economy. Today Wakefield is home to approximately 1,851 residents.

Fishing

Fishing is a good way to get out and relax. It can also be a time to bond with family or friends. Fishing is healthy as well, being outside and active is good for the body and eating fish can be beneficial. There's also the excitement of never knowing what kind of fish is going to take the bait or how big it is going to be. Plus fishing helps support wild life management.

Agate Falls Scenic Site

M-28 | Trout Creek, MI | 906-353-6558

Hiking Safety Tips

Before heading out on a hike, make sure you are prepared. Determine the length of the hike you're going on and the type of terrain you are going to traverse. Make sure to wear suitable footwear depending on the weather and terrain. Pack an appropriate size backpack and proper gear for your hike. Let a friend or family member know when and where you are going and how long you plan on being gone.

HUNTING SEASONS (WI)

DEER

Archery and Crossbow

Sept. 14 – Jan. 5, 2025

Boating safety is critical for anyone who operates a boat or spends time on the water. Here are some general boating safety tips to keep in mind:

- **Wear a life jacket:** Always wear a life jacket while boating. Make sure the life jacket is appropriate for your weight and is U.S. Coast Guard approved.
- **Know the weather:** Check the weather forecast before you go boating and keep an eye on changing conditions. If you notice darkening clouds, rough winds or sudden drops in temperature, get off the water.
- **Use navigation aids:** Use navigation aids like buoys and beacons to help you navigate safely.
- **Maintain your boat:** Keep your boat well-maintained and in good working condition. Make sure all safety equipment is in good condition and functioning properly.
- **Avoid alcohol:** Do not drink alcohol while operating a boat. It is illegal and increases the likelihood of accidents.
- **Watch your speed:** Observe speed limits and maintain a safe speed based on conditions. Remember, slower speeds may be necessary in crowded areas or in inclement weather.
- **Be aware of other boats:** Watch for other boats and be aware of their movements. Always assume other boaters may not see you.
- **Know the rules:** Learn and follow boating safety laws and regulations. This includes rules for navigation, safety equipment, and right-of-way.
- **File a float plan:** Always let someone know where you are going and when you plan to return. File a float plan with a trusted person or a marina.
- **Take a boating safety course:** Consider taking a boating safety course to improve your skills and knowledge.

By following these general boating safety tips, you can reduce the likelihood of accidents and enjoy a safe and enjoyable time on the water.

LODGING | WEDDINGS | RETREATS | EVENTS

Be Aware of your Surroundings

- Always wear a properly fitting bike helmet as most serious injuries are to the head.
- Be sure your handlebars, seat and wheels fit snugly.
- Keep your bike in good shape by checking and oiling your chain, making sure your brakes work properly and maintaining your tire pressure.
- Always ride with both hands on the handlebars except when doing turn signals.
- When leaving a driveway, curb or alleyway always stop and check for traffic in both directions.
- Cross only at intersections.
- Use the crosswalk to walk your bike across busy intersections and follow the traffic signals.
- Never ride against traffic. Travel in the same direction as the cars.
- Whenever you can, use bike routes and avoid busy streets.
- Don't ride near parked cars as doors can open and cause accidents.
- Obey all traffic signs and traffic lights.
- When biking with friends, ride in a single file.
- Always pass other bikers or pedestrians on the left and say "On your left!" to make your presence known.
- Always use bicycle hand signals to alert traffic of your changing direction.

Drink lots of Water!

Know Your ATV

Read the owner's manual

and know your vehicle thoroughly.

- Check your vehicle before you ride.
- Wear protective equipment and clothing.
- Don't lend your vehicle to unskilled riders.
- Supervise young or inexperienced riders.
- Never carry a passenger on vehicles meant for one rider.
- Do not operate under the influence of drugs or alcohol.
- Drive at speeds that are appropriate to trail conditions.
- Stay to the right on trails.
- Stay away from thin ice, open water and wetlands.
- Know the weather forecast.
- Make sure headlights and taillights work properly.
- Maintain safe distances between other riders.
- Reduce your speed when riding at night.
- Yield to other motor vehicles and trail users.
- Young or beginning riders are encouraged to take a safety training course.

SNOWMOBILE SAFETY

- Do not consume alcohol or take drugs prior to or during your snowmobile trip. Doing so increases your chances of injury or death.
- Slow down and don't cut to the inside of the trail corners. It's dangerous and illegal.
- If you snowmobile at night, don't override your lights.
- Always use the buddy system. Never ride off alone.
- Drowning is one of the causes of many snowmobile fatalities. Whenever possible, avoid the ice.
- Wear sensible, protective clothing designed for operating a snowmobile.
- Use a full size helmet, goggles, or visor to prevent injuries from twigs, stones, ice chips and other debris.
- Avoid wearing long scarves. They may get caught in moving parts of the snowmobile.
- Know the terrain you are going to ride. If unfamiliar to you, ask someone who has traveled over it before.
- Know the weather forecast, especially the ice and snow conditions.
- Be sure your snowmobile is in top-notch mechanical condition throughout the months of use.
- Familiarize yourself with the snowmobile you are driving. Thoroughly read the manual that accompanies the snowmobile.
- Do not pursue domestic or wild animals. That is not the conduct of a sportsman. Report such violations to the nearest law enforcement officer.

Snowmobile Hand Signals

Communication is an essential part of safe riding. Hand signals are a practical way to communicate between other riders and traffic. Be sure to give easy to see and clear hand signals when snowmobiling. Hand signals should never be subtle, but always deliberate.

PRIVATE PROPERTY
NO TRESPASSING

Please respect private property and no trespassing signs. Stay on trails. Exercise extreme caution on all lakes and streams. Obey all state and local laws and ordinances. Do not operate snowmobiles/ATV's on county roads or state highways.

So, You have decided to get a pet... NOW WHAT??

Commitment and Time: Owning a pet is a long-term commitment. Before bringing a pet home, consider your lifestyle and ensure you have enough time to spend with your pet. Dogs, cats, and many other animals require attention, exercise, and mental stimulation.

Choose the Right Pet for Your Lifestyle: Different pets have varying needs, temperaments, and activity levels. Research and select a pet that fits well with your lifestyle, living situation, and family dynamics. Whether you choose a dog, cat, bird, fish, or any other animal, make sure you can provide for its specific needs.

Proper Nutrition: Feed your pet a balanced and nutritious diet suitable for their species and age. Consult with a veterinarian to determine the best food options for your pet's health and well-being.

Regular Exercise: Most pets need regular physical activity to stay healthy and happy. Engage in playtime and exercise with your pet daily, as it helps prevent obesity and provides mental stimulation.

Routine Veterinary Care: Schedule regular check-ups with a veterinarian to monitor your pet's health, get necessary vaccinations, and address any concerns. Early detection of health issues can often lead to better outcomes.

Spaying/Neutering: Consider spaying or neutering your pet if you don't plan on breeding. This helps control the pet population and can have health benefits for your pet.

Training and Socialization: Properly train your pet to follow basic commands and have good manners. Socialize them with other animals and people from a young age to prevent behavioral issues later on.

Provide a Safe Environment: Ensure that your home and yard are safe for your pet. Remove hazards, keep toxic substances out of reach, and provide appropriate shelter from extreme weather conditions.

Grooming: Regular grooming is essential for most pets. Brush their fur, trim nails, and clean their ears as needed to keep them comfortable and healthy.

Identification and Microchipping: Keep identification tags with your current contact information on your pet's collar. Consider microchipping your pet as an extra measure to ensure they can be identified if lost.

Love and Attention: Pets thrive on love and attention from their owners. Spend quality time with your pet, provide affection, and build a strong bond.

Respect and Understanding: Learn to understand your pet's body language and behavior. Respect their boundaries and feelings, and avoid forcing them into uncomfortable situations.

Patience and Forgiveness: Pets, especially young ones, can be mischievous or have accidents. Be patient with them during the training process and forgive any mistakes they make along the way.

Emergency Preparedness: Have a plan in place for emergencies, including natural disasters. Know how to evacuate with your pet safely if needed.

If you have just rescued / adopted a new fur baby, please it is important to remember the 3-3-3 RULE:

3 Days:

In the first 3 days being in its new home, they will be feeling overwhelmed, scared & unsure of what is going on. They may also be uncomfortable being "themselves", and may not want to eat or drink. They may want to "shut down" or hide under a bed or in a crate, and they will test boundaries.

3 Weeks:

At this point, they may be a lot more comfortable & settling in. Learning a new routine can be overwhelming, so please be patient. By now they may have figured out the new environment & accepted that this may be their FURever home. Their personality traits will start to show, as well as any behavior issue that may be present.

3 Months:

For most fur babies, 3 months is enough time to finally be comfortable and begin to build trust and a true bond. A sense of security may be present & a set routine will help this process.

Please know that this is not the rule with every rescued or adopted pet, as some may need 6 months to a year to adjust & adapt, depending on MANY factors. Age of animal, what type of an environment did they come from?

Iron King Dog Park

Bonnie St. & Ayer St.

Ironwood, MI

DOG PARKS

CREAMY *Dill* CHICKEN

Simple meal with a Gourmet Feel

INGREDIENTS

4 boneless, skinless chicken breasts

Salt and pepper

1 tablespoon olive oil

1 tablespoon butter

1/2 cup chicken broth

1/2 cup heavy cream

1 tablespoon Dijon mustard

2 teaspoons dried dill weed

1/4 cup chopped fresh parsley

INSTRUCTIONS

- 1 Season the chicken breasts with salt and pepper on both sides.
- 2 Heat the olive oil and butter in a large skillet over medium-high heat.
- 3 Add the chicken breasts to the skillet and cook for 6-7 minutes on each side, until browned and cooked through. Remove the chicken from the skillet and set aside.
- 4 Pour the chicken broth into the skillet and use a spatula to scrape up any browned bits from the bottom of the pan.
- 5 Stir in the heavy cream, Dijon mustard, and dried dill weed. Bring the mixture to a simmer and cook for 2-3 minutes, stirring frequently, until the sauce has thickened.
- 6 Return the chicken breasts to the skillet and spoon the sauce over the top. Allow the chicken to cook in the sauce for an additional 1-2 minutes, until the chicken is heated through.
- 7 Sprinkle chopped fresh parsley over the top of the chicken before serving.

*Enjoy your delicious
creamy dill chicken!*

Let Wildlife be Wild

- ✖ Bringing a wild animal home will stress it out. The stress can cause health problems or even death. Most wild animals see people and domestic animals as a threat.
- ✖ Wild animals can carry diseases and parasites that can affect humans and domestic animals.
- ✖ The diet requirements of a wild animal are very hard to replicate in captivity. With out a complete diet wild animals run a high risk of having nutritional deficiencies that can lead to deformations or death. On the other hand for local birds providing supplemental food and water may be beneficial with correct practice.
- ✖ Wild animals raised by humans don't learn their normal behaviors or survival skills and shouldn't be released into the wild.
- ✖ If you come across a injured animal don't try and help it until contacting your local wildlife agency to see what they recommend.
- ✖ It's illegal for an unauthorized citizen to raise wild animals in most states.

- **A healthy animal in its natural environment has the best chance of survival.**
- **A young wild animal by itself does not mean it's an orphan. It is common for adults to leave their young unattended while they forage or hunt.**
- **Wild animals are not very safe as pets.**
- **It is false that the human scent on a wild animal will make the parents reject it.**
