BOOK ONLINE AT [DAKOTADOGSSD.COM](http://DAKOTADOGSSD.COM)

Lincoln County was founded in 1862 and named in honor of President Abraham Lincoln. Access to the Big Sioux River attracted many settlers and communities were established near its banks and railroad junctions. Early industry was led by agriculture as residents farmed crops and raised cattle, and Canton was selected as the county seat in 1867. By 1900 the population of Lincoln County reached 12,161 and it is now one of the fastest growing counties in South Dakota. Today Lincoln County is home to approximately 65,161 residents

**BERESFORD** - pop. 2,180

**CANTON (COUNTY SEAT)** - pop. 3,066

**FAIRVIEW** - pop. 61

**HARRISBURG** - pop. 6,732

**HUDSON** - pop. 311

**LENNOX** - pop. 2,423

**TEA** - pop. 5,598

**WORTHING** - pop. 927

*\*Populations are approximate.*

## BERESFORD

First known as Paris, Beresford was renamed after railroad investor and admiral Lord Charles Beresford and incorporated in 1884. As rail lines were completed, business began to boom and the community housed a saloon, harness shop, physician, bank, grain elevators and general stores.

## CANTON (COUNTY SEAT)

Canton was selected as the county seat in 1867 and the community was widely recognized as Gate City. Businesses were established to meet the growing needs of its residents and by 1870 the area boasted saloons, hotels, general stores and specialty shops. Streets were platted in 1875 and the community was incorporated in 1881. The community housed several institutions including Augustana College and the Hiawatha Asylum for Insane Indians which were later closed. In recent history, Canton has been recognized as the 2011 Community of the Year by the Governor's Economic Development Conference, due to its strong economy and community development.

## HARRISBURG

Once known as Selina, Harrisburg was settled in 1878 with the arrival of the railroad. In 1890 its name was changed to Harrisburg and businesses included a lumberyard, post office, grocery store, bank, church and a variety of specialty shops. The first fire department was established in 1921 and the community has continued to prosper.

## LENNOX

Named in honor of Ben Lennox, an officer of the railroad, Lennox was settled in 1879 as rail lines were constructed. The area grew dramatically and its population reached 400 by 1885. Businesses included a lumberyard, drug store, livery stable, hotels, saloons and a wide variety of shops which continued to attract new residents.

## TEA

First known as Byron, the area was settled with railroad development and the community was renamed Tea to avoid postal confusion with an already established Byron. Streets were platted in 1900, and by 1906, Tea was incorporated and boasted a lumberyard, blacksmith shop, cheese factory, telephone office, newspaper, bank and general stores.

## WORTHING

Railroad expansion allowed for the development of Worthing in 1879 and the area grew slowly. Early industry was led by agriculture as many residents farmed and raised cattle and in 1900 its population reached 200. Its proximity to Sioux Falls has allowed for more recent growth and its population has almost doubled within the last 20 years.

*M*innehaha County was founded in 1862 and its name was derived from the Indian word for rapid water. Ample natural resources, access to water and fertile soil attracted settlers, and communities were established with the founding of the railroad. Early industry was led by agriculture as residents raised cattle and farmed wheat for flour. As land boundaries were changed, Dell Rapids unsuccessfully battled Sioux Falls for the county seat, and by 1900 the population of Minnehaha County reached 23,926 and the area continued to develop. Today Minnehaha County is home to approximately 197,214 residents.

**BALTIC** - pop. 1,246

**BRANDON** - pop. 11,048

**COLTON** - pop. 738

**CROOKS** - pop. 1,362

**CORSON** - pop. 70

**DELL RAPIDS** - pop. 3,996

**GARRETSON** - pop. 1,228

**HARTFORD** - pop. 3,354

**HUMBOLDT** - pop. 579

**SHERMAN** - pop. 81

**SIoux FALLS (COUNTY SEAT)** - pop. 192,517

**VALLEY SPRINGS** - pop. 885

*\*Populations are approximate.*

## BALTIC

The Baltic area was settled in 1881 as rail lines were constructed throughout the area. A dam, flour mill and post office were established soon after and the community began to grow. In 1884 Chris Ebert constructed a general store that was later destroyed by a devastating storm. Residents rebuilt resiliently and the area continued to thrive.

## BRANDON

Streets were platted in 1878 as the railroad was constructed. By 1883 Brandon housed a church, creamery, school, post office and the area developed slowly due to its close proximity to Sioux Falls. Its population reached 200 in 1949 and in 1973 Brandon was incorporated.

## COLTON

The community was founded as the Colton brothers established the Taopi Creamery Company in 1878 and the town was named in their honor. Colton grew quickly as the rail lines were laid and by 1906 was incorporated and housed a post office, town newspaper and a variety of businesses.

## CROOKS

First known as New Hope, Crooks was established as a railway community. By 1897, the area boasted a post office, church, creamery and grain elevators. In 1905, the area was renamed in honor of David O. Crooks, a prominent local landowner and developer, and later in 1978 Crooks was incorporated.

## CORSON

Corson is an unincorporated community in Brandon Township, Minnehaha County, South Dakota, United States with a population of 70. It lies immediately north of Interstate 90 and Brandon on South Dakota Highway 11.

## DELL RAPIDS

Dell Rapids was established with the construction of a dam and flour mill in 1871, and was first known as Dell City. By 1880 the community housed a post office, ferry, newspaper, quarry, general stores and almost secured the county seat. As county boundaries were changed Dell Rapids lost the vote to Sioux Falls. The area continued to thrive and was incorporated in 1888.

## GARRETSON

Named for an officer of the railroad, Garretson was settled in 1873. Streets were platted in 1889 by Orlen Royce, and the community was incorporated in 1891. Local legend has it that Jesse James and his brother, Frank, successfully jumped the gulch over Split Rock Creek after their robbery in Northfield, Minnesota. Garretson now hosts Jesse James Days in celebration every June.

## HARTFORD

Established as a railway community, Hartford was platted in 1881 and incorporated in 1896. By 1899 the area housed a post office, flour mill, creamery, schools, churches, grain elevators, hotels and an assortment of businesses. Early industry was led by agriculture and Hartford has continued to prosper.

## SIOUX FALLS (COUNTY SEAT)

Settlers were attracted to the ample natural resources of the Big Sioux River and land companies battled to establish a town. Two settlements erupted, but the Sioux War led residents to abandon the area in 1862. In 1865 Fort Dakota was established to protect the area and after its closure in 1869, Sioux Falls reopened for settlement. Railroad development allowed for dramatic growth and the community became a transportation and trading hub of the area. By 1900 its population reached over 10,000 and was selected as the county seat.

## VALLEY SPRINGS

Named after the nearby springs, Valley Springs was founded by Johnathon Dunham and M.L. Wood in 1872, who established a post office the following year. Railroad construction in 1878 allowed for growth and by 1883 the community was incorporated. Early businesses included a creamery, newspaper, hotel and general store.

**BADLANDS NATIONAL PARK:** Explore the otherworldly landscapes of Badlands National Park, known for its unique rock formations, rugged canyons, and expansive prairies. Hiking trails allow you to discover the park's diverse wildlife and stunning vistas.

**BLACK HILLS NATIONAL FOREST:** The Black Hills offer a wealth of outdoor adventures. You can hike to iconic landmarks like Harney Peak, explore scenic drives, go camping, fishing, or enjoy mountain biking through the forest's picturesque trails.

**CUSTER STATE PARK:** With its rolling hills, granite peaks, and pristine lakes, Custer State Park is a nature lover's paradise. Drive along the Wildlife Loop Road to observe a variety of animals, including bison, deer, elk, and bighorn sheep. Hiking, horseback riding, and fishing are also popular activities here.

**MOUNT RUSHMORE NATIONAL MEMORIAL:** Visit the iconic Mount Rushmore, where the faces of four U.S. presidents are carved into the granite cliffs. Take a leisurely stroll along the Presidential Trail for a closer look at the sculptures and enjoy the breathtaking views of the surrounding Black Hills.

**WIND CAVE NATIONAL PARK:** Discover the underground wonders of Wind Cave National Park, one of the world's longest and most complex caves. Join a guided tour to explore its unique formations, or enjoy hiking and wildlife viewing on the park's surface.

**MISSOURI RIVER:** The Missouri River flows through South Dakota, offering excellent opportunities for fishing, boating, and water sports. Anglers can try their luck at catching walleye, catfish, or smallmouth bass. Canoeing and kayaking are also popular on the river.

**SPEARFISH CANYON:** Located in the northern Black Hills, Spearfish Canyon is renowned for its scenic beauty. Drive along the Spearfish Canyon Scenic Byway, hike to stunning waterfalls such as Roughlock Falls and Bridal Veil Falls, or go rock climbing in this picturesque canyon.

**MICKELSON TRAIL:** If you enjoy cycling or hiking, the George S. Mickelson Trail is a must-visit. Stretching for 109 miles through the Black Hills, this converted railroad line offers stunning views, trestle bridges, and numerous trailheads for convenient access.

**SYLVAN LAKE:** Located in Custer State Park, Sylvan Lake is a serene oasis nestled amidst granite cliffs. Enjoy swimming, kayaking, or paddleboarding in the crystal-clear waters, or take a leisurely hike around the lake on the Sylvan Lake Shore Trail.

**OUTDOOR ACTIVITIES IN RAPID CITY:** Rapid City serves as a gateway to many outdoor adventures. Explore the nearby Black Hills, visit beautiful parks like Canyon Lake Park and Dinosaur Park, or go rock climbing in the Needles area.

# Be Aware of your Surroundings

- Always wear a properly fitting bike helmet as most serious injuries are to the head.
- Be sure your handlebars, seat and wheels fit snugly.
- Keep your bike in good shape by checking and oiling your chain, making sure your brakes work properly and maintaining your tire pressure.
- Always ride with both hands on the handlebars except when doing turn signals.
- When leaving a driveway, curb or alleyway always stop and check for traffic in both directions.
- Cross only at intersections.
- Use the crosswalk to walk your bike across busy intersections and follow the traffic signals.
- Never ride against traffic. Travel in the same direction as the cars.
- Whenever you can, use bike routes and avoid busy streets.
- Don't ride near parked cars as doors can open and cause accidents.
- Obey all traffic signs and traffic lights.
- When biking with friends, ride in a single file.
- Always pass other bikers or pedestrians on the left and say "On your left!" to make your presence known.
- Always use bicycle hand signals to alert traffic of your changing direction.

## Bicycle Hand Signals

# Drink lots of Water!

# Know Your ATV

## Read the owner's manual

and know your vehicle thoroughly. • Check your vehicle before you ride. • Wear protective equipment and clothing. • Don't lend your vehicle to unskilled riders. • Supervise young or inexperienced riders. • Never carry a passenger on vehicles meant for one rider. • Do not operate under the influence of drugs or alcohol. • Drive at speeds that are appropriate to trail conditions. • Stay to the right on trails. • Stay away from thin ice, open water and wetlands. • Know the weather forecast. • Make sure headlights and taillights work properly. • Maintain safe distances between other riders. • Reduce your speed when riding at night. • Yield to other motor vehicles and trail users. • Young or beginning riders are encouraged to take a safety training course.

# SNOWMOBILE SAFETY

- Do not consume alcohol or take drugs prior to or during your snowmobile trip. Doing so increases your chances of injury or death.
- Slow down and don't cut to the inside of the trail corners. It's dangerous and illegal.
- If you snowmobile at night, don't override your lights.
- Always use the buddy system. Never ride off alone.
- Drowning is one of the causes of many snowmobile fatalities. Whenever possible, avoid the ice.
- Wear sensible, protective clothing designed for operating a snowmobile.
- Use a full size helmet, goggles, or visor to prevent injuries from twigs, stones, ice chips and other debris.
- Avoid wearing long scarves. They may get caught in moving parts of the snowmobile.
- Know the terrain you are going to ride. If unfamiliar to you, ask someone who has traveled over it before.
- Know the weather forecast, especially the ice and snow conditions.
- Be sure your snowmobile is in top-notch mechanical condition throughout the months of use.
- Familiarize yourself with the snowmobile you are driving. Thoroughly read the manual that accompanies the snowmobile.
- Do not pursue domestic or wild animals. That is not the conduct of a sportsman. Report such violations to the nearest law enforcement officer.

## Snowmobile Hand Signals

Communication is an essential part of safe riding. Hand signals are a practical way to communicate between other riders and traffic. Be sure to give easy to see and clear hand signals when snowmobiling. Hand signals should never be subtle, but always deliberate.

**PRIVATE PROPERTY**  
NO TRESPASSING

Please respect private property and no trespassing signs. Stay on trails. Exercise extreme caution on all lakes and streams. Obey all state and local laws and ordinances. Do not operate snowmobiles/ATVs on county roads or state highways.

BIG SIOUX STATE RECREATION AREA

**CARRY YOUR LICENSE ON YOUR SMARTPHONE DEVICE:**

*Before heading into the field this fall, log into your GFP online licensing account from your smart-phone device to view your small game, fishing or trapping license and take a picture or screenshot of it with your device (Android, iPhone, etc.). This electronic version is now an acceptable method of carrying a small game, fishing or trapping license. If you choose to print and carry a paper copy of your small game, fishing or trapping license, that continues to be an allowed practice.*

Fishing is a good way to get out and relax. It can also be a time to bond with family or friends. Fishing is healthy as well, being outside and active is good for the body and eating fish can be beneficial. There's also the excitement of never knowing what kind of fish is going to take the bait or how big it is going to be. Plus fishing helps support wild life management.

# BUTTERED-UP Steak

Simple meal with a Gourmet Feel

## INGREDIENTS

2 steaks (ribeye or sirloin are good choices)

Salt and pepper

2 tablespoons unsalted butter

2 cloves garlic, minced

Fresh herbs (optional)

## INSTRUCTIONS

**1** Take the steaks out of the refrigerator and let them come to room temperature for about 30 minutes. This helps the steak cook more evenly.

**2** Preheat your oven to 400°F.

**3** Season the steaks generously with salt and pepper on both sides.

**4** Heat a large skillet over high heat until very hot. Add the steaks and cook for about 2-3 minutes per side, until nicely browned.

**5** Remove the steaks from the skillet and place them on a baking sheet.

**6** In the same skillet, add the butter and garlic. Cook for about 30 seconds, stirring constantly, until the garlic is fragrant.

**7** Pour the garlic butter over the steaks on the baking sheet.

**8** Place the baking sheet in the oven and cook for about 5-7 minutes for medium-rare doneness, or longer if you prefer your steak more well-done.

**9** Remove the steaks from the oven and let them rest for a few minutes before slicing.

**10** Serve the steak with any remaining butter from the baking sheet and fresh herbs if desired.

Enjoy your delicious  
buttered-up steak!

PREP: 35 MIN • TOTAL: 50 MIN

## BARBECUE DO'S:

- use proper barbecue equipment and tools, such as a grill, tongs, and spatulas.
- preheat your grill before placing any food on it.
- marinate your meat before cooking to enhance the flavor.
- keep a close eye on your food while grilling to prevent overcooking or burning.
- use a meat thermometer to ensure that your meat is cooked to the correct internal temperature.
- let your meat rest for a few minutes before slicing or serving to allow the juices to redistribute.
- keep your grill and utensils clean to prevent any foodborne illness.

## BARBECUE DON'TS:

- use lighter fluid to start your grill. Instead, use a chimney starter or electric starter.
- overcrowd your grill. Leave enough space between the pieces of meat to ensure even cooking.
- use a fork to flip your meat. Piercing the meat can cause it to lose its juices and become dry.
- baste your meat with sugary sauces too early in the cooking process, as it can burn and create a bitter taste.
- leave cooked meat out in the sun for too long, as it can spoil quickly.
- assume that meat is fully cooked by its color. Always use a meat thermometer to check the internal temperature.
- leave your grill unattended while it's still hot. Always make sure to properly cool it down before leaving it.

# Mosquitoes

## Prevention & Health Risks

### A MOSQUITO FREE YARD

Create an environment in your yard that invites animals that like to eat mosquitoes. Some things that enjoy eating mosquitoes are:

- Bats • Frogs • Fish • Turtles • Birds • Dragonflies

To help repel mosquitoes, plant some of the different vegetation listed:

- Citronella • Geranium • Eucalyptus • Rosemary • Basil • Anise • Mint • Marigolds • Catnip • Wormwood • Tansy • Lavender • Cedar • Cloves

Don't have stagnant water sitting around in things like buckets or tires.

### BE SAFE WHILE OUTDOORS

When a mosquito bites you it can leave saliva in your body. If the mosquito is infected it can transfer diseases to you. A few of the more common diseases transmitted to people are:

- Dengue • Encephalitis • Malaria • Yellow Fever.

Mosquitoes can also transmit diseases to animals. A couple of these diseases are:

- Heartworm (mostly to dogs & cats) • Encephalitis.

To reduce your chance of getting a disease from mosquitoes you can, apply mosquito repellent to your skin and clothing.

### RANDOM MOSQUITO FACTS

- More than 3,000 different mosquito species can be found around the world.
- There are around 50 different mosquito species in the Upper Midwest.
- Female mosquitoes feed on blood. Male mosquitoes feed on plant nectar.
- Some mosquito species prefer to feed on animals or reptiles over humans.
- All mosquitoes need water to complete their life cycle.
- One female mosquito can lay over 200 eggs at one time.
- Mosquito larvae only need a week in water to hatch.
- Mosquito eggs can survive for more than five years.
- Mosquitoes can fly around 1 to 2 mph.
- Mosquitoes find food by sight, infrared radiation and chemicals in the air.
- Around 1,000 Americans get ill or die from mosquito bites each year.
- Mosquitoes are a huge food source for birds, bats and some reptiles.

# TICKS

## Diseases & Prevention

You can get a tickborne disease if you are bitten by a tick that is infected • Tickborne diseases are increasing throughout the United States. • Personal protection methods can help reduce the odds of a tick bite while enjoying the outdoors

### Some symptoms of a tickborne disease

- Many tickborne diseases have similar symptoms
  - Symptoms usually show up within 2-4 weeks of being bitten
- Watch for symptoms like:

- Rash
- Fever
- Headache
- Fatigue
- Muscle or joint aches

### Tick Removal

Prompt tick removal is important.

Use tweezers to grasp the tick close to its mouth. Gently and slowly pull the tick straight outward.

Do not squeeze the ticks' body.

Wash the area and apply an antiseptic to the bite.

Watch for early signs and symptoms of a tickborne disease. Don't use folk remedies like Petroleum Jelly or a burnt match.

Blacklegged Tick Coverage

American Dog Tick Coverage

Lone Star Tick Coverage

Blacklegged (Deer) Tick  
Lyme disease  
Anaplasmosis  
Babesiosis  
Ehrlichiosis  
Powassan virus disease

American Dog (Wood) Tick  
Rocky Mountain Spotted Fever  
Tularemia

Lone Star Tick  
Ehrlichiosis  
Tularemia  
Heartland virus disease  
Southern Tick-Associated Rash Illness (STARI)

### Protect Yourself from Tickborne Diseases

**1-Know when and where you're at risk**

- Primarily Mid-May through Mid-July
- Wooded and brushy areas – Blacklegged Tick
- Grassy or wooded areas – American Dog Tick

**2-Wear EPA-registered tick repellent**

- DEET 20-30% on skin or clothing
- Permethrin 0.5% on clothing

**3-Check yourself for ticks**

- Shower after being outdoors
- Check at least once a day
- Remove ticks ASAP!

Disc golf or frisbee golf is played a lot like traditional ball golf but instead of hitting a ball with a club into a hole the player throws a frisbee into a basket. Disc golf can be played by just about anyone at any age. It's also a cheap sport to get into. Specialized frisbees for disc golf cost around \$10-\$15 and a lot of courses are free. Playing disc golf is a great way to get out for some exercise, enjoy nature and have some fun.

## GO GREEN

# Reduce, Reuse, Recycle

reduce waste, reuse materials & recycle properly

Cut back on single-use plastics, conserve water, drive less

**Community/Home Gardens:** Really good at absorbing carbon dioxide. Cuts down on pesticides/fertilizers. Also benefits mental health and provides fresh food.

**Composting:** Decreases the amount of trash in landfills and reduces carbon emissions.

**Plant Trees:** Planting trees is a classic Earth Day activity.

**Local Food:** Buy local sustainable food.

**Clean-Up Events:** Organize or participate in local clean-up efforts.

**Upcycle Crafts:** Get creative by turning old items into new useful objects.

# So, You have decided to get a pet... NOW WHAT??

**Commitment and Time:** Owning a pet is a long-term commitment. Before bringing a pet home, consider your lifestyle and ensure you have enough time to spend with your pet. Dogs, cats, and many other animals require attention, exercise, and mental stimulation.

**Choose the Right Pet for Your Lifestyle:** Different pets have varying needs, temperaments, and activity levels. Research and select a pet that fits well with your lifestyle, living situation, and family dynamics. Whether you choose a dog, cat, bird, fish, or any other animal, make sure you can provide for its specific needs.

**Proper Nutrition:** Feed your pet a balanced and nutritious diet suitable for their species and age. Consult with a veterinarian to determine the best food options for your pet's health and well-being.

**Regular Exercise:** Most pets need regular physical activity to stay healthy and happy. Engage in playtime and exercise with your pet daily, as it helps prevent obesity and provides mental stimulation.

**Routine Veterinary Care:** Schedule regular check-ups with a veterinarian to monitor your pet's health, get necessary vaccinations, and address any concerns. Early detection of health issues can often lead to better outcomes.

**Spaying/Neutering:** Consider spaying or neutering your pet if you don't plan on breeding. This helps control the pet population and can have health benefits for your pet.

**Training and Socialization:** Properly train your pet to follow basic commands and have good manners. Socialize them with other animals and people from a young age to prevent behavioral issues later on.

**Provide a Safe Environment:** Ensure that your home and yard are safe for your pet. Remove hazards, keep toxic substances out of reach, and provide appropriate shelter from extreme weather conditions.

**Grooming:** Regular grooming is essential for most pets. Brush their fur, trim nails, and clean their ears as needed to keep them comfortable and healthy.

**Identification and Microchipping:** Keep identification tags with your current contact information on your pet's collar. Consider microchipping your pet as an extra measure to ensure they can be identified if lost.

**Love and Attention:** Pets thrive on love and attention from their owners. Spend quality time with your pet, provide affection, and build a strong bond.

**Respect and Understanding:** Learn to understand your pet's body language and behavior. Respect their boundaries and feelings, and avoid forcing them into uncomfortable situations.

**Patience and Forgiveness:** Pets, especially young ones, can be mischievous or have accidents. Be patient with them during the training process and forgive any mistakes they make along the way.

**Emergency Preparedness:** Have a plan in place for emergencies, including natural disasters. Know how to evacuate with your pet safely if needed.

*If you have just rescued / adopted a new fur baby, please it is important to remember the 3-3-3 RULE:*

### 3 Days:

In the first 3 days being in its new home, they will be feeling overwhelmed, scared & unsure of what is going on. They may also be uncomfortable being "themselves", and may not want to eat or drink. They may want to "shut down" or hide under a bed or in a crate, and they will test boundaries.

### 3 Weeks:

At this point, they may be a lot more comfortable & settling in. Learning a new routine can be overwhelming, so please be patient. By now they may have figured out the new environment & accepted that this may be their FURever home. Their personality traits will start to show, as well as any behavior issue that may be present.

### 3 Months:

For most fur babies, 3 months is enough time to finally be comfortable and begin to build trust and a true bond. A sense of security may be present & a set routine will help this process.

Please know that this is not the rule with every rescued or adopted pet, as some may need 6 months to a year to adjust & adapt, depending on MANY factors. Age of animal, what type of an environment did they come from?

# Travel

Choosing the  
*perfect*  
destination

What is your dream vacation? Do you want to lay on the beach, hike a mountain or explore a city? Questions like these are a good starting point to decide on where to go. Do research on some different areas and activities that may interest you and any others that you are traveling with to identify the most suitable vacation area.

How long do you plan on being gone? Don't try to go too far or jam in to many activities if you don't have the time. Leave some free time in your schedule to accommodate any unforeseen changes during the trip.

Depending on what type of climate you are wanting to vacation in, plan your trip for an appropriate time of the year in that area. Also watch out for peak seasons at some popular vacation destinations. At these times prices may be higher with larger crowds.

#### Plan:

- Research and learn about the area you are heading to
- Check the Travel Advisories for your intended destination
- Pack the appropriate clothing and supplies you will need for your trip
- Have a backup plan in case of injury or illness while on your trip
- Let friends or family know about your trip

#### Protect:

- Make sure the food and water in the area is safe to consume
- Protect your skin from the sun and insects
- Don't take any unnecessary risks
- Keep an eye on your health while traveling & when you get back
