SUMMER PICNICS & DESSERT!

**Cones • Shakes • Malts • Avalanches • Novelties
Slushies • Hot Dogs • Sandwiches**

Lincoln County was founded in 1862 and named in honor of President Abraham Lincoln. Access to the Big Sioux River attracted many settlers and communities were established near its banks and railroad junctions. Early industry was led by agriculture as residents farmed crops and raised cattle, and Canton was selected as the county seat in 1867. By 1900 the population of Lincoln County reached 12,161 and it is now one of the fastest growing counties in South Dakota. Today Lincoln County is home to approximately 65,161 residents

BERESFORD - pop. 2,180

CANTON (COUNTY SEAT) - pop. 3,066

FAIRVIEW - pop. 61

HARRISBURG - pop. 6,732

HUDSON - pop. 311

LENNOX - pop. 2,423

TEA - pop. 5,598

WORTHING - pop. 927

**Populations are approximate.*

BERESFORD

First known as Paris, Beresford was renamed after railroad investor and admiral Lord Charles Beresford and incorporated in 1884. As rail lines were completed, business began to boom and the community housed a saloon, harness shop, physician, bank, grain elevators and general stores.

CANTON (COUNTY SEAT)

Canton was selected as the county seat in 1867 and the community was widely recognized as Gate City. Businesses were established to meet the growing needs of its residents and by 1870 the area boasted saloons, hotels, general stores and specialty shops. Streets were platted in 1875 and the community was incorporated in 1881. The community housed several institutions including Augustana College and the Hiawatha Asylum for Insane Indians which were later closed. In recent history, Canton has been recognized as the 2011 Community of the Year by the Governor's Economic Development Conference, due to its strong economy and community development.

HARRISBURG

Once known as Selina, Harrisburg was settled in 1878 with the arrival of the railroad. In 1890 its name was changed to Harrisburg and businesses included a lumberyard, post office, grocery store, bank, church and a variety of specialty shops. The first fire department was established in 1921 and the community has continued to prosper.

LENNOX

Named in honor of Ben Lennox, an officer of the railroad, Lennox was settled in 1879 as rail lines were constructed. The area grew dramatically and its population reached 400 by 1885. Businesses included a lumberyard, drug store, livery stable, hotels, saloons and a wide variety of shops which continued to attract new residents.

TEA

First known as Byron, the area was settled with railroad development and the community was renamed Tea to avoid postal confusion with an already established Byron. Streets were platted in 1900, and by 1906, Tea was incorporated and boasted a lumberyard, blacksmith shop, cheese factory, telephone office, newspaper, bank and general stores.

WORTHING

Railroad expansion allowed for the development of Worthing in 1879 and the area grew slowly. Early industry was led by agriculture as many residents farmed and raised cattle and in 1900 its population reached 200. Its proximity to Sioux Falls has allowed for more recent growth and its population has almost doubled within the last 20 years.

Minnehaha County was founded in 1862 and its name was derived from the Indian word for rapid water. Ample natural resources, access to water and fertile soil attracted settlers, and communities were established with the founding of the railroad. Early industry was led by agriculture as residents raised cattle and farmed wheat for flour. As land boundaries were changed, Dell Rapids unsuccessfully battled Sioux Falls for the county seat, and by 1900 the population of Minnehaha County reached 23,926 and the area continued to develop. Today Minnehaha County is home to approximately 197,214 residents.

BALTIC - pop. 1,246

BRANDON - pop. 11,048

COLTON - pop. 738

CROOKS - pop. 1,362

CORSON - pop. 70

DELL RAPIDS - pop. 3,996

GARRETSON - pop. 1,228

HARTFORD - pop. 3,354

HUMBOLDT - pop. 579

SHERMAN - pop. 81

SIOUX FALLS (COUNTY SEAT) - pop. 192,517

VALLEY SPRINGS - pop. 885

**Populations are approximate.*

BALTIC

The Baltic area was settled in 1881 as rail lines were constructed throughout the area. A dam, flour mill and post office were established soon after and the community began to grow. In 1884 Chris Ebert constructed a general store that was later destroyed by a devastating storm. Residents rebuilt resiliently and the area continued to thrive.

BRANDON

Streets were platted in 1878 as the railroad was constructed. By 1883 Brandon housed a church, creamery, school, post office and the area developed slowly due to its close proximity to Sioux Falls. Its population reached 200 in 1949 and in 1973 Brandon was incorporated.

COLTON

The community was founded as the Colton brothers established the Taopi Creamery Company in 1878 and the town was named in their honor. Colton grew quickly as the rail lines were laid and by 1906 was incorporated and housed a post office, town newspaper and a variety of businesses.

CROOKS

First known as New Hope, Crooks was established as a railway community. By 1897, the area boasted a post office, church, creamery and grain elevators. In 1905, the area was renamed in honor of David O. Crooks, a prominent local landowner and developer, and later in 1978 Crooks was incorporated.

CORSON

Corson is an unincorporated community in Brandon Township, Minnehaha County, South Dakota, United States with a population of 70. It lies immediately north of Interstate 90 and Brandon on South Dakota Highway 11.

DELL RAPIDS

Dell Rapids was established with the construction of a dam and flour mill in 1871, and was first known as Dell City. By 1880 the community housed a post office, ferry, newspaper, quarry, general stores and almost secured the county seat. As county boundaries were changed Dell Rapids lost the vote to Sioux Falls. The area continued to thrive and was incorporated in 1888.

GARRETSON

Named for an officer of the railroad, Garretson was settled in 1873. Streets were platted in 1889 by Orlen Royce, and the community was incorporated in 1891. Local legend has it that Jesse James and his brother, Frank, successfully jumped the gulch over Split Rock Creek after their robbery in Northfield, Minnesota. Garretson now hosts Jesse James Days in celebration every June.

HARTFORD

Established as a railway community, Hartford was platted in 1881 and incorporated in 1896. By 1899 the area housed a post office, flour mill, creamery, schools, churches, grain elevators, hotels and an assortment of businesses. Early industry was led by agriculture and Hartford has continued to prosper.

SIoux FALLS (COUNTY SEAT)

Settlers were attracted to the ample natural resources of the Big Sioux River and land companies battled to establish a town. Two settlements erupted, but the Sioux War led residents to abandon the area in 1862. In 1865 Fort Dakota was established to protect the area and after its closure in 1869, Sioux Falls reopened for settlement. Railroad development allowed for dramatic growth and the community became a transportation and trading hub of the area. By 1900 its population reached over 10,000 and was selected as the county seat.

VALLEY SPRINGS

Named after the nearby springs, Valley Springs was founded by Johnathon Dunham and M.L. Wood in 1872, who established a post office the following year. Railroad construction in 1878 allowed for growth and by 1883 the community was incorporated. Early businesses included a creamery, newspaper, hotel and general store.

--	--

BADLANDS NATIONAL PARK: Explore the otherworldly landscapes of Badlands National Park, known for its unique rock formations, rugged canyons, and expansive prairies. Hiking trails allow you to discover the park's diverse wildlife and stunning vistas.

BLACK HILLS NATIONAL FOREST: The Black Hills offer a wealth of outdoor adventures. You can hike to iconic landmarks like Harney Peak, explore scenic drives, go camping, fishing, or enjoy mountain biking through the forest's picturesque trails.

CUSTER STATE PARK: With its rolling hills, granite peaks, and pristine lakes, Custer State Park is a nature lover's paradise. Drive along the Wildlife Loop Road to observe a variety of animals, including bison, deer, elk, and bighorn sheep. Hiking, horseback riding, and fishing are also popular activities here.

MOUNT RUSHMORE NATIONAL MEMORIAL: Visit the iconic Mount Rushmore, where the faces of four U.S. presidents are carved into the granite cliffs. Take a leisurely stroll along the Presidential Trail for a closer look at the sculptures and enjoy the breathtaking views of the surrounding Black Hills.

WIND CAVE NATIONAL PARK: Discover the underground wonders of Wind Cave National Park, one of the world's longest and most complex caves. Join a guided tour to explore its unique formations, or enjoy hiking and wildlife viewing on the park's surface.

MISSOURI RIVER: The Missouri River flows through South Dakota, offering excellent opportunities for fishing, boating, and water sports. Anglers can try their luck at catching walleye, catfish, or smallmouth bass. Canoeing and kayaking are also popular on the river.

SPEARFISH CANYON: Located in the northern Black Hills, Spearfish Canyon is renowned for its scenic beauty. Drive along the Spearfish Canyon Scenic Byway, hike to stunning waterfalls such as Roughlock Falls and Bridal Veil Falls, or go rock climbing in this picturesque canyon.

MICKELSON TRAIL: If you enjoy cycling or hiking, the George S. Mickelson Trail is a must-visit. Stretching for 109 miles through the Black Hills, this converted railroad line offers stunning views, trestle bridges, and numerous trailheads for convenient access.

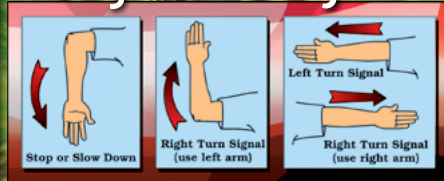

SYLVAN LAKE: Located in Custer State Park, Sylvan Lake is a serene oasis nestled amidst granite cliffs. Enjoy swimming, kayaking, or paddleboarding in the crystal-clear waters, or take a leisurely hike around the lake on the Sylvan Lake Shore Trail.

OUTDOOR ACTIVITIES IN RAPID CITY: Rapid City serves as a gateway to many outdoor adventures. Explore the nearby Black Hills, visit beautiful parks like Canyon Lake Park and Dinosaur Park, or go rock climbing in the Needles area.

Be Aware of your Surroundings

- Always wear a properly fitting bike helmet as most serious injuries are to the head.
- Be sure your handlebars, seat and wheels fit snugly.
- Keep your bike in good shape by checking and oiling your chain, making sure your brakes work properly and maintaining your tire pressure.
- Always ride with both hands on the handlebars except when doing turn signals.
- When leaving a driveway, curb or alleyway always stop and check for traffic in both directions.
- Cross only at intersections.
- Use the crosswalk to walk your bike across busy intersections and follow the traffic signals.
- Never ride against traffic. Travel in the same direction as the cars.
- Whenever you can, use bike routes and avoid busy streets.
- Don't ride near parked cars as doors can open and cause accidents.
- Obey all traffic signs and traffic lights.
- When biking with friends, ride in a single file.
- Always pass other bikers or pedestrians on the left and say "On your left!" to make your presence known.
- Always use bicycle hand signals to alert traffic of your changing direction.

Bicycle Hand Signals

Drink lots of Water!

Know Your ATV

Read the owner's manual

and know your vehicle thoroughly. • Check your vehicle before you ride. • Wear protective equipment and clothing. • Don't lend your vehicle to unskilled riders. • Supervise young or inexperienced riders. • Never carry a passenger on vehicles meant for one rider. • Do not operate under the influence of drugs or alcohol. • Drive at speeds that are appropriate to trail conditions. • Stay to the right on trails. • Stay away from thin ice, open water and wetlands. • Know the weather forecast. • Make sure headlights and taillights work properly. • Maintain safe distances between other riders. • Reduce your speed when riding at night. • Yield to other motor vehicles and trail users. • Young or beginning riders are encouraged to take a safety training course.

SNOWMOBILE SAFETY

- Do not consume alcohol or take drugs prior to or during your snowmobile trip. Doing so increases your chances of injury or death.
- Slow down and don't cut to the inside of the trail corners. It's dangerous and illegal.
- If you snowmobile at night, don't override your lights.
- Always use the buddy system. Never ride off alone.
- Drowning is one of the causes of many snowmobile fatalities. Whenever possible, avoid the ice.
- Wear sensible, protective clothing designed for operating a snowmobile.
- Use a full size helmet, goggles, or visor to prevent injuries from twigs, stones, ice chips and other debris.
- Avoid wearing long scarves. They may get caught in moving parts of the snowmobile.
- Know the terrain you are going to ride. If unfamiliar to you, ask someone who has traveled over it before.
- Know the weather forecast, especially the ice and snow conditions.
- Be sure your snowmobile is in top-notch mechanical condition throughout the months of use.
- Familiarize yourself with the snowmobile you are driving. Thoroughly read the manual that accompanies the snowmobile.
- Do not pursue domestic or wild animals. That is not the conduct of a sportsman.
- Report such violations to the nearest law enforcement officer.

Snowmobile Hand Signals

Communication is an essential part of safe riding. Hand signals are a practical way to communicate between other riders and traffic. Be sure to give easy to see and clear hand signals when snowmobiling. Hand signals should never be subtle, but always deliberate.

HUNTING SEASONS

For general information on firearm safety training Contact the SD GFP

For specific zone areas/dates: Online: <https://gfp.sd.gov>

Telephone: 605.223.7660, or scan the QR code.

CARRY YOUR LICENSE ON YOUR SMARTPHONE DEVICE:

Before heading into the field this fall, log into your GFP online licensing account from your smart-phone device to view your small game, fishing or trapping license and take a picture or screenshot of it with your device (Android, iPhone, etc.). This electronic version is now an acceptable method of carrying a small game, fishing or trapping license. If you choose to print and carry a paper copy of your small game, fishing or trapping license, that continues to be an allowed practice.

Cottontail Rabbit Season

Start: Sep 1, 2022

HONEY Glazed CHICKEN

Simple meal with a Gourmet Feel

INGREDIENTS

- 4 boneless, skinless chicken breasts
- 1/2 cup honey
- 1/4 cup soy sauce
- 2 tablespoons olive oil
- 2 tablespoons apple cider vinegar
- 2 garlic cloves, minced
- Salt and pepper to taste

INSTRUCTIONS

- 1 Preheat the oven to 375°F (190°C).
- 2 In a small bowl, whisk together the honey, soy sauce, olive oil, apple cider vinegar, garlic, salt, and pepper.
- 3 Place the chicken breasts in a baking dish and pour the honey glaze over the chicken, making sure it's evenly coated.
- 4 Bake in the preheated oven for 25-30 minutes, or until the chicken is cooked through and no longer pink in the center.
- 5 After 15 minutes of baking, remove the chicken from the oven and brush the remaining honey glaze over the chicken. Return the chicken to the oven and continue baking.
- 6 Once done, remove from the oven and let rest for a few minutes before serving.
- 7 You can garnish with sesame seeds and chopped green onions if you like.

Enjoy your delicious
honey glazed chicken!

PREP: 10 MIN • TOTAL: 40 MIN

BARBECUE DO'S:

- use proper barbecue equipment and tools, such as a grill, tongs, and spatulas.
- preheat your grill before placing any food on it.
- marinate your meat before cooking to enhance the flavor.
- keep a close eye on your food while grilling to prevent overcooking or burning.
- use a meat thermometer to ensure that your meat is cooked to the correct internal temperature.
- let your meat rest for a few minutes before slicing or serving to allow the juices to redistribute.
- keep your grill and utensils clean to prevent any foodborne illness.

BARBECUE DON'TS:

- use lighter fluid to start your grill. Instead, use a chimney starter or electric starter.
- overcrowd your grill. Leave enough space between the pieces of meat to ensure even cooking.
- use a fork to flip your meat. Piercing the meat can cause it to lose its juices and become dry.
- baste your meat with sugary sauces too early in the cooking process, as it can burn and create a bitter taste.
- leave cooked meat out in the sun for too long, as it can spoil quickly.
- assume that meat is fully cooked by its color. Always use a meat thermometer to check the internal temperature.
- leave your grill unattended while it's still hot. Always make sure to properly cool it down before leaving it.

Boating safety is critical for anyone who operates a boat or spends time on the water. Here are some general boating safety tips to keep in mind:

- **Wear a life jacket:** Always wear a life jacket while boating. Make sure the life jacket is appropriate for your weight and is U.S. Coast Guard approved.
- **Know the weather:** Check the weather forecast before you go boating and keep an eye on changing conditions. If you notice darkening clouds, rough winds or sudden drops in temperature, get off the water.
- **Use navigation aids:** Use navigation aids like buoys and beacons to help you navigate safely.
- **Maintain your boat:** Keep your boat well-maintained and in good working condition. Make sure all safety equipment is in good condition and functioning properly.
- **Avoid alcohol:** Do not drink alcohol while operating a boat. It is illegal and increases the likelihood of accidents.
- **Watch your speed:** Observe speed limits and maintain a safe speed based on conditions. Remember, slower speeds may be necessary in crowded areas or in inclement weather.
- **Be aware of other boats:** Watch for other boats and be aware of their movements. Always assume other boaters may not see you.
- **Know the rules:** Learn and follow boating safety laws and regulations. This includes rules for navigation, safety equipment, and right-of-way.
- **File a float plan:** Always let someone know where you are going and when you plan to return. File a float plan with a trusted person or a marina.
- **Take a boating safety course:** Consider taking a boating safety course to improve your skills and knowledge.

By following these general boating safety tips, you can reduce the likelihood of accidents and enjoy a safe and enjoyable time on the water.

YOUR Help is NEEDED!

Do
NOT
Transport
Invasive:
• Fish
• Invertebrates
• Aquatic Plants

CLEAN. DRAIN. DISPOSE.

KNOW THE LAW! YOU MAY NOT...

- TRANSPORT WATERCRAFT WITHOUT REMOVING THE DRAIN PLUG.
- ARRIVE AT LAKE ACCESS WITH DRAIN PLUG IN PLACE.
- TRANSPORT AQUATIC PLANTS, ZEBRA MUSSELS, OR OTHER PROHIBITED SPECIES ON ANY ROADWAY.
- LAUNCH A WATERCRAFT WITH PROHIBITED SPECIES ATTACHED.
- TRANSPORT WATER FROM LAKES OR RIVERS.
- RELEASE BAIT INTO THE WATER.

GO GREEN

Reduce, Reuse,
Recycle

reduce waste, reuse materials & recycle properly

Cut back on single-use plastics,
conserve water,
drive less

EVERY
DAY
is
EARTH
DAY

Community/Home Gardens: Really good at absorbing carbon dioxide. Cuts down on pesticides/fertilizers. Also benefits mental health and provides fresh food.

Composting: Decreases the amount of trash in landfills and reduces carbon emissions.

Plant Trees: Planting trees is a classic Earth Day activity.

Local Food: Buy local sustainable food.

Clean-Up Events: Organize or participate in local clean-up efforts.

Upcycle Crafts: Get creative by turning old items into new useful objects.

FIREWOOD

Burn it where you get it!

Invasive pests like the Emerald Ash Borer and Gypsy Moth have devastated millions of trees in the United States. Where these pests come from, the population stays in control because, they have natural predators. The United States does not have these natural predators so the populations have the chance to grow to extreme numbers.

Emerald Ash Borer

Gypsy Moth Caterpillar

Preventing the Spread

- Buy local firewood.
- Burn all firewood completely at each destination.
- Move only Certified firewood out of a quarantine county or across state boundaries.
- Use firewood from nearby sources to heat your home or cabin.
- Tell your friends and family about the importance of not moving firewood.
- Don't move hardwood firewood out of a quarantine county, unless it is state or USDA certified.
- Don't move opened firewood bundles.
- Don't move firewood long distances to or from your lake home or cabin.

Invasive Pests are a Problem!

Health Benefits of Physical Activity

Major Research Findings

from the Center for Disease Control and Prevention

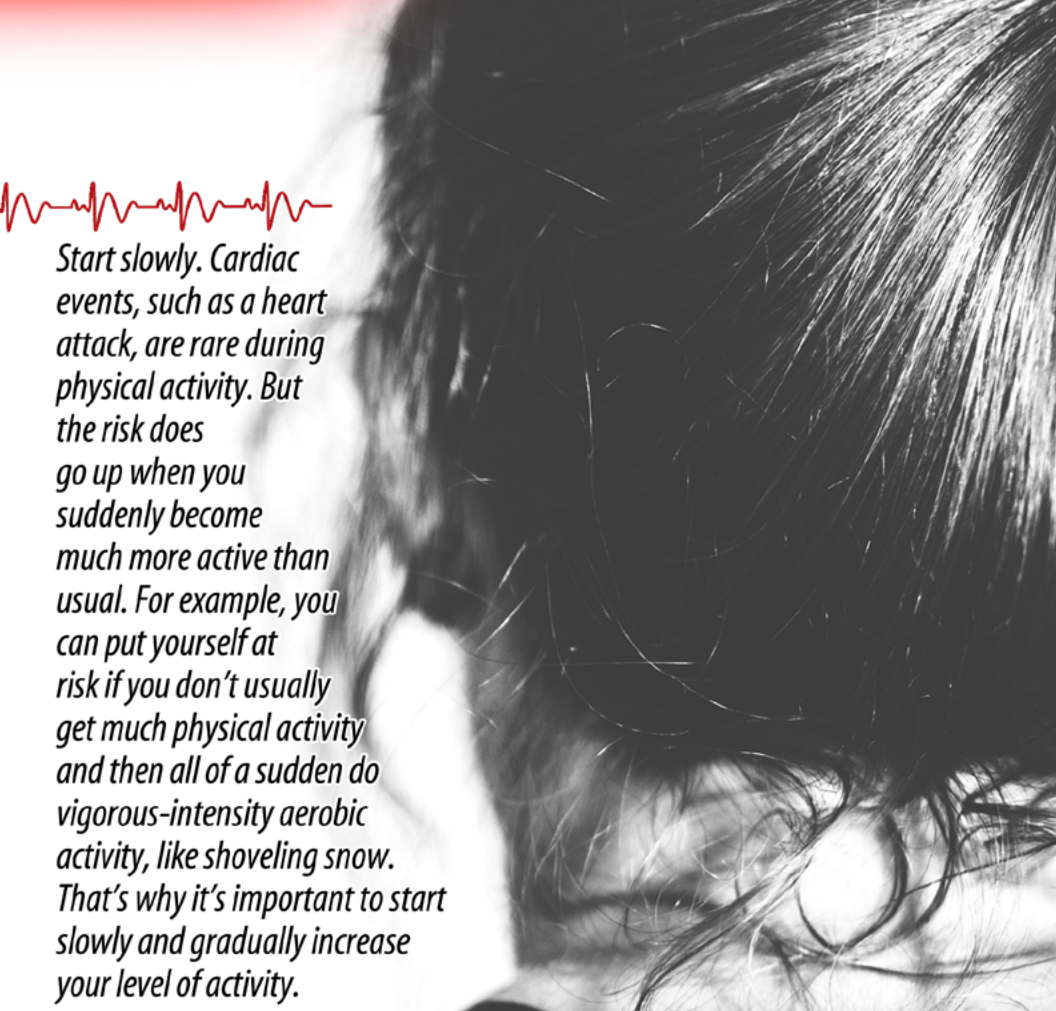

- 
- Regular moderate-to-vigorous physical activity reduces the risk of many adverse health outcomes.
 - Some physical activity is better than none.
 - For most health outcomes, additional benefits occur as the amount of physical activity increases through higher intensity, greater frequency, and/or longer duration.
 - Substantial health benefits for adults occur with 150 to 300 minutes a week of moderate-intensity physical activity. Additional benefits occur with more physical activity.
 - Both aerobic and muscle-strengthening physical activity are beneficial.
 - Health benefits occur for children and adolescents, young and middle-aged adults, older adults, and those in every studied racial and ethnic group.
 - The health benefits of physical activity occur for people with chronic conditions or disabilities.
 - The benefits of physical activity generally outweigh the risk of adverse outcomes or injury.

Guidelines for Adults

- For substantial health benefits, you should do at least 2.5hrs a week of moderate-intensity, or 1.25hrs a week of vigorous-intensity aerobic activity, or a combination of the two activities. Aerobic activity should be performed in episodes of at least 10 minutes, and should be done throughout the week.
- For even better health benefits, adults should increase their aerobic physical activity to 5hrs a week of moderate-intensity, or 2.5hrs a week of vigorous-intensity aerobic physical activity, or a combination of the two activities.

Guidelines for Children and Adolescents

- Children and adolescents should do an hour or more of physical activity daily.
- Aerobic: Most of the hour or more a day should be either moderate- or vigorous-intensity aerobic physical activity.
- Muscle-strengthening: As part of their hour or more of daily physical activity, children and adolescents should include muscle-strengthening physical activity on at least 3 days of the week.
- Bone-strengthening: As part of their hour or more of daily physical activity, children and adolescents should include bone-strengthening physical activity on at least 3 days of the week.
- It is important to encourage young people to participate in physical activities that are appropriate for their age, that are enjoyable, and that offer variety.

Start slowly. Cardiac events, such as a heart attack, are rare during physical activity. But the risk does go up when you suddenly become much more active than usual. For example, you can put yourself at risk if you don't usually get much physical activity and then all of a sudden do vigorous-intensity aerobic activity, like shoveling snow. That's why it's important to start slowly and gradually increase your level of activity.

Intensity Examples

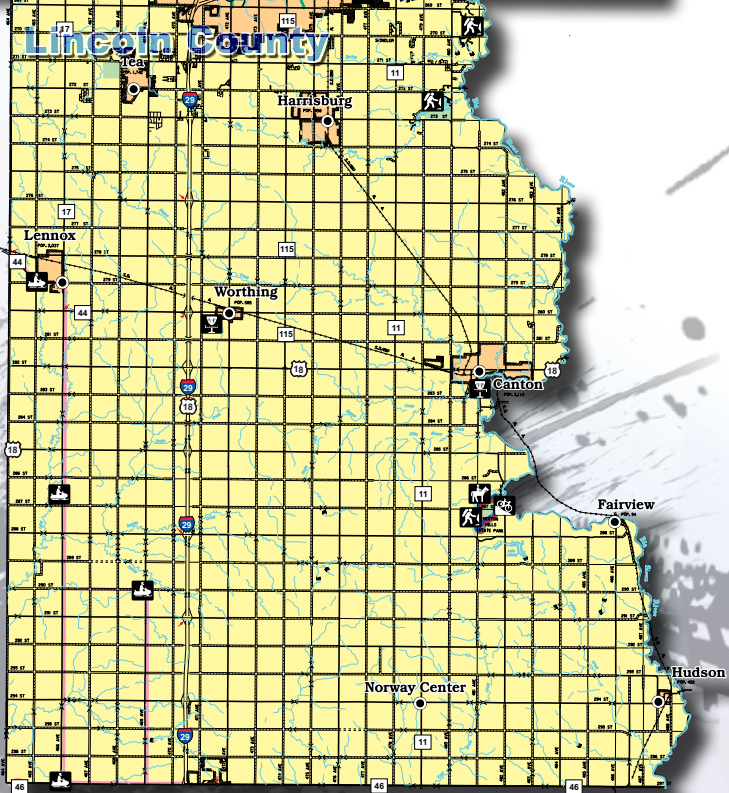

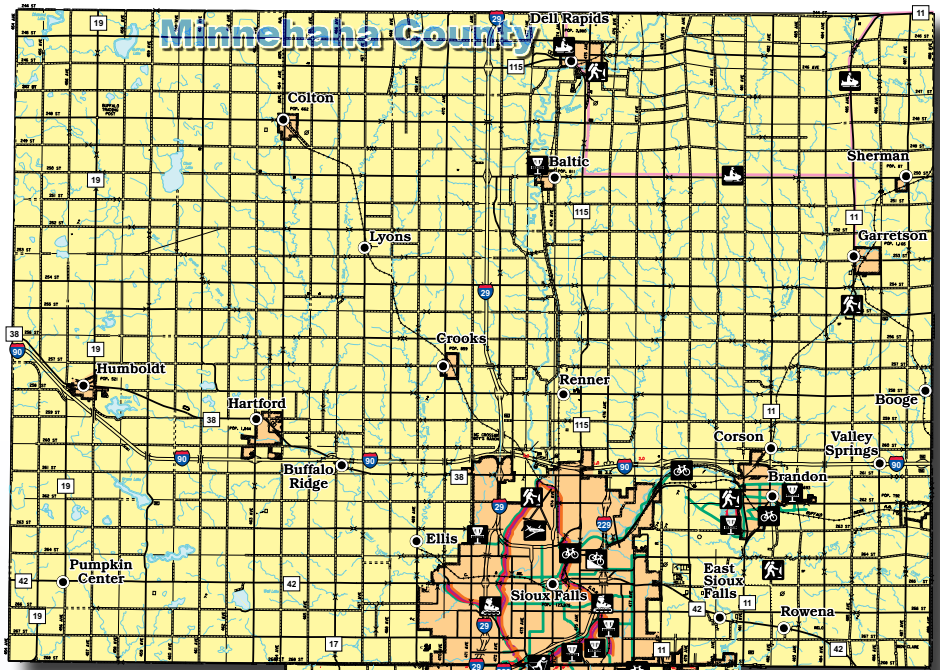

Moderate Intensity

- Walking briskly (3 mph or faster, but not race-walking)
- Water aerobics
- Bicycling slower than 10mph
- Tennis (doubles)
- Ballroom dancing
- General gardening

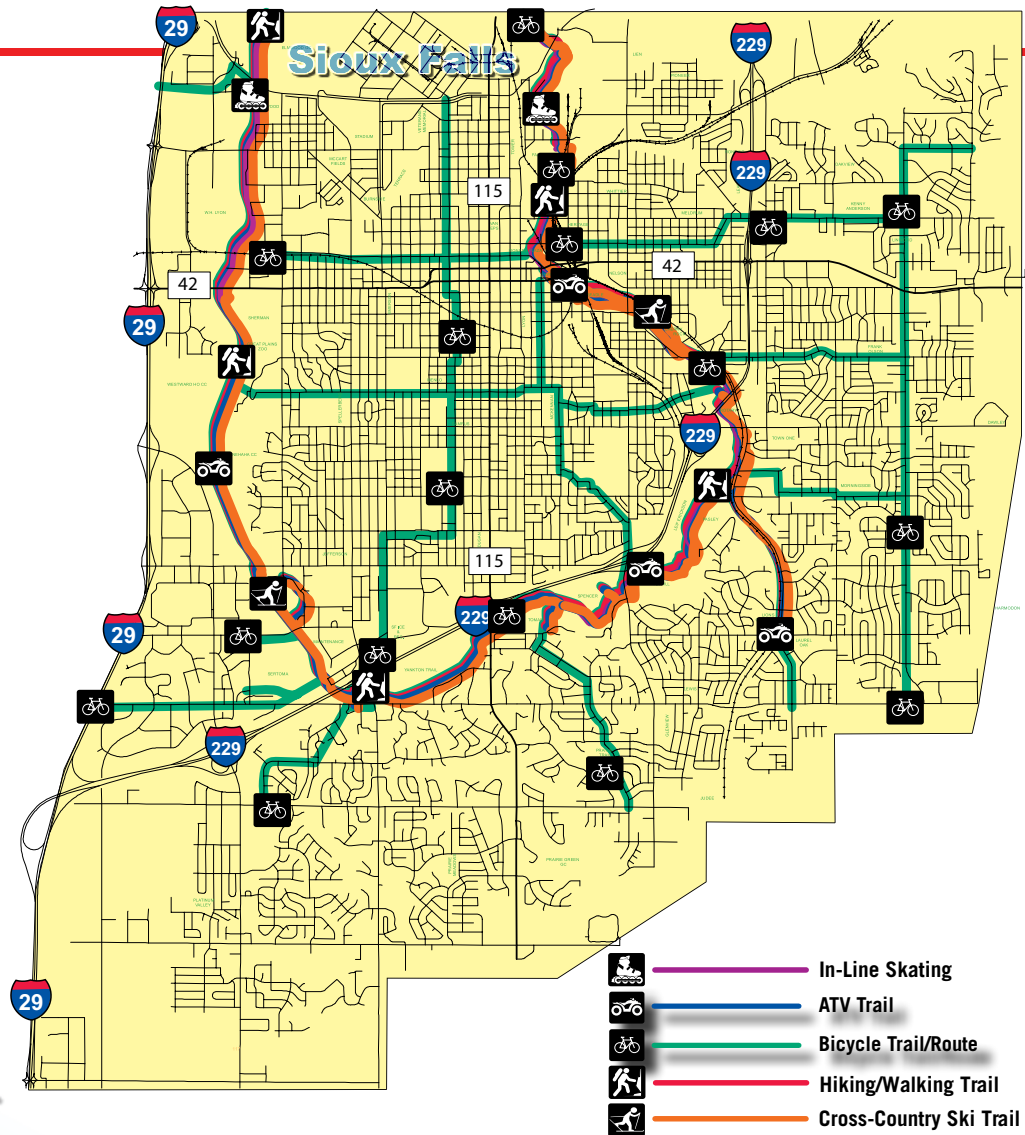

Vigorous Intensity

- Race walking, jogging, running
- Swimming laps
- Tennis (singles)
- Aerobic dancing
- Bicycling 10mph or faster
 - Jumping rope
 - Heavy gardening (continuous digging or hoeing)
- Hiking uphill or with a heavy backpack

SAFETY FIRST: Treat every firearm as if it's loaded and always point the muzzle in a safe direction. Wear appropriate protective gear. Be aware of your surroundings and the location of fellow hunters.

KNOW YOUR GAME & REGULATIONS: Familiarize with the species you're hunting, their habitats, behaviors, and migration patterns.

Research and adhere to all local, state, and federal hunting regulations. **PRACTICE SHOOTING SKILLS:** This will improve your accuracy and confidence. Work on different shooting positions, target tracking, and quick shots. **SCOUTING & HABITAT KNOWLEDGE:** Scout potential hunting areas before the season to identify their habitats, feeding grounds, and roosting sites. **USE PROPER GEAR & TECHNIQUES:** Choose hunting gear specific to the species you're targeting. Research and practice hunting techniques, such as camouflage, concealment, calling and understand wind direction.

Remember that ethical hunting practices, respect for wildlife, and safety should always be paramount while participating in any hunting activity. Additionally, always make sure to follow local hunting guidelines and regulations to protect the environment and wildlife populations.

HAPPY HUNTING!

Furnace Maintenance

If there is a smell of gas in your home, do not shut the gas off or use any lights. Get out of the house and leave the door open. Once a safe distance from the house call the gas company or the fire department. Do not reenter until you have a confirmation from the gas company or the fire departments that it's safe.

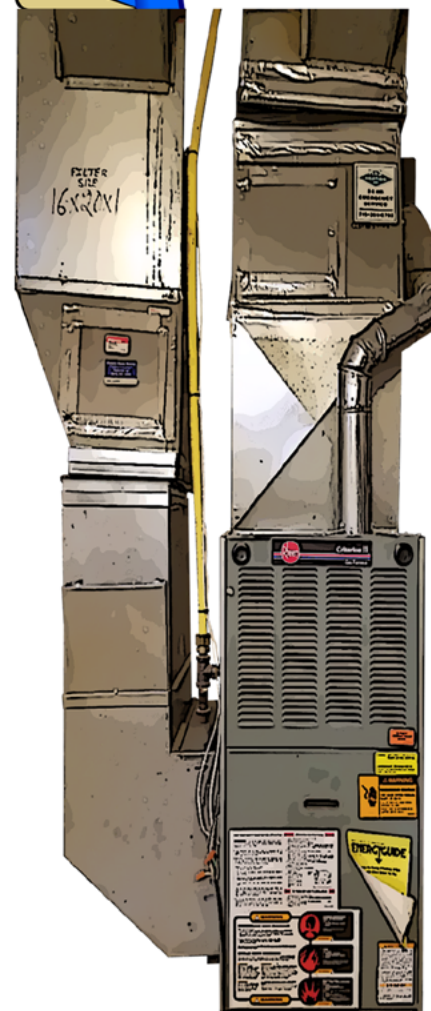

It is important to maintain all furnace types. Without any maintenance the furnace will have a shorter life span and may cause harm to you or your household by emitting carbon monoxide, causing a fire or breaking down. You should check your furnace at least once a year or hire a professional to do it.

For a gas furnace start by turning off the power and gas to the furnace and removing the combustion chamber door. Clean the combustion chamber with a soft wire brush and a vacuum. Inspect the combustion chamber for any corrosion. If the combustion chamber is clean and in good condition turn the power and gas back on and check the burner flames to make sure they are burning fairly even and blue. If the burners are not working correctly call a professional to adjust them.

Inspect the flue pipe to make sure there is no corrosion or any holes. For small holes you can use some foil tape to patch them. If there are bigger holes or signs of corrosion you will need to replace that section of flue pipe.

Change the furnace filters. The packaging on the filter should have a rough estimate of the filters life but the filters should be changed at least once a year. Next to the filters should be the blower chamber. It is a good idea to vacuum and clean the inside of this area as well to help lengthen the life of the filters.

Clean the floor ducts with a vacuum. This will help the furnace be more efficient and also reduce the amount of airborne particles and dust.

Fall Lawn Care

In the fall grass grows fast. This is because the sun's rays are less intense during the day and the cooler temperatures at night. This makes it a great time to get your lawn good and healthy for next summer.

Here are a few things you can do to prep your lawn for next year.

- Remove the leaves from your lawn to prevent matting and fungi growth. Or mulch them up into fine pieces, which also acts as a natural fertilizer.
- Don't stop mowing. If the grass is too long come winter time it will lay over on itself and be more vulnerable to fungi.
- Aerate the soil every other year to loosen it up so water, oxygen and nutrients can get to the roots easier.
- Reseed bald or thin areas of grass around the yard.
- Fertilizing in the fall is the best time. It gives the grass important nutrients to help it stay strong and healthy through the winter.
