**Fishing**

Fishing is a good way to get out and relax. It can also be a time to bond with family or friends. Fishing is healthy as well, being outside and active is good for the body and eating fish can be beneficial. There's also the excitement of never knowing what kind of fish is going to take the bait or how big it is going to be. Plus fishing helps support wild life management.

**BIRD HUNTING Tips**

**SAFETY FIRST:** Treat every firearm as if it's loaded and wear appropriate protective gear. Be aware of your surroundings and the location of fellow hunters. **GAME & REGULATIONS:** Know the species you're hunting, their habitats, behaviors, and migration patterns. Adhere to all local, state, and federal hunting regulations. **PRACTICE SHOOTING:** This will improve your accuracy and confidence. Work on different shooting positions, target tracking, and quick shots. **SCOUTING & HABITAT:** Scout potential hunting areas before the season to identify their habitats, feeding grounds, and roosting sites. **GEAR & TECHNIQUES:** Choose hunting gear specific to the species you're targeting. Practice hunting techniques, such as camouflage, concealment, calling and understand wind direction.

Remember that ethical hunting practices, respect for wildlife, and safety should always be paramount while participating in any hunting activity. Additionally, always make sure to follow local hunting guidelines and regulations to protect the environment and wildlife populations. **HAPPY HUNTING!**

**Bowman LANDING**
